

# Soft Surface Product Guide

2019

For more than 130 years, Tarkett has been at the foundation of **creating more beautiful spaces**, unlocking the **infinite possibilities** that happen when **we come together**.

We believe in the power of collaboration, going the extra mile and investing in the future. **Please join us.**

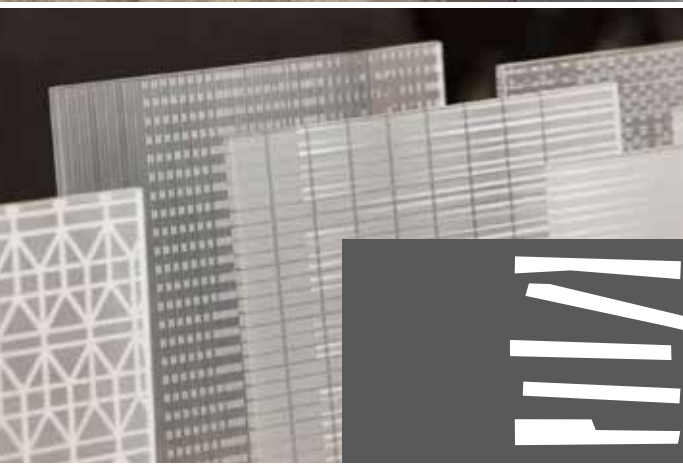

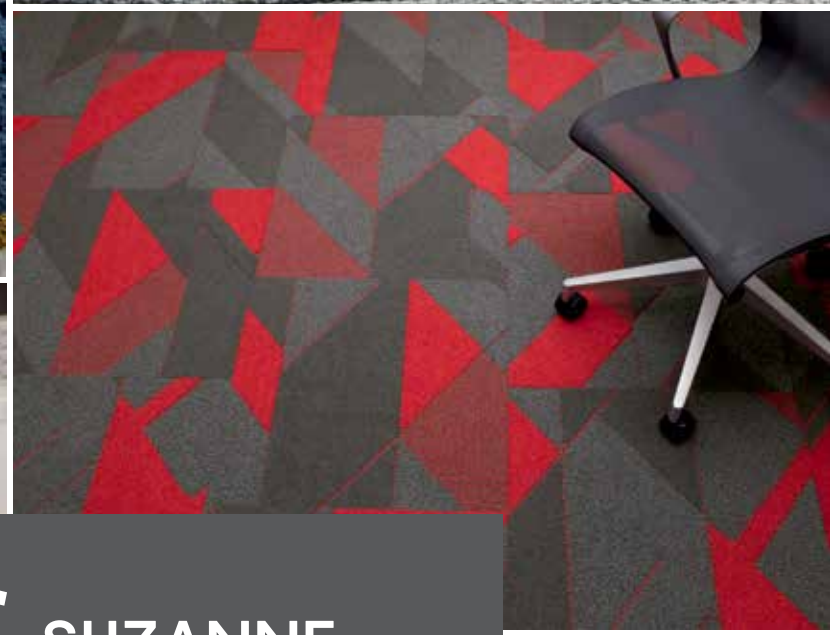

Welcome to  
Tarkett.

# CREATING TOGETHER

The power of collaboration.

