

Johnsonite

# Triumph and Inertia<sup>®</sup>

RUBBER SPORTS FLOORING

The  
starting  
lineup of  
sports  
flooring.

With heroic strength and all-star comfort, Johnsonite's rubber sports flooring is built for high-energy spaces. Triumph is designed with a 3/8" thickness to resist ice skates, golf cleats and dropped weights. For less extreme areas, Inertia's 1/4" thickness offers acoustical control, comfort and durability. Both are available in identical colorways to allow design coordination and value engineering throughout the entire facility. That's teamwork at its best.

**It's all about  
teamwork.**

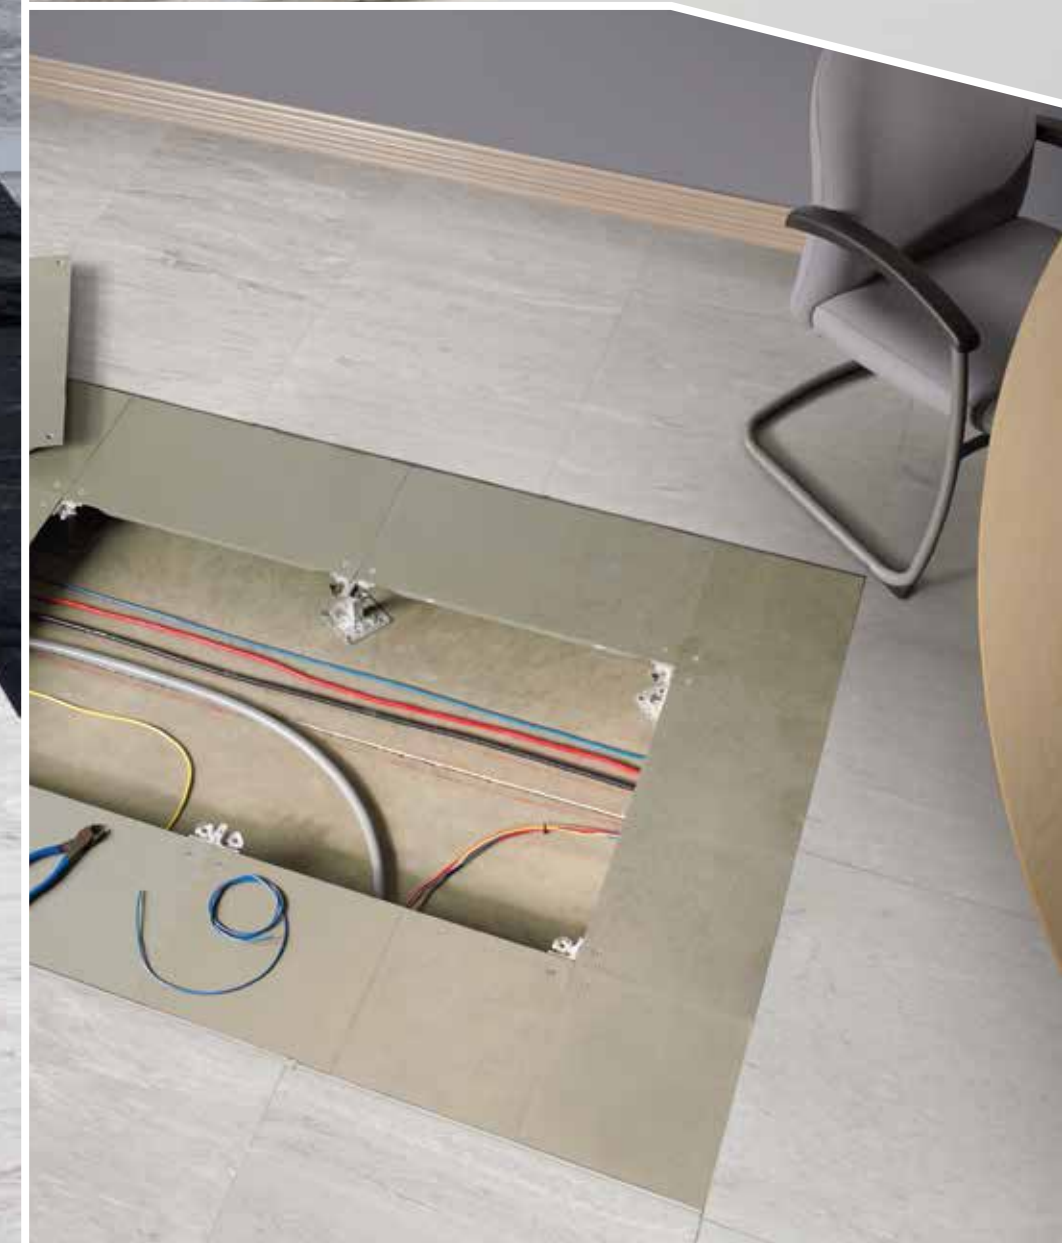

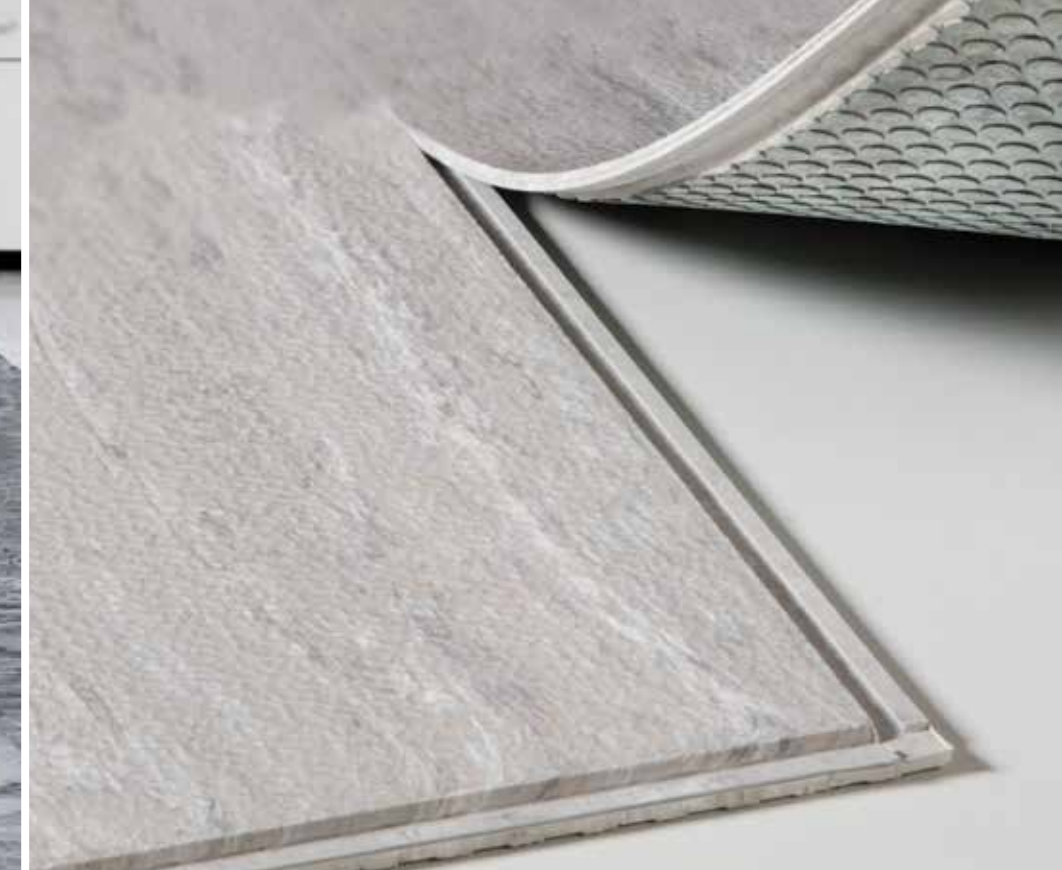

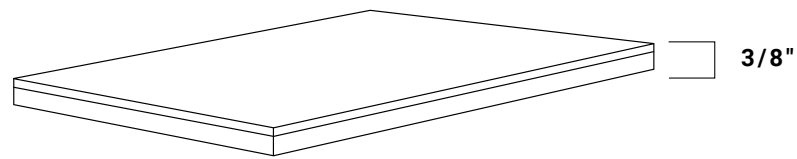

## Floating flexibility.

### SlideLock®

#### MULTI-FUNCTIONAL + SPORTS FLOORING

With a patented hidden locking system and no need for adhesive, SlideLock improves the speed and flexibility of project installations, while maintaining access to mechanicals below the subfloor. Tiles are locked together using a seam roller, and individual tiles can easily be removed and replaced, without use of special tools. This glueless floating system is ideal for both permanent installations, and as a temporary flooring solution.

