LUXURY VINYL TILES

The Ultimate  
hassle-free  
modular floor  
at the forefront  
of design trends.

# Beautiful flooring made for the real world

Introducing Tarkett's new rigid luxury vinyl tile, (LVT), **Starfloor Click Ultimate 30**. This innovative, multi-layered flooring is waterproof, sound-absorbent and highly resistant. Available in tile and plank format, it's ideal for new homeowners who want a design-rich floor tough enough for family life.

# THE ULTIMATE HOME FLOOR TOUGH ENOUGH FOR FAMILY LIFE

## Rigid core: the benefits are all yours

What makes Starfloor Click Ultimate 30 so outstanding is its rigid core, which provides structural solidity close to laminate or wood. Add to that the waterproof finish of luxury vinyl tiles, and you have a uniquely durable product. It's easy to install too, hiding the unevenness and imperfections often found in older or damaged subfloors. That's why our Starfloor Click Ultimate flooring has found such success in today's market.

Whether you're a new homeowner or you just love design and want an easier way to create your own look, Starfloor Click Ultimate 30 is the floor you're looking for. It requires little or no subfloor preparation while offering a fast and simple route to rigid, resistant flooring that's water- and stainproof. Put it all together and you've got a floor like no other.

### Ultimate Resistance

Withstand daily life  
everywhere even in kitchens and  
bathrooms

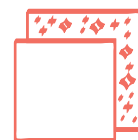

### Ultimate Acoustic Comfort

Reduce sound  
transmission by 18dB

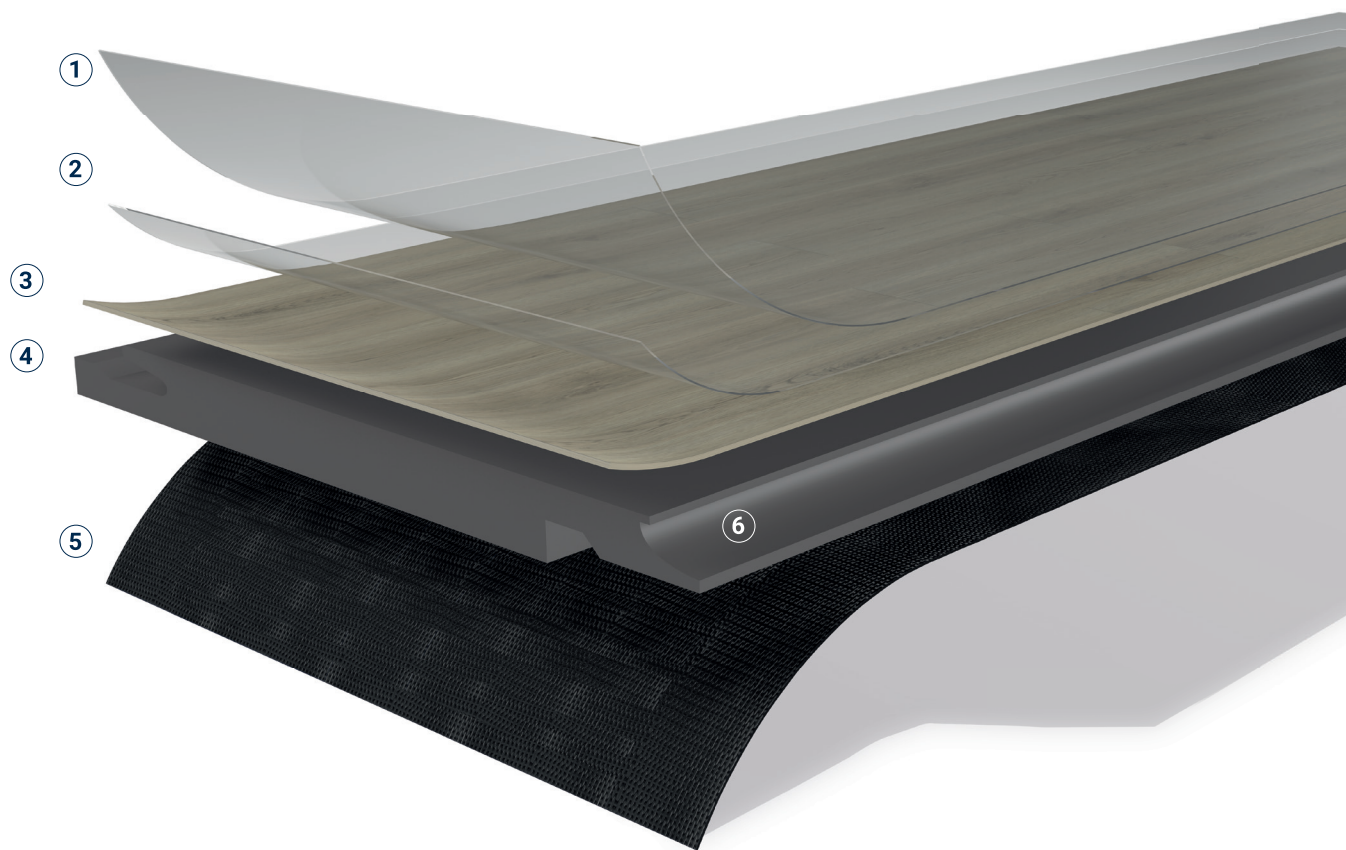

### Ultimate Installation

Place directly over ceramic tiles  
and most existing subfloors with  
joints up to 6mm wide

### Ultimate Design

Essential. Simple. Natural.  
100% matte finish

#### ① Ultimate PUR surface treatment

Additional layer of protection which makes the product exceptionally resistant to abrasion and scratches.

#### ④ Rigid Composite Core (RCC) technology

Provides extreme dimensional resistance and minimizes elongation of the material, ensuring reliably durable performance.

#### ② Transparent wear layer

Protects the pattern from wear and damage. Provides high durability, stain and scratch resistance.

#### ⑤ Integrated acoustic backing

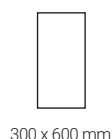

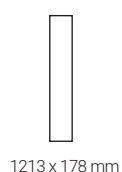

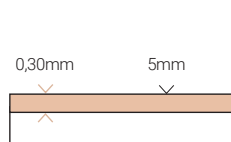