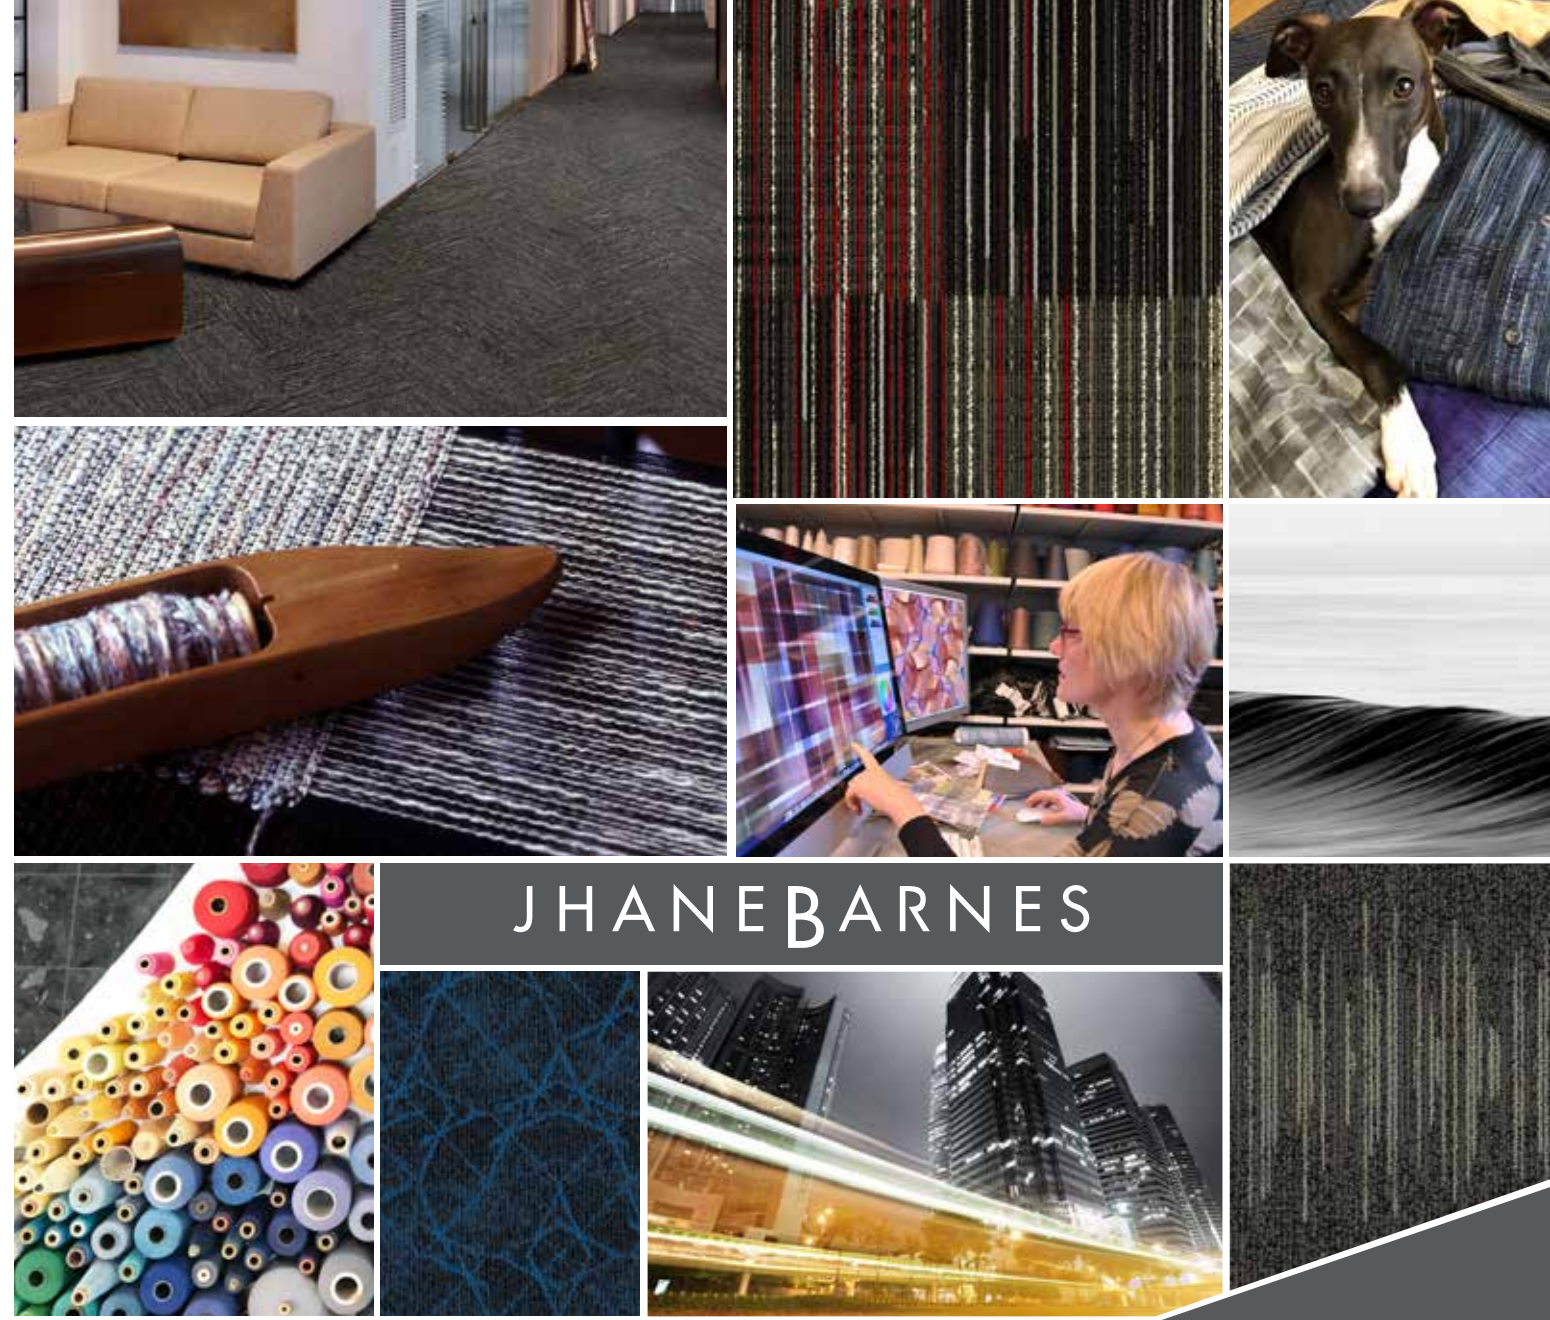

Tarkett believes deeply in the value of collaboration, in bringing together different voices and ideas to create something worth more than the sum of its parts. Within our walls, we're committed to fostering a diverse work environment that encompasses and nurtures people from all backgrounds, ages, races, ethnic groups, and lifestyles. Outside our walls, we've been co-creating with our customers and prominent designers around the globe to create flooring solutions that inspire. When you or your customers ask if something is possible, Tarkett's response is almost always a resounding Yes. If you can imagine it, we'll work to create it.

## Design collaboration

Suzanne Tick is the founder of Suzanne Tick Inc., specializing in materials brand strategy, product design, development, and direction for commercial interiors. Suzanne is currently partnering with Tarkett on Brand Strategy and Product Development, Design Consultant for Tarkett, Creative Director for LUUM, and Design Partner for Skyline Design. She has maintained a distinguished career as a textile designer and studio Principal in New York City. Suzanne has been a Design Consultant at Tarkett since 2005 and her designs, across product platforms, have won numerous design awards and continue to break new ground in the industry. Suzanne is known for her intelligent and enthusiastic approach to design in evolving markets, along with conviction to provide innovative solutions. In addition to her work in commercial Interiors, Suzanne maintains a hand weaving practice and creates woven sculptures from repurposed materials. Her work is exhibited worldwide, including MoMA and Art Basel, as well as collected by private and corporate clients. Her recent awards include a 2016 NeoCon Best of Year Gold Award and Interior Design's Hip Award for Tarkett's Collections Infinies.

