

Originale next generation

LINOLEUM

The most
sustainable
linoleum
flooring

Conscious
choices.
For people
and planet.

The 1st generation of Originale offered great sustainability and design credentials. Starting with pure Veneto 100% Linen in 2013, the story of Originale collection was enriched in 2017 with the fully natural colours Minerale and Vegetale.

Almost 100% natural in its composition, it was launched as the 1st and only Cradle to Cradle Gold™ certified linoleum. Today, we take Originale a step further.

We enrich our collection with unique colours and building on our circular economy approach, we offer even better sustainability credentials.

Cradle to Cradle® certification approves a company's eco-design approach on the basis of five criteria: material health, product circularity, renewable energy and climate requirements, water stewardship and social fairness. The Originale Gold certificate demonstrates our commitment to comply with the most stringent requirements to deliver high quality products.

A durable product manufactured in a green factory from carefully selected good materials. It is also recyclable, even post-use now, into new raw material to produce new floorings.

Originale is carbon negative from 'cradle to gate'
(including raw material extraction, transportation and linoleum production)*.

Tarkett's Linoleum has been appreciated for its natural beauty, comfort and durability for over 120 years. It is made from 97% natural ingredients in Narni, Italy, following the same original recipe from 1898.

Since, we constantly innovate in production, surface protection, colour and design development.

Tarkett's linoleum is the world's first to be Cradle to Cradle certified™ Silver and Gold for Originale since 2013 for its sustainable approach illustrating it is one of the most sustainable flooring solution on the market.

Tarkett Human-Conscious Design™ is our pledge to stand with present and future generations.

We make conscious choices. For people and the planet. When it comes to people and the planet, we don't consider one without the other. We commit every day to the design of great spaces. For us, it means exceeding indoor air quality standards, instituting healthy materials norms, reducing our carbon footprint and creating a Circular Economy supported by Cradle to Cradle principles. Doing better, for people and planet.