## TRIUMPH

Never hurts to start off a few steps ahead. And that's what you get with Triumph flooring. Tough, flexible and performance-ready, this floor is engineered to hold up under constant traffic, sports activities and heavy sporting equipment. Made of 3/8" rubber, Triumph absorbs noise and resists impact, shock, spikes and skates. It's ideal for any high-energy application. And with a wide range of solid and patterned colors, everybody wins.

### APPLICATIONS

- fitness centers
- workout rooms
- ski lodges
- ice rinks<sup>1</sup>
- weight rooms
- golf course indoor facilities<sup>1</sup>
- dressing rooms<sup>2</sup>
- locker rooms<sup>2</sup>
- pro shops<sup>2</sup>
- indoor stadium tunnels<sup>2</sup>
- physical therapy rooms<sup>3</sup>
- retail, office and public areas
- correctional facilities<sup>4</sup>
- daycare centers
- assembly and production areas<sup>5</sup>

TRIUMPH WITH HAMMERED TEXTURE	Thickness	Speckled	Mesto <sup>®</sup>	Prima <sup>®</sup> Marbleized™ and Olio <sup>®</sup>	Solid Colors
<b>Square Edge Tile</b> 24" x 24"	3/8"	20 colorways available	6 colorways available	SO	SO
<b>Interlocking Tile</b> 24" x 24" (23" x 23" net)	3/8"	20 colorways available	6 colorways available	SO	SO
<b>SlideLock<sup>®</sup> Tile</b> 24" x 24" net (studded back)	3/8"	20 colorways available	6 colorways available	SO	SO

