RIGID CORE FLOORING

Rigid.  
Flexible.  
Beautiful.

 **Tarkett**

## Best of Both Worlds

Consumers were clear -- give us a rigid core flooring that is more flexible, easy to install, and beautiful so we can use it in any room.

### Our Answer – NuGen™ Rigid Core Flooring.

Don't settle. Get the authentic look of wood along with the enhanced performance of rigid core. A combination that handles anything kids and pets can spill or drop on it, while maintaining its beauty.

The beauty of NuGen is also found in its simplicity. Available in only the most in-demand styles, you can take the guesswork out of choosing the right color, or plank dimensions. That makes installation smoother -- and faster -- which is a big plus for Multifamily renovations.

DRIFTWOOD | SAND  
CLICK SYSTEM: 270285009

CLICK SYSTEM: 270285003  
GLUE DOWN: 270286003

## Rigid. Flexible. Beautiful.

Tough enough to stand up to the rigors of daily wear, yet beautiful and comfortable enough to be used in any room. NuGen gives you the best of both worlds.

With easy, no-mess installation, guaranteed long-term wear and beautiful, authentic-looking wood designs, NuGen delivers a better flooring experience every step of the way.

## Doing Good— Together.

At Tarkett North America, we believe that together, we can make a positive impact on people and the planet. That's why we're Doing Good—Together, connecting our sustainability efforts with what our customers value and our world needs. It's an active, living commitment to create a future where people and the planet prosper in balance. Where sustainable flooring solutions don't just perform, they inspire.

NuGen is 100% post consumer recyclable right back into new LVT products.

All over the world, the Tarkett ReStart® program helps customers manage their flooring waste from job installations, collecting off-cut or used vinyl materials.

Plus, Tarkett is implementing cost-effective local take-back programs, and designing our flooring systems to be easily uninstalled and disassembled for cost-effective sorting and recycling.

### **DESIGNING FOR LIFE**

Developing products based on Cradle to Cradle® principles that contribute to people friendly spaces AND respect the planet's natural capital.

### **CLOSING THE LOOP**

Building a circular economy inclusive of programs and business models that encourage take back, reuse, recycling and elimination of waste

### **DRIVING COLLABORATION**

Inviting others to join us in Doing Good through education, collaboration, transparency and communication
