Quality through and through

From the way we make our laminate floors to the simplicity of their maintenance and installation, you benefit from Tarkett quality every step of the way.

1. **Protective surface**
The protective surface ensures the floor’s durability and hygiene. Embossing gives the surface a more realistic texture and allows for sophisticated decorative effects.

2. **Decorative layer**
Made from printed paper, it allows for a wide variety of designs and colours.

3. **Core board**
High density fibreboard (>80% wood) provides exceptional structural strength and high resistance.

4. **Balancing Layer**
Protects the core board from moisture and guarantees dimensional stability.

**EASY INSTALLATION**
- All our laminate floors come with an easy-to-use and fast click system (2-Lock, T-lock and Tc-lock).
- Thanks to the floating installation, the floor can be walked on right away, you can also easily remove it without damaging the support.
- Installation requires minimal preparation work and few tools, and laminate floor can be installed on all type of subfloors.
- Installation guidelines and video available on our website.

**EASY MAINTENANCE**
- High density fiberboard with Techwear technology to resist falling objects, heavy furniture and daily punishment without a dent.
- The hard sealed surface is stain resistant and the tight locking system prevents dust and dirt from entering the seams.
- The top layer prevents the proliferation of germs and bacteria.
- A specific joint treatment protects the floor from water damage.
- A vacuum cleaner and damp mop with soft detergent are all that is needed to keep Tarkett laminate flooring clean.

**A COMPLETE SOLUTION**
- Tarkett laminate flooring is available with coordinated accessories, skirting, reduction and transition profiles.
- Different base layer foams are available for uneven, wetroom and acoustic installations.
- Bioclean and repair kits are available to ensure the long life of the floor.
BOARD FORMATS

The choice of plank formats makes a huge impact on the style of the room. For total design flexibility, Tarkett laminate floors come in a wide range of formats.

- **Standard plank**
  The elegance of a classic wooden floorboard
  (1292 x 194 mm)

Tarkett is a global leader in innovative flooring solutions that generate value for customers in a sustainable way. Our balanced business model is supported by a decentralized organization and a shared commitment to sustainability, ethics and excellence.

We offer customers one of the broadest product portfolios in the flooring and sports surface industry, providing integrated and coordinated solutions to professional and residential end-users all over the world.

Our 34 industrial sites, 12,000 employees and sales in 100+ countries put us in close contact with customers and suppliers everywhere in the world. Globally, we drive operational excellence, commitment to our values and innovation, while empowering local teams to manufacture and design products and services suited to local customer needs and trends.

Tarkett is also committed to protecting our planet and bringing a sustainable lifestyle to all people, while addressing society challenges such as urbanization, population aging and resource scarcity. We aim to contribute to people’s well-being and to the development of the circular economy powered by the Cradle to Cradle® principles, in partnership with external players.