Reaching 18dB insulation, absorbs into the floor daily thumping and dragging to keep a quiet environment.

#### ③ High definition decorative print film layer

Our high quality decor prints even include, on most references, a unique grain-effect surface. This captures the texture of the material that inspired it for a stunning realism

#### ⑥ The I4F triple lock Click system

Simply click the planks or tiles together quickly and effortlessly!

# ULTIMATE RESISTANCE

## Life can be messy

Stains from spilt food and dropped glasses at family meals, scuff marks and high-heel dents by party guests, or just the dog's muddy paws from that weekend walk... With kids, pets and a busy home, accidents and mishaps are inevitable. But **Starfloor Click Ultimate 30's** top coat is strong enough to take whatever comes through your front door and still look brand new, time after time.

## Installed anywhere, withstands daily life everywhere

Starfloor Click Ultimate 30 flooring is made to handle life's daily dramas, wherever they occur. Bedrooms, bathrooms, living room, no matter where you install it, it's tough enough for family life.

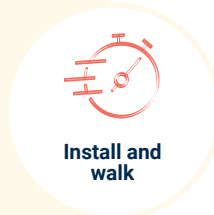

Its enhanced, rigid-core construction (RCC technology) gives Starfloor Click Ultimate 30 **exceptional stability and strength**. It won't ripple or swell over time, holding its shape and size despite changes in temperature **from 10°C to 50°C** while its beautiful look is unaffected by water, cold or heat. In fact, Starfloor Click Ultimate 30 is so durable that it can handle nearly all kinds of damage. And since it's both **waterproof** and **easy to install**, you can lay it over bathroom ceramic tiles.

Sun-proof, wear-proof, stain-proof, dent-proof, environment-proof, kid-proof and life-proof, Starfloor Click Ultimate 30 can withstand the full force of family life and still look stunning.

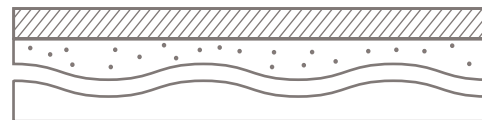

\* See the installation recommendations

# ULTIMATE INSTALLATION

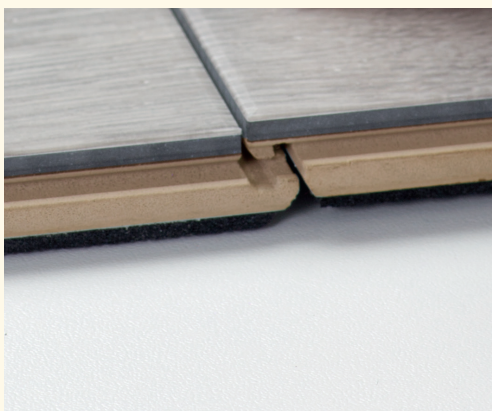

## So easy, anyone can do it

Almost every type of flooring requires some kind of subfloor preparation. Thanks to its **integrated acoustic backing**, Starfloor Click Ultimate 30 doesn't need additional acoustic underlay. Its **rigid core** means it can cover over the small bumps and wrinkles commonly found in older or damaged floors.

