

Sharpen your project with custom-cut design

新

EDITORIAL

Noun: cutting and assembling technique of Tarkett resilient materials, made available to specifiers, for scalable bespoke projects to fit any space.

Traditionally, marquetry consists of inlay work, an exquisite craftsmanship that has weathered the centuries and has spanned the continents enhancing all types of materials from wood to stone, precious stones to leather and all types of surfaces. Floorcraft provides the foundation for a new avantgarde by channeling marquetry to a new craftsmanship that is modern to the core. Thus combining exhilarating colours and materials into traditional and modern patterns to create exclusive works of art.

DESIGN YOUR BESPOKE FLOORING WITH FLOORCRAFT

FROM STYLISHLY SLEEK TO IMPRESSIVELY INTRICATE,

our Floorcraft **sonic-cutting service** brings shape to your most complex **bespoke** projects contributing its love of fine craftsmanship and design expertise for a perfect creative collaboration.

Our floors are sonic cut to a design and pieced together before being protected with a clear adhesive film that holds the pieces together during installation. This film is then removed once the flooring adhesive has set.

Tarkett is one of the few companies to use the sonic cutting method ensuring advanced technical sophistication and extreme accuracy. Most of our Luxury vinyl tiles, Linoleum, Homogenous and Heterogeneous floors are suitable for Floorcraft design solutions.

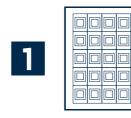

All designs are scalable to fit any space, so there is no limit to the size of a customised flooring scheme.

Tailored to meet your vision, our Floorcraft service takes you step by step through the design of your own unique flooring with an acute sense of attention to detail.

FLOORCRAFT...

... is about bringing your bespoke projects to life. You imagine your unique creation and we make it for you!

... is also about providing you with an ever greater choice through our predefined shapes library to save you time.

Create your own layout or choose one from our Floorcraft library

Choose your flooring collections* and colours** amongst our wide range of resilient floorings

Your flooring is sonic-cut into your bespoke design

Your flooring is pieced together and protected with an adhesive film

Please refer to page 60 to see full ordering process

*You may use one collection or combine multiple resilient floorings in the same project. Please contact your sales representative to get details about possible combinations.

**Colour palettes are specific to every collection. Please visit our website to browse through our resilient flooring ranges professionals.tarkett.com

You can receive your flooring pre-assembled and protected with an adhesive carrier tape. Your floor is ready to install!

Your creation. You dream it, we make it.

by SARC Architect, Finland

Entrances and common areas play an important role in providing patients and visitors with a positive impression, helping to reduce stress.

Colourful motifs and themes can be a helpful and reassuring distraction, particularly in children's wards.

Our Floorcraft soniccutting customisation service offers scope for stunning effects and eye-catching concepts.

10 FLOORCRAFT

Jamie Oliver's Fifteen Restaurant Cornwall

by Absolute Design, United Kingdom

This bespoke design was created using sonic cut modular vinyl tile flooring material. Each sonic cut piece was individually assembled into panels to create this fantastic contemporary interior. Our computer controlled cutting machine achieves extra precision without any material waste. Even complex schemes can be completed with extreme accuracy.

Sonic cutting can be used to create intricate designs that will fit together precisely ensuring an easy maintenance.

HOW CAN I CREATE AND ORDER MY FLOORCRAFT FLOORING ?

You have a specific bespoke project in mind and would like to call upon our Floorcraft service to achieve it? Or you wish to add features or logos to your flooring ? Here are the steps to follow.

Create your own layout or share a clear image of your logo with your sales representative*.

You will receive a **PDF colour** visual design for approval

Beginning of production***

Contact your sales representative with your project specification and select your floorings

Contact your sales representative if you wish to receive product samples**

You can receive your flooring pre-assembled & protected with an adhesive carrier tape

You will receive a price quotation for your project

Approve the design and place your order

Your floor is ready-to-install

Please refer to installation guidelines before starting the process

*Most of our resilient floorings can be used for your Floorcraft projects. Our glue-down Luxury vinyl tiles floorings, Heterogeneous Vinyl except for Omnisport Pure play and Homogeneous Vinyl materials except Safety. Please note that linoleum Floorcraft projects will need to be assessed prior to acceptance.

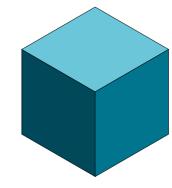

For bespoke features, you can choose from our library of predesigned shapes or send us your specific bespoke design. Image should be without any copyright restrictions.

**A sample consists of a cut tile in the pattern required to show the colours and general design. Size is 300x300 max and cost is £40 each.

***Production may take from 6 to 8 week lead depending on project complexity and selected material. These timings are for guidance only, please check with your sales representative for specific timing. Larger projects will have to be evaluated individually

MIX AND MATCH SUGGESTED HARMONIES

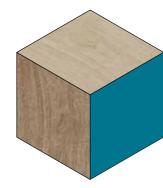

Gradient

CAMAÏEU HARMONY

result.

