Tephra & Input

POWERBOND & MODULAR

Where the
lines of
work and
life blend.

Suzanne Tick Design™

 **Tarkett**

In an era when the lines of work and life blend, the workplace looks and feels more and more like home. Meet Tephra, the latest creation by Tandus Centiva and world renowned designer Suzanne Tick. Aimed to thoughtfully carry residential trends into commercial spaces, Tephra can be used to create cozy social spaces, comfy private offices and luxurious lobbies.

Transcending
time and
place.

Installation: Vertical Ashlar

A textural experience.

Informed by honest materials, such as raw stones and hidden fractures in the earth, Tephra brings a familiar feeling of comfort. Its sculpted organic texture creates an experiential space, placing focus on how Tephra feels, as much as how it looks. The experience is heightened by a mix of high- and low-contrast plied yarns and softly shifting color—a combination that enhances our senses and elevates our mood.

INPUT 11083 Color: Cable Jetting 11601, Chrysoberyl 11613
Mixed Tile Installation

Designed as a line extension to the IxD Series, Tephra works beautifully with color coordinate Input to create shifts in pattern and texture within the floor plane. With the addition of 5 new colorways, Input has one-to-one color matches with Tephra and is ideal for spaces where a lower tip-sheared texture is desired.

The combination of Tephra and Input provides flexibility for interiors to be designed with textural shifts going from high to low texture, and from more pattern to less pattern. Input also allows designers to cross-average large projects with Tephra in high-end offices and conference rooms, and Input in back offices and corridors.

Together,
they go
further.
