## YOUR DECORATION CLICKS INTO PLACE A NEW LOOK INSTALLED SIMPLY & SWIFTLY

### BEST OPTION FOR RENOVATION

- Simple and fast click installation system
- No professional tools required
- Very little subfloor preparation and does not damage existing floor
- The robust click system keeps the planks sealed and steady

### HIGH RESISTANCE TO TRAFFIC

- Durable choice available in two constructions
- Acoustic properties to keep noise to a minimum

### EASY CLEANING AND MAINTENANCE

- Top Clean surface treatment
- Protect against scuffs, scratches and stains
- Make the flooring easy to maintain and clean

### REALISTIC DESIGNS

- 30 classic, contemporary and trendy designs options
- 18 wood and 12 metallic, ceramic and stone designs 6 EIR designs

### A PEOPLE-FRIENDLY SOLUTION

- VOC levels 10 times lower than current European standards contributing to good indoor air quality and your well-being
- 100% recyclable
- Glue less floating installation avoiding emissions and wastes associated with the use of adhesive!

# STARFLOOR CLICK 30 & 30 PLUS

# STARFLOOR CLICK 55 & 55 PLUS

Starfloor Click collection offers two constructions. Both ranges are resilient flooring, durable, practical and easy to clean and install. Starfloor Click 30 for Residential or Light Commercial use and Starfloor Click 55 for Heavy Commercial use.

You can renovate your entire project or just one room, with all the furniture still in place. Take a look at the table below for details.

## BEST OPTION FOR RENOVATION THANKS TO AN EASY CLICK FLOATING INSTALLATION

- Starfloor Click requires very little subfloor preparation and does not damage existing floor, making it the perfect floor for renovation!
- Starfloor Click is equipped with an easy to handle locking system that requires no specific tools. It is a glueless floating installation: the floor can be used right away.
- The robust click system keeps the planks sealed and steady for years!

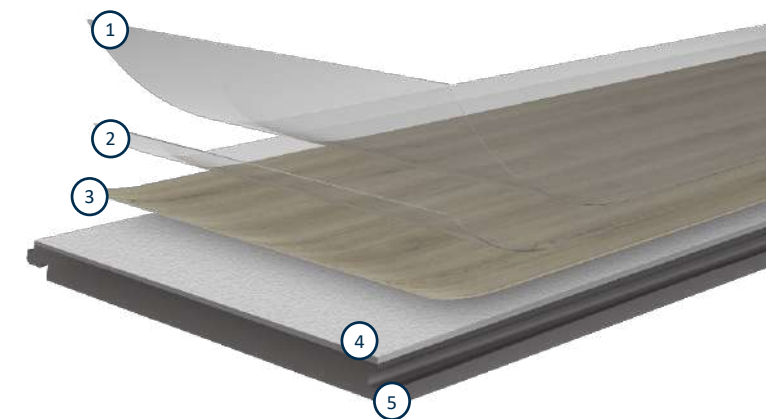

Simple and easy angle-to-angle click system that locks perfectly into place.

## HIGH RESISTANCE TO TRAFFIC IN RESIDENTIAL AND COMMERCIAL AREAS

Starfloor Click collection is a durable choice available in two constructions: Starfloor Click 30 for Residential or Light Commercial use and Starfloor Click 55 for Heavy Commercial use. If you're looking for a simple yet durable solution, for a small or bigger interior design project, Starfloor Click collection is what you need. This range brings choice, style and simplicity to your project, giving your unique taste and imagination a place to bloom.

1. Reinforced Polyurethane (PUR) Treatment Layer: simple and easy maintenance
2. Transparent wear layer: high durability
3. Printed design layer: many design possibilities
4. PVC Core layer: dimensional stability and resistance
5. Angle-to-angle click system: ease of installation

## EASY TO CLEAN, MEANS EASY TO MAINTAIN

Today, people spend more time indoors with the development of home office and homeschooling. As a result, they are more concerned with having a clean home. This is why it has become even more important to use materials that are simple, fast & easy to maintain.

