

LUXURY VINYL TILE

FOR ACUTE CARE

Tandus | Centiva
A Tarkett Company

LUXURY VINYL TILE

The healing process can be greatly enhanced in an environment that is designed to provide an atmosphere of comfort and care.

Tandus Centiva's high-performance LVT (luxury vinyl tile) meets the unique flooring demands found in healthcare environments. It is thoughtfully designed and easily maintained. With an extensive range of designs, sizes and surface textures, our LVT products work in tandem with our Powerbond®, Freeform®, Modular, Broadloom and Woven products.

Benefits of LVT

- Design capabilities allow for greater customization and wayfinding
- Standard wear layer thickness of up to 32 mils provides superior performance and durability
- Ease of cleanability and maintenance (no topical finish required)
- Excellent rollability allows ease of movement of beds, wheelchairs and medical equipment
- Nonporous surface resistant to stains
- Durable construction resists indentations
- American manufacturing facilities provide shorter lead times and decrease transportation costs
- Easy installation and replacement
- Extended Commercial Wear Warranty ensures superior performance
- FloorScore® certified for improved indoor air quality
- Contributes to LEED credits
- NSF/ANSI 332 Gold Certification – Contour & Victory
- Quickship available for over 50 products that can ship in as little as two business days
