

RUGS
25 | 26

Where past meets future

All our collections are designed to bring beautiful and cozy finishing touch to every space and room, creating a unique impression of up-to-date interior design with a variety of choices in different styles. Rug is more than just a practical accessory - it is a focus of your home, a decorative item creating a warm and welcoming atmosphere for the whole family.

We are persistent in following latest trends in materials and product design, always striving to enhance proven concepts to create something exciting and new.

BALI

collection

Bali is sisal-like flatweave product designed according to latest trends in home decoration. Carefully chosen colors and original design patterns with accented structure offer practical solution for many different spaces – from light and stylish dining rooms to cozy and warm balconies and gardens.

Bali rugs are suitable both for indoor and outdoor use, UV stable and easy to maintain but also pet friendly with durable, easy to clean surface.

Modern technology is used to create natural looking handmade-like sisal rugs, where each rug is unique as are all things in nature. Due to this, slight shrinkage or impression of curvy edges may occasionally accompany robust and unique appearance of this product, without diminishing the overall visual or usage experience.

EASY RUGS

collection

Gentle surface for every room

Easy rug collections offer machine tufted rugs and runners from polyester and polypropylene on antislip backing for comfortable and practical use in various spaces.

Due to easy maintenance and washing properties in home conditions, they are suitable even for high-frequency rooms. Depending on the application, you can choose between higher cut pile rugs in pastel colors made from polyester or more classical low pile runners for corridors.

Easy on clean

Easy to fit in

Antislip rug backing

Rug backing made of felt with rubber dots reduces the risk of slipping and does not cause damage to the floor. That makes the rugs suitable for all types of parquet and laminate floors, as well as ceramic tiles.

Felt backing with rubber dots ensures additional rug stability while making sure it stays in its place, so there is no need to buy an additional non-slip underlay to put under the rug.

Rugs suitable for
disinfection at home

Textile floor coverings with a Home disinfection mark consist of materials that facilitate regular disinfection with alcohol-based household products, securing no carpet damage, if following the instructions given below.

Disinfection is possible with the usage of standard household cleaning products in several ways. Use of ethyl alcohol (75%) or Asepsol (5% benzalkonium chloride) is recommended.

INSTRUCTIONS FOR EFFICIENT AND SAFE DISINFECTION

1. While applying disinfection product on a carpet, please wear a protective mask and gloves, as well as protective glasses if needed. During and after the disinfection, it is necessary to ventilate the room.
2. The maximum recommended amount of disinfection product is 500ml per square meter of carpet.
3. Applying the disinfectant is proposed with a spray bottle or soaked sponge. When using a spray bottle, apply the disinfectant at a 20-30cm distance from the carpet. When disinfecting with a sponge, mop the carpet surface and leave it to dry completely before using the carpet again.
4. When using Asepsol, it is recommended to use a 5% solution. After the disinfection let the carpet dry completely before you use it again.
5. In the disinfection process it is necessary to comply with safety measures and application instructions provided by the disinfectant manufacturers.