Matching accessories available in solid colors (not skate and spike resistant).

For more detailed information regarding product features, installation, maintenance, specifications and case study installations, visit [tarkett.com](http://tarkett.com).

Interlocking tiles may be used where lightweight rolling loads are present.

Rolling traffic is not permitted over SlideLock tile.

SO = Special Order

<sup>1</sup> Specify Square Edge or Interlocking only

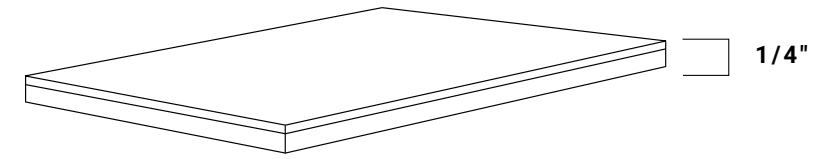

<sup>2</sup> Specify Square Edge or Interlocking for ice skate blade and spike traffic

<sup>3</sup> Specify Square Edge or Interlocking for wet areas

<sup>4</sup> Specify Square Edge only

<sup>5</sup> Triumph is not oil and grease resistant

**Note:** SlideLock requires different maintenance than Square Edge and Interlocking profiles.

## INERTIA<sup>®</sup>

Let's end the rival between price and performance. This 1/4" rubber floor provides a more affordable alternative to Triumph, for applications that don't involve such extreme activity. Identical to Triumph aesthetically, Inertia also blends with it seamlessly. This allows you to achieve various levels of functionality within high-performance areas. Now that's an accomplishment you simply can't beat.