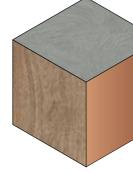

Contrast

COMPLEMENTARY HARMONY

Complementary pairings that intensify the contrast in colour, tone and luminosity of different design elements. An ideal way to explore dynamic yet natural contrasts, for example between hot and cold colours.

Texturing

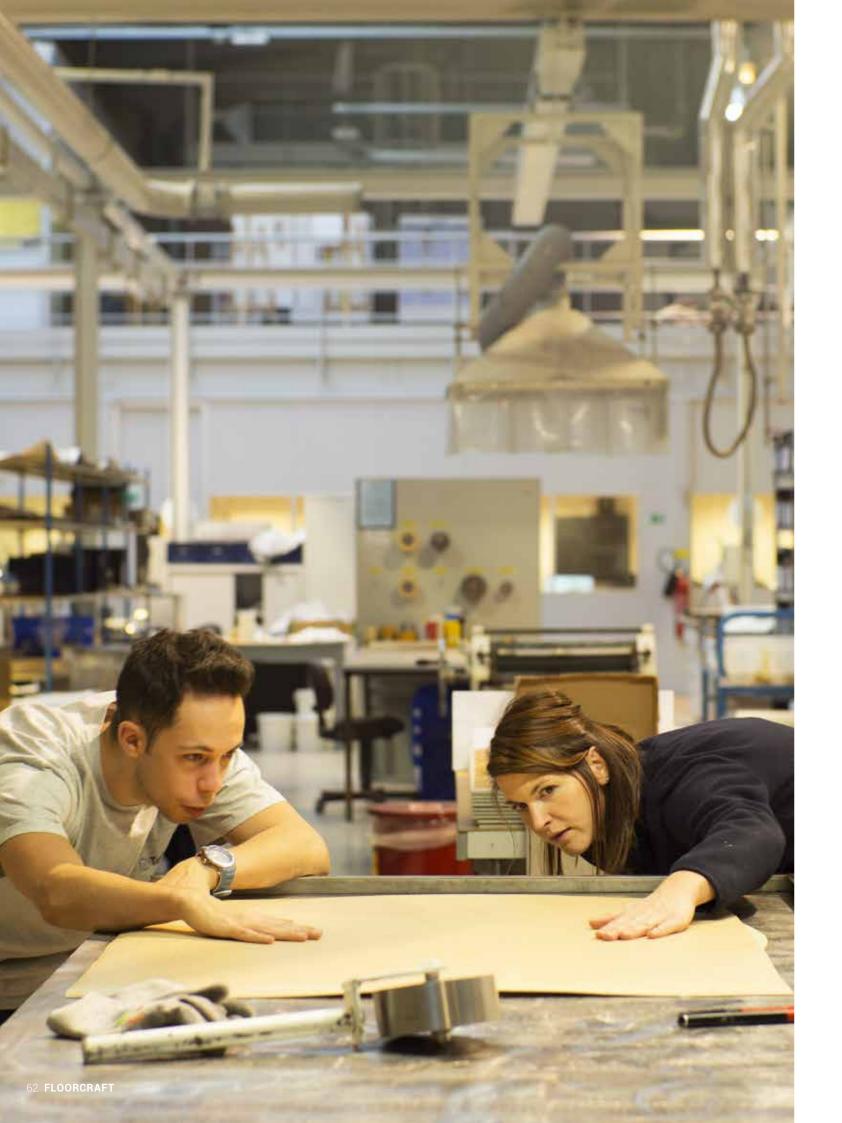

MULTIMATERIAL HARMONY

unique concept.

A colour-driven approach that highlights the transition and variation in hues of the same or similar colours. A way of creating soft and harmonious designs for a soothing and elegant

Creative freedom to experiment with endless combinations of different textures such as wood and stone with a wide colour palette. Mix and match in different thematic harmonies for a truly

Doing Good. Together.

At Tarkett, we believe that together, we can make a positive impact on people and the planet. We strive to make high quality, sustainable flooring to help you create healthier and people-friendly spaces.

We listen to our customers' needs and collaborate with all our stakeholders to design products that deliver optimal performance, promote healthy living and respect natural resources.

We are designing for life

People spend 90% of their time indoors, working, learning and relaxing. We help you to create healthier, safer, more peoplefriendly indoor spaces by designing high quality, sustainable products. In particular, by continuously improving the health and environment credentials of our products, we strive to select materials that can be recovered, recycled and transformed into new products. Through our focus on Cradle to Cradle® design, we make our products in a way that helps to preserve natural resources and mitigate climate change.

We are closing the loop

With our ReStart® takeback programme, we help you to manage your flooring waste effectively while contributing to safeguarding the world's natural resources and protecting the environment. We recycle your flooring offcuts and waste from our production, transforming it into new, high quality products. In this way, we can collectively close the loop and shift to a circular economy.

Doing Good. Together.

Every day, we strive to improve people's lives, preserve natural resources and respect our environment.

We're driving collaboration.

The world's great sustainability challenges require co-operation and partnership across industries and supply chains. We encourage our customers and all our stakeholders to join us in working toward positive change. Importantly, we communicate our sustainability progress transparently, and provide you with clear information about our products and ambitions.