All our vinyl floors are coated with a special surface treatment (PUR) that makes them resistant to scratches or stains, and need little water for cleaning. Plus, this range is affordable when on a budget.

When applied regularly, these tips will help keep your floor looking as good as the day you laid it:

Daily: wipe or vacuum

Once a week or more: wipe the floor with a damp mop or a cloth moistened with warm water and a neutral detergent.

Whenever necessary: remove dust with a broom or vacuum cleaner to avoid dust and dirt build-up

## PLUS AN AURA OF AUTHENTICITY ADD A LIFELIKE FINISH

Add another dimension to your decoration by amplifying it with textures that bestow upon your floor a look and feel close to the real thing.

The embossed-in-register technique engraves effects onto your planks and tiles that reproduce wood or stone's natural essence. As light travels across your floor, the grain or pattern is reflected, reproducing a lifelike finish all around you.

# TARKETT HUMAN-CONSCIOUS DESIGN™

Today, more than ever, home is where people spend a big part of their day.

People are looking for healthier and more modular spaces, where they feel relaxed and comfortable. They need a place where each family member can enjoy his or her own personal space. At Tarkett we strive to contribute to people's health and wellbeing by improving indoor air quality. We deliver on this through Human-Conscious Design™ which is our commitment to stand with present and future generations. To create spaces that are good for the people and for the planet. And to do it every day through 3 commitments:

- **Deep Human understanding**  
Everything we do starts by understanding our customer's need for today and tomorrow. Our goal is to accompany and help them create their perfect home project, at the right value. By offering a complete choice of stylish and long-lasting flooring solutions, we aim to create a unique heaven of comfort, whatever the circumstances.
- **Conscious choices. For people and the planet**  
When it comes to people and the planet, we don't consider one without the other. We deliver pioneering solutions that lead to healthier and more sustainable solutions at Home.
- **With you. Every step of the way**  
Trust and dependability define our approach. We commit to the flawless execution of each and every space.

The technological advances in digital printing, used for some designs in Starfloor Click Solid 55, offer high definition scanning of real wood and ceramics, resulting in a less visible repetition.

This creates better design authenticity that can perfectly imitate almost any natural material, like wood, stone and tile.

Our LVT products offer a wide range of design options, so you can create a stylish and modular space that suits your lifestyle and that evokes a feeling of well-being when you enter a room. You can select random colours and patterns, mix and match different textures or choose from a range of surfaced finishes.

# A PEOPLE-FRIENDLY SOLUTION

At Tarkett, we're passionate about healthier living. Today, we spend a lot of time at home learning, working, playing and relaxing. So offering high quality good materials and good indoor air quality can make a difference.

## INDOOR AIR QUALITY

We commit to giving you healthier spaces for more indoor time.

Our LVT products showcase low to ultra low Volatile Organic Compound (VOC) emissions. But, what does this actually mean for you? To put it simply, this means that you made a conscious choice to choose a better flooring so that now the indoor air you breathe is clearer.

VOC levels of our LVT ranges are **10 to 100 times lower** than the strictest European regulations.

## GOOD MATERIALS

We believe in and commit to only using good materials.

We demand to know all the material components we use in products so that we can give you full and unrivalled information on the impact they have on your health and the environment. Our Cradle to Cradle® certification – a how-to guide on choosing good materials – demonstrates our commitment to health and sustainability standards. Complete transparency from us, means peace of mind for you.

Our LVT collections are **100% phthalate-free.**

## CIRCULAR ECONOMY

We are committed to creating a circular economy.

We aim to close the loop on waste, preserving natural resources and reducing the impact of climate change. Additionally, we maximize the recycled content in all our products and prioritize end-of-life recycling. We want to protect our planet today and for future

# BEECH

The classic beech, in a natural color, is a timeless wood. It will be in harmony with all styles.
