FUSE LANDSCAPE

CARPET TILES

JOURNEY THROUGH COLOUR

The Fuse Landscape collection imagines interior spaces as fields of colour, with fluid transitions for creating flexible, multifunctional workspaces. Complementary shades and textures melt into one another organically for effortlessly beautiful spaces that work better – naturally.

A CIRCULAR JOURNEY

Learning from nature means learning from the beautifully circular systems that exist in the natural world. At Tarkett, our circular journey is about the used and reused materials that go into our products, the innovative manufacturing processes, and the knowledge that we're actively cutting down on waste and greenhouse gas emissions.

DESIGNING THE OFFICE LANDSCAPE

Flexible, adaptive workplaces are the new normal, with the best spaces responding to multiple needs, personalities and ways of working. Fuse Landscape carpet tiles easily define hybrid spaces and marked zones for gathering or focused work, seamlessly denoting transitional areas with thoughtful, transitional colours.

NATURAL TRANSITIONS

Nature-inspired shades and fluid, colour-to-colour transitions mean you can build flexibility into every floor plan, creating softly textured spaces that evoke different landscapes, moods and seasons. Inviting and tactile, these are workplaces that respond to nature – human nature.

THE BEAUTY OF CIRCULARITY

At Tarkett, our approach to circularity focuses on three key areas: design, materials and circular journey. For us, the beauty of circularity is about the beauty of the reused materials that go into our products, the innovative manufacturing processes we implement, and the knowledge that we're actively cutting down on waste and greenhouse gas emissions.

FUSE LANDSCAPE

THE EVOLUTION OF ECOBASE®

Over a decade ago we made a commitment to place circularity at the core of our ambitions as a company. Our carpet tiles are composed of two key components – yarn and EcoBase backing – that come together just as neatly as they can later be taken apart. As part of our continuous efforts to reduce our carbon footprint we are proud to launch a new and improved EcoBase backing, which sees a new bio-based ingredient replace a core ingredient formerly composed of petroleum-based content.

FUSE LANDSCAPE

OUR CIRCULAR CARBON FOOTPRINT

To keep track of the carbon generated and saved over a product's life cycle, we calculate and externally verify the Circular Carbon Footprint of every one of our carpet tile collections.

Together with our holistic design approach and carefully considered materials, our closed-loop system ensures that our carpet tiles record an impressively low circular carbon footprint – one we're continually working, alongside our partners and customers, to shrink even further.

Circular Carbon Footprint: according to the Environmental Product Declaration (EPD) S-P-08559 DESSO DESSO Fuse and Fields externally verified by Bureau Veritas, based on the total carbon footprint (Modules A-D) with a closed loop circular recycling scenario.

Preliminary specification
Tarkett carpet products are to be installed in full accordance with the DESSO installation instructions and recognised trade standards. An effective, regular cleaning and maintenance programme is vital for retaining a high appearance level. Tarkett carpet products should only be used as floorcoverings. Note: Tarkett reserves the right to amend this specification without giving prior notice. For the latest versions of the technical specifications, check our internet site: www.tarkett.com

Tarkett Human-Conscious Design®
Tarkett Human-Conscious Design® is our pledge to stand with present and future generations. To create flooring and sports surfaces that are good for people and for the planet. And to do it every day. We deliver on this through the synergy of three commitments:

- 1 Deep human understanding
- 2 Conscious choices. For people and planet
- 3 With you. Every step of the way

About Tarkett
With a history of more than 140 years, Tarkett is a worldwide leader in innovative and sustainable flooring and sports surface solutions, generating turnover of € 3.4 billion in 2023. The Group has close to 12,000 employees, 23 R&D centers, 8 recycling centers and 34 production sites. Tarkett creates and manufactures solutions for hospitals, schools, housing, hotels, offices, stores and sports fields, serving customers in over 100 countries. To build “The Way to Better Floors,” the Group is committed to circular economy and sustainability, in line with its Tarkett Human-Conscious Design® approach. Tarkett is listed on the Euronext regulated market (compartment B, ISIN: FR0004188670, ticker: TKTT) www.tarkett-group.com
