Tarkett's First Area Rug Collection Launches

SOLON, Ohio (June 12, 2017) — Tarkett, a worldwide leader in innovative and sustainable flooring and sports surface solutions, today introduces Tandus Centiva's newest look for interiors with its Area Rug collection.

Tandus Centiva's refined woven Area Rugs add regality and luxury to any interior. Each Area Rug is constructed using the same refined, high-quality methods Tandus Centiva products have been known for, meaning the new product offers beautiful durability wherever it's used.

Area Rugs by Tandus Centiva allow an interior to be reconfigured time and again, allowing the space's design to be changed at will. When trends or tastes change, these Area Rugs provide the classic touches that unify any on-trend pieces that enter the designed room.

The new Area Rugs are available in 10 styles offered in multiple colors, with 21 colors for serging options. All serging colors are solution dyed, meaning they stand up to the rigors of commercial interior cleaning. The natural colorways and subtle textures allow the rugs to merge with a décor without overpowering it, and the soft, square corners add sophistication to a finished design.

The Tandus Centiva Area Rug Collection will be available beginning in June 2017. A new Area Rug Configurator, located online [here](#), allows a designer to co-create by giving him or her the opportunity to build, visualize, and order an Area Rug.

More information about all of Tarkett's products can be found at www.tarkettna.com. High resolution product images available upon request.

###

About Tarkett