You can even install it directly over ceramic tiles and most existing subfloors (with joints up to 6mm wide) without the expense and trouble of repairing uneven surfaces beforehand. It's the perfect choice for quick, effective renovations.

Because it's modular, Starfloor Click Ultimate 30 can be installed step-by-step. No need to clear the whole room, just move the furniture as you cover each area, with less disruption to family life.

What's more, the **3L TripleLock Click system** makes installation among the easiest and fastest on the market. It simply clicks together quickly and effortlessly.

All you need is a utility knife to cut the tiles or planks. Forget fancy tools and noisy machinery. Forget gluing, drying or waiting. Once this floor's down, it's ready for use.

And if you want the flexibility to refresh your decor, Starfloor Click Ultimate 30 is also far simpler and more cost-effective to change than ceramic floors.

# ULTIMATE DESIGN

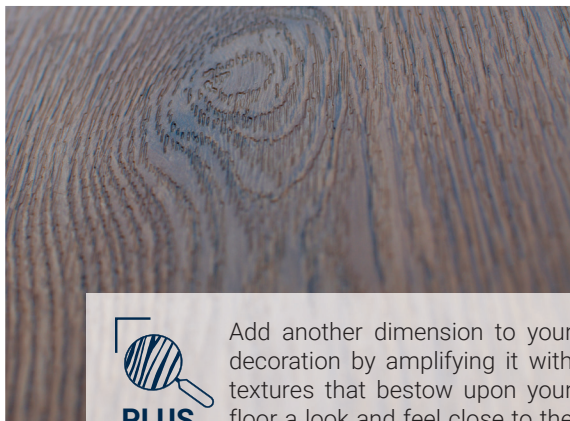

5 wood and 2  
mineral designs

100%  
matte finish

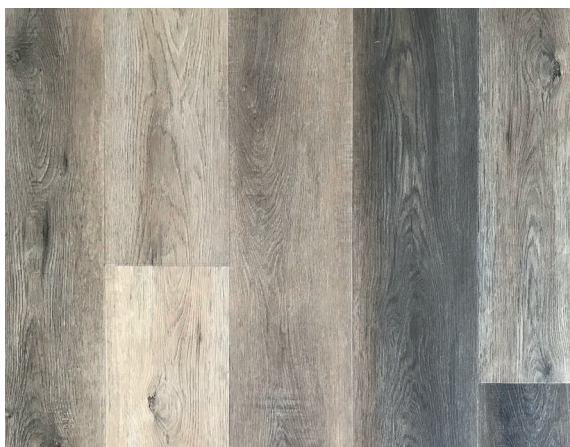

Unique  
grain-effect  
surface

Add another dimension to your decoration by amplifying it with textures that bestow upon your floor a look and feel close to the real thing.

The Embossed-In-Register technique engraves effects onto your planks and tiles that reproduce wood or stone's natural essence. As light travels across your floor the grain of pattern is reflected, reproducing a lifelike finish all around you.

Use the **Cascade Oak** colours, with their *Smoked*, *Aged* and *Shaded* variations, to give the floor a subtle interplay of complementary and contrasting tones.

## Now timeless becomes 'everyday'

Starfloor Click Ultimate 30 can help you express your creative flair. Made with homeowners in mind, this essential collection offers **18 fresh, contemporary designs** ranging from peaceful, rustic tones to white-washed shades and mineral finishes. There's something to match the look and feel of all your rooms. Simply choose the essence and colour that reflect the interior and mood you want to create. Taking its cue from 'everyday' furniture companies that use real wood, the collection coordinates beautifully with modern furniture and accessories.

## Beauty through simplicity

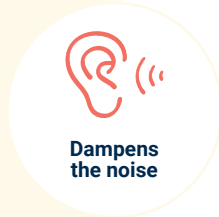

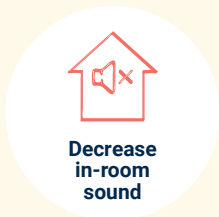

The colours and shades, drawn from real parquet and mineral floors, are natural and neutral. The **unique grain-effect surface** captures the textures of the material that inspired it. Both to the eye and underfoot, the finishes are pleasingly authentic and precise.

