Tandus Centiva Introduces Cartography at NeoCon 2015

Dalton, GA (June 24, 2015) - Tandus Centiva, a Tarkett company, introduces Cartography. Inspired by ancient map-making techniques, Cartography reinvigorates commercial settings with a fresh take on organics for interior floorcovering. Using abstract map shapes and bright color accents, Cartography provides the perfect solution for floor plane spacing and workplace seating. Matte and lustrous fiber with cut and un-cut pile add depth and visual interest.

Manufactured with the latest in sustainable flooring innovation, Cartography delivers unmatched stability and performance with ethos®, a Cradle to Cradle Certified™ backing option. Developed in 2010, ethos® is made from recycled PVB, which is an abundantly available waste film from postconsumer windshields and safety glass. As a Cradle to Cradle Certified™ Silver v3.0 product, ethos modular will contribute to LEED v4 MR Credit 3 options 1 and 2 for material disclosure and optimization.

Cartography continues to raise the bar of environmentally conscious design by utilizing the Tandus Centiva ReStart® Program, celebrating over 20 years of reclamation and recycling.

For more information on Cartography, visit www.tandus-centiva.com/whatsnew.