It's all about teamwork. For optimal coordination, Triumph and Inertia® are available in identical colorways. Choose from 20 Standard Speckled and 6 Mesto® colorways, all in our hammered texture. Solid colors are also available by special request.

Conscious choices for people & planet.

For more than 140 years, Tarkett has been committed to the design of great spaces. For us, this means making conscious choices every day for human and planet health, ensuring that present and future generations are able to thrive. We call this philosophy Tarkett Human-Conscious Design<sup>SM</sup>. And it drives everything we do.

Cradle to Cradle principles guide our eco-design approach on the basis of five criteria: material health, product circularity, renewable energy and climate requirements, water stewardship, and social fairness.

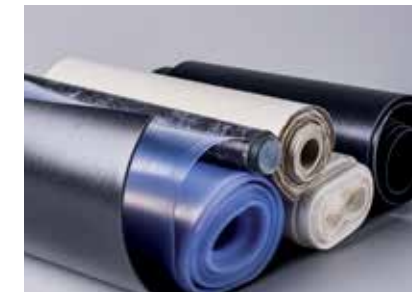

At Tarkett North America, we're committed to using healthier materials, protecting indoor air quality, and reducing our carbon emissions by 30% by 2030. Our goal is to establish a circular economy by designing out waste and pollution, keeping materials in use, and regenerating natural systems—for the good of people and planet.

Our commitment is founded on three central pillars:

**CIRCULAR ECONOMY**

Closing the loop on waste, preserving our planet's natural resources and reducing the impact on climate change.

**GOOD MATERIALS**

Subjecting ourselves to relentless scientific scrutiny and offering radical transparency about our products.

