

Melodia™ + Aria™

HOMOGENEOUS VINYL SHEET + TILE

Soft
palettes.
Bold
protection.

With an updated, soothing color palette and the strength and hygienic performance of homogeneous vinyl, Melodia and Aria coordinate beautifully to create safer, more comfortable environments. Melodia's 31 shades offer a perfect backdrop to Aria's 14 granite-like styles. Both are available in sheet and tile formats to provide greater flexibility and faster installation. These complementary visuals combine with xr² polyurethane technology to hide dirt, reduce maintenance, and withstand high traffic with rolling loads—making a more complete flooring solution very difficult to find.

A holistic
solution.

Our xr² polyurethane is a perfect choice for high-traffic areas with rolling loads. This tough, UV-cured surface treatment is factory-applied to both sheet and tile formats, adding further strength and durability to Melodia and Aria's solid, homogeneous construction. By resisting chemical stains and scuff marks, xr² dramatically reduces a variety of maintenance costs—including labor, water, energy and chemicals—for a positive total lifecycle return on investment.