The collection blends the latest on-trend designs in oak with a softer countryside look and white-washed shades. For the perfect combination, two mineral designs can easily be mixed with the wood patterns to create zones in open spaces or link with the decor in an adjoining room.

## Essential, simple and natural

Inspired by everyday life and designed with natural simplicity, this easy-to-use rigid LVT collection satisfies all your creative aspirations. Choose from Starfloor Click Ultimate 30's selection of beautiful designs and combinations to create the **timeless look** you've always wanted.

# ULTIMATE ACOUSTICS

## Let's keep this quiet

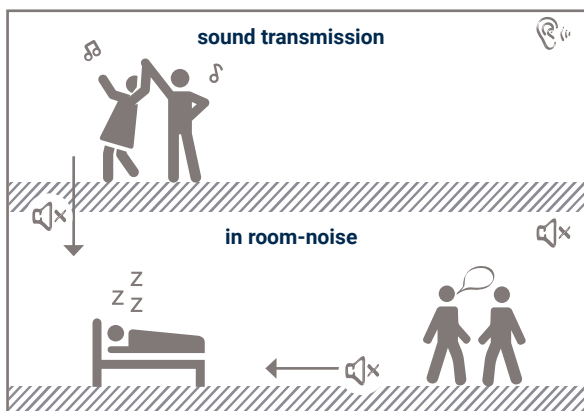

There's nothing nicer than enjoying the feel and comfort of your new floor as you walk around quietly. Starfloor Click Ultimate 30 flooring is a real treat for your feet.

## Easier on the ears

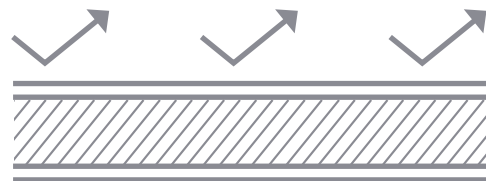

Our **innovative acoustic backing** significantly reduces the sound of walking across the floor, by 18dB. Whether you're barefoot or not, Starfloor Click Ultimate 30's sound-absorbing qualities mean **quieter footsteps** and a more **peaceful acoustic experience**.

Now, moving around the house is easier on the ears than with other hard floors. Even your kids' bedrooms will seem quieter. Life at home suddenly sounds more peaceful.

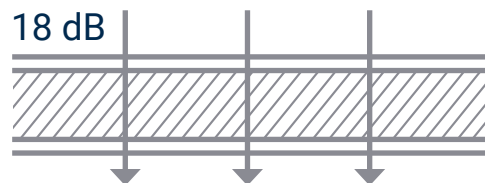

### Dampen noise levels in rooms and between floors

### Decrease in-room sound

# CARING FOR PEOPLE AND THE PLANET

At Tarkett, we believe that together, we can make a positive impact on people and the planet. We strive to make high quality, sustainable flooring to help you create healthier and people-friendly spaces.

We listen to our customers' needs and collaborate with all our stakeholders to design products that deliver optimal performance, promote healthy living and respect natural resources.

## **We are designing for life**

People spend 90% of their time indoors, working, learning and relaxing. We help you to create healthier, safer, more people-friendly indoor spaces by designing high quality, sustainable products. In particular, by continuously improving the health and environment credentials of our products, we strive to select materials that can be recovered, recycled and transformed into new products. Through our focus on Cradle to Cradle® design, we make our products in a way that helps to preserve natural resources and mitigate climate change.

## **We are closing the loop**

With our ReStart® takeback programme, we help you to manage your flooring waste effectively while contributing to safeguarding the world's natural resources and protecting the environment. We recycle your flooring offcuts and waste from our production, transforming it into new, high quality products. In this way, we can collectively close the loop and shift to a circular economy.

## **We're driving collaboration**

The world's great sustainability challenges require co-operation and partnership across industries and supply chains. We encourage our customers and all our stakeholders to join us in working toward positive change. Importantly, we communicate our sustainability progress transparently, and provide you with clear information about our products and ambitions.

## **Doing Good. Together**

Every day, we strive to improve people's lives,  
preserve natural resources and respect our environment.

# Cascade OAK

If you're looking for variety and contrast from your floor, Cascade Oak is the perfect choice. Incorporating the Plus Effect, an engraving technique that recreates wood's natural contours for enhanced realism, this design juxtaposes different shades in matching grains. All 3 design colours can be combined to create even greater tonal variation.