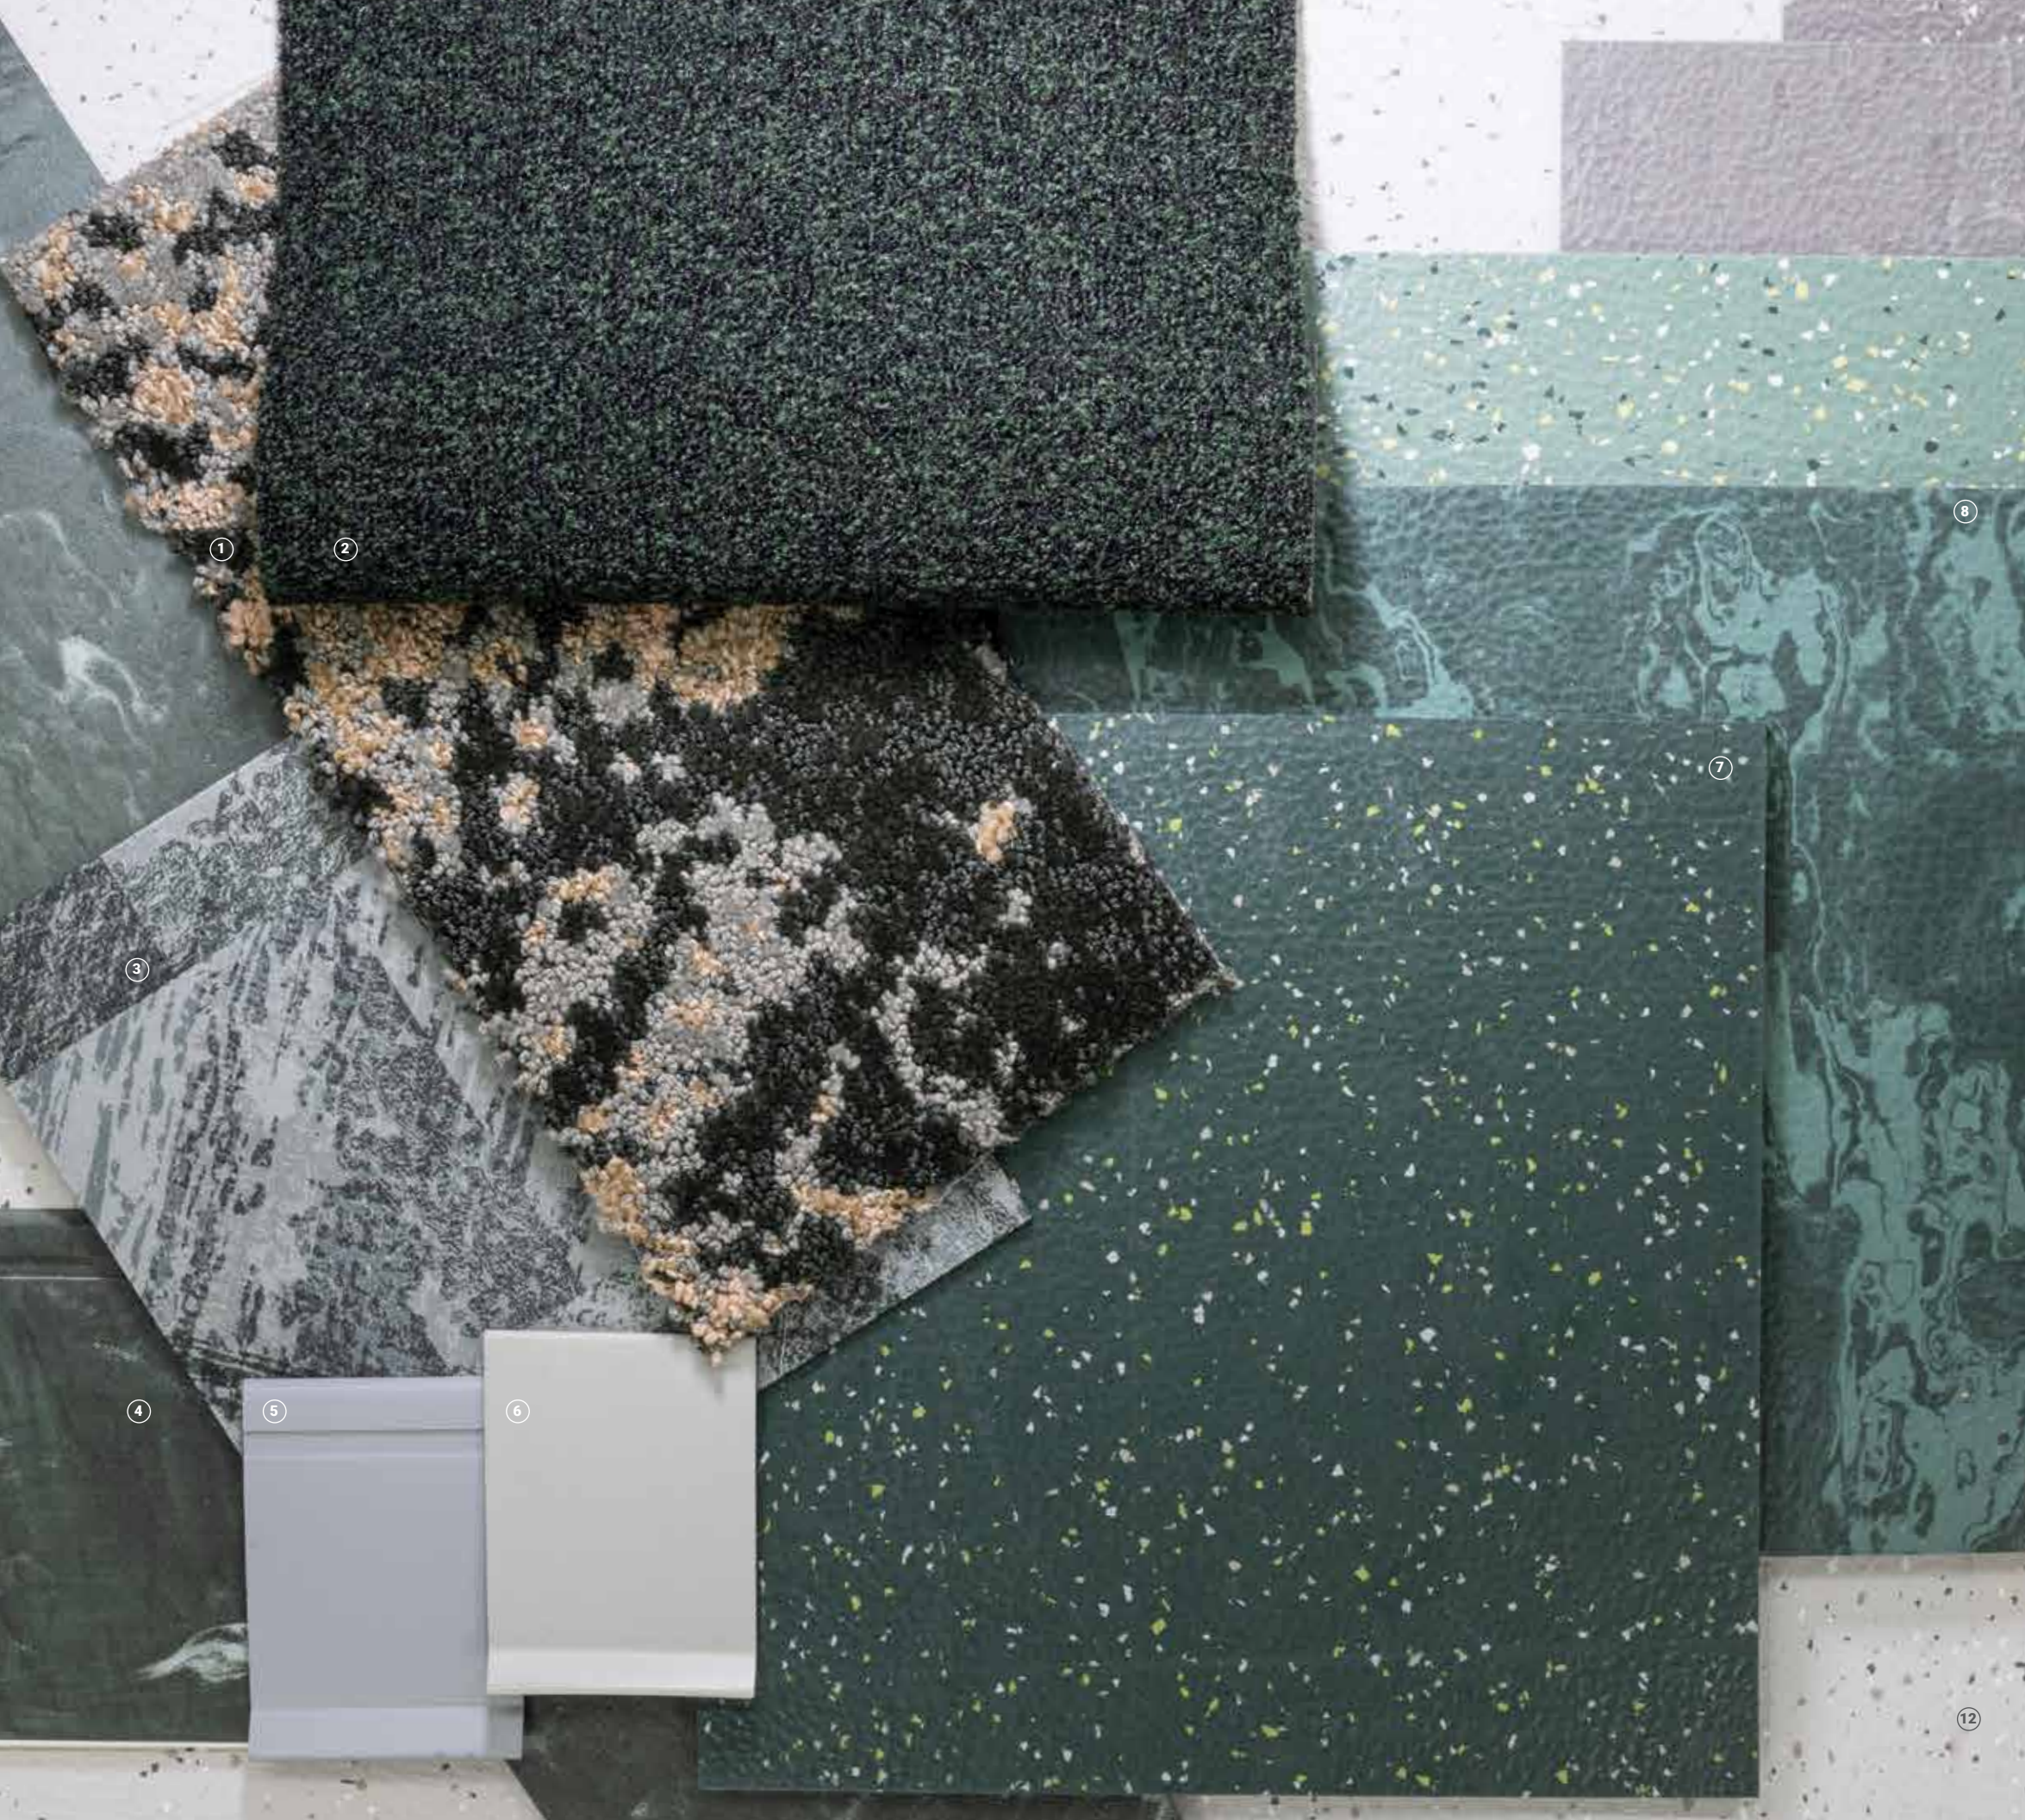

**INDOOR AIR QUALITY**

A commitment to your health and well-being. Creating healthy indoor spaces with the highest standards of Indoor Air Quality.

Cradle to Cradle Certified® is a certification mark licensed by the Cradle to Cradle Products Innovation Institute.

# Tarkett Solution SPECtrum™

Design more brilliantly.

At Tarkett, we believe in placing people in the center of every space. So we've developed a portfolio of products designed to work together both functionally and aesthetically, helping you create more supportive spaces that maximize return on investment. Our full palette of colors, patterns, and textures is coordinated to work together visually across product categories—creating the perfect balance for people, planet and performance.

