TOGETHER

FOR MORE THAN 130 YEARS,
Tarkett has been at the foundation of
CREATING MORE BEAUTIFUL SPACES,
unlocking the *INFINITE POSSIBILITIES*
that happen when *WE COME TOGETHER.*

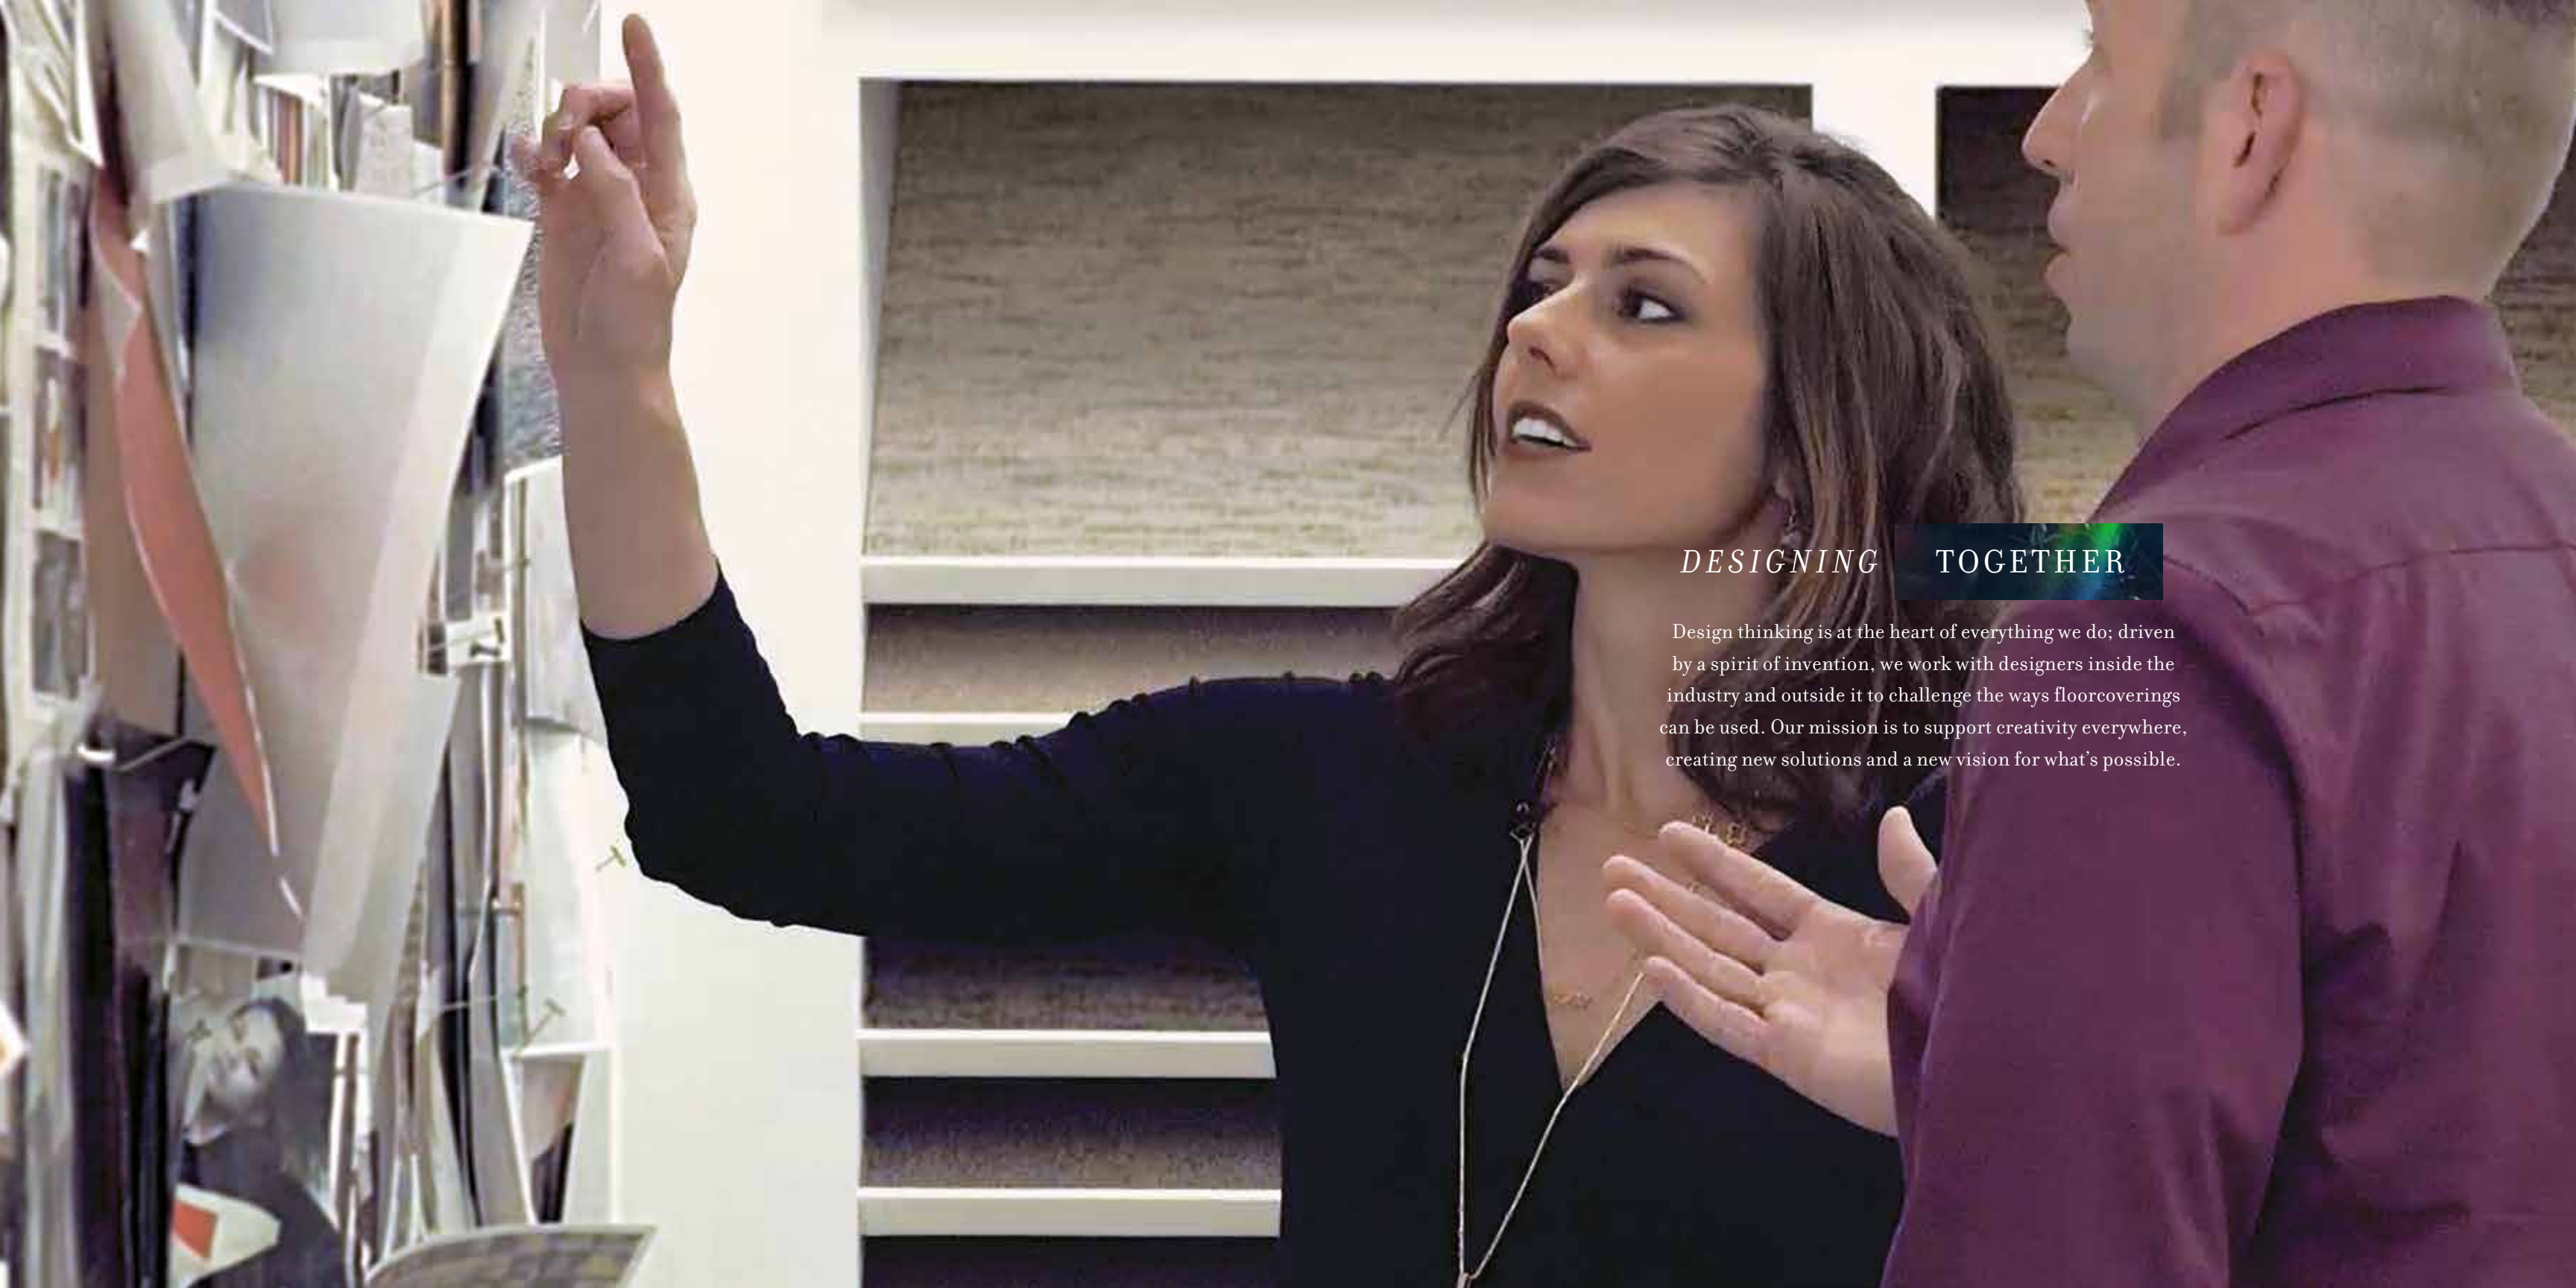

CREATING  *TOGETHER*

Tarkett believes deeply in the value of collaboration, in bringing together different voices and ideas to create something worth more than the sum of its parts. We've been co-creating with our customers and leading designers around the globe to create flooring solutions that inspire.

A woman with long dark hair, wearing a red sweater, is seen from behind, looking at a tablet computer. She is in a modern office environment with large glass windows. In the background, through the glass, several people are sitting at a table, working on laptops. The office has a clean, professional look with wood paneling and glass partitions.

BUILDING BRANDS **TOGETHER**

Tarkett is a family of brands—Tandus Centiva, Johnsonite, and Desso—with products designed to work together, all united by a single purpose: Collaborating for better futures by creating beautiful spaces in which people can be as happy, healthy, and productive as possible.

DESIGNING TOGETHER

Design thinking is at the heart of everything we do; driven by a spirit of invention, we work with designers inside the industry and outside it to challenge the ways floorcoverings can be used. Our mission is to support creativity everywhere, creating new solutions and a new vision for what's possible.

WORKING **TOGETHER**

As the way people work continues to evolve around the world, we deliver the products and ideas that anticipate where the workplace is headed—and open the doors to new collaborations with the people who live with and work on our flooring.

INSPIRING **TOGETHER**

In seven design centers around the world, we're pushing the boundaries of design, using our flooring in bold new ways that, in turn, inspire more creative collaborations.

DOING GOOD

TOGETHER

Every day, we're leading sustainable business practices by prioritizing the health of people and the planet in everything we do—from sourcing ingredients to recycling. And we're opening the doors to the entire industry to join with us in our efforts.

Good materials. Good environments. Good health.