The Brilliance<sup>SM</sup> Digital Color System puts the entire TARKETT SOLUTION SPECtrum portfolio at your fingertips—no matter where you happen to be working. Within one digital tool, you can save favorite surfaces to project boards, visualize them in a space, and order samples. By getting the right color match every time, the tool reduces sample waste and shipping, helping us all design more responsibly and reduce our carbon footprints. Speak to your Tarkett sales representative to get started, or visit [brilliance.tarkett.com](https://brilliance.tarkett.com).

## PRODUCTS SHOWN:

1. Hospitality only collection
2. SS Powerbond®/Modular Assertive Action II 04837 (Die Cast 26214)
3. LVT Modelee PCMO (Vineyard 10237 QU)
4. Masquerade Reveal 6" (Maree Atlantique)
5. Perceptions Wall Base RWDC-TA5 (Colonial Grey)
6. BaseWorks Thermoset Rubber Wall Base TSB-469-4" (Mystify)
7. Multi-Functional/Sports Rubber Tile Triumph SMH-KJ9 (Forestation)
8. Multi-Functional/Sports Rubber Tile Triumph SMH-KN4 (Tree Top)
9. Multi-Functional/Sports Rubber Tile Triumph SMH-KK3 (Tea Leaves)
10. Multi-Functional/Sports Rubber Tile Inertia INRH- KN2 (Expedition)
11. Multi-Functional/Sports Rubber Tile Inertia INRH- LD7 (Lunar Explorer)
12. Multi-Functional/Sports Rubber Tile Inertia INRH- LB4 (Mottled Egg)