JHANE BARNES

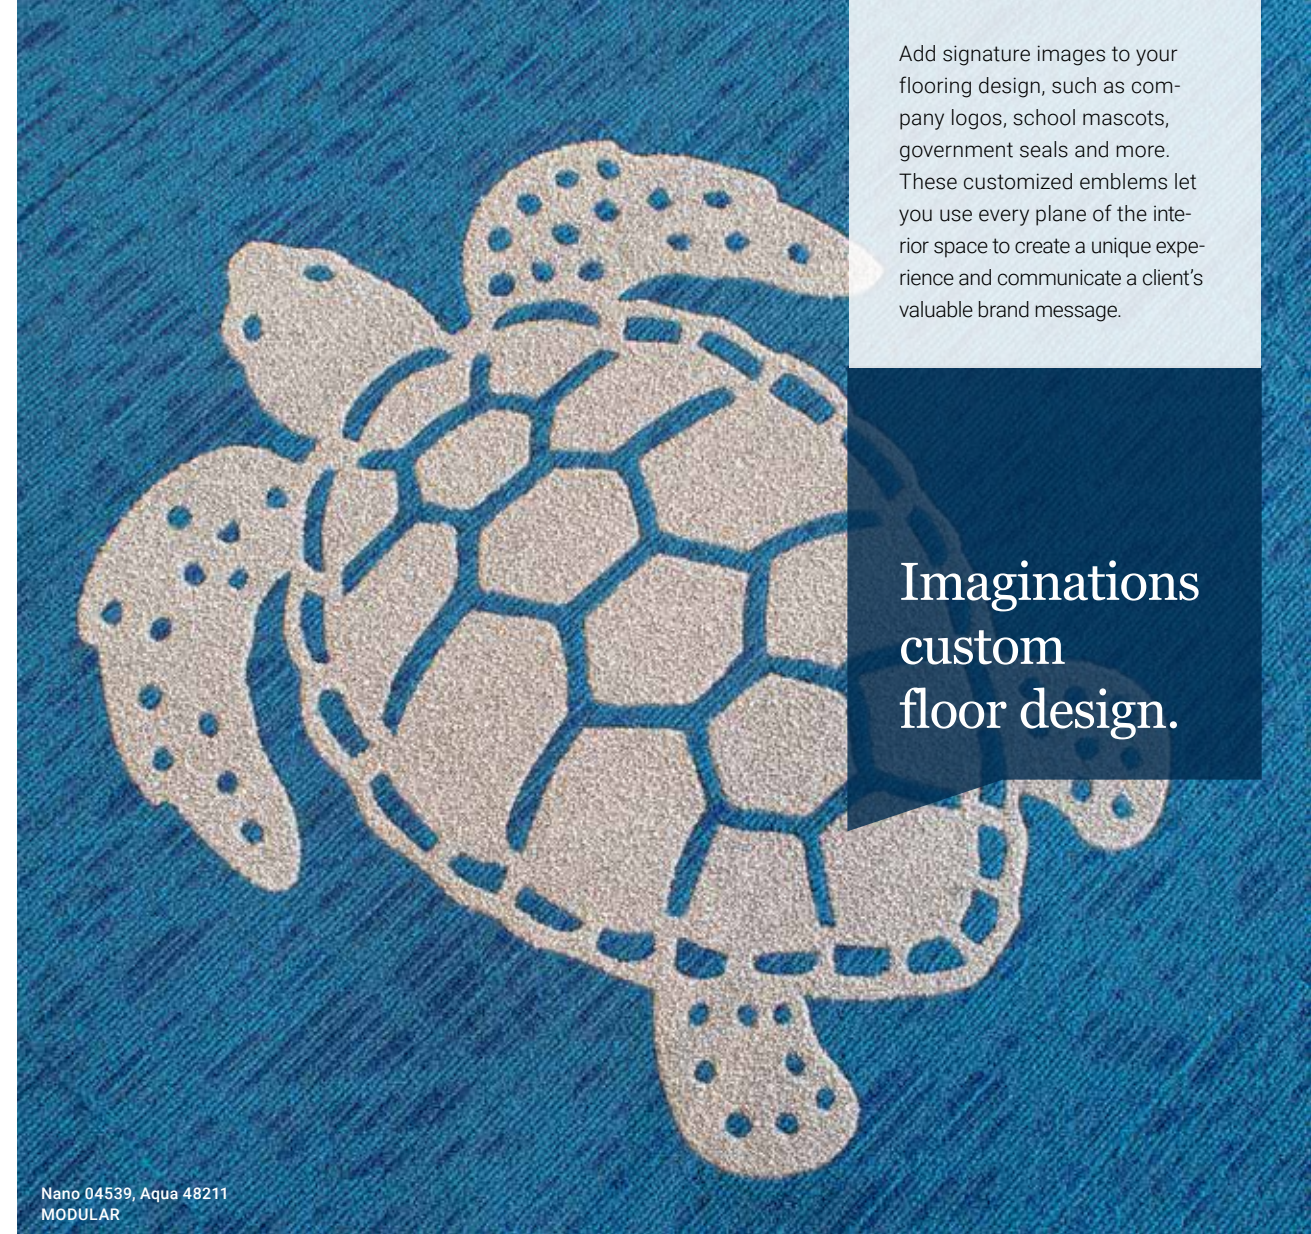

## Design collaboration

Designer Jhane Barnes uses a unique blend of science and art, incorporating fractals and algorithms into many of the products she designs. She began working with Tarkett more than 20 years ago and developed the first modular products designed for random installation. Much of her career has been built on pushing boundaries, whether in her men's fashion collections, textiles, furniture, or carpet. Jhane loves learning about the machines that produce her products in order to get the most out of them. Her latest creations, FlightPath and AirSpace, were first inspired by the lines and angles of intersecting flight paths on an air traffic map. This aesthetic inspiration quickly evolved into a beautifully functional flooring design—one that could simplify installation in contemporary architectural designs, where right angles and straight lines give way to open, multi-use spaces and curved walls.

With its state-of-the-art digital printing technology, Tarkett is able to recreate the look of everything from natural wood grains and stone effects to your favorite upholstery. Send us an image or physical sample of any material to create a fully customized LVT flooring that's uniquely your own.

**Digital printing.**

Add signature images to your flooring design, such as company logos, school mascots, government seals and more. These customized emblems let you use every plane of the interior space to create a unique experience and communicate a client's valuable brand message.

**Imaginations custom floor design.**

Four hands always work faster than two. That's why we created the Designer on Demand program, offering free design support during and after normal business hours. One of our designers will follow your lead and vision to help you configure a space, order samples, and create everything from room scene renderings to floor plan designs—everything you need to pull designs together quickly and share them successfully with clients. It's a perfect co-creative relationship that saves you time.

Coordinate Groups are identified on product portfolios and on [tarkettna.com](http://tarkettna.com) by a specific number or as a Texture or Solid. Textures and Solids coordinate with nearly every style.

Coordinates are based on color, making the decision to use various styles within a project easy by selecting products within the same Coordinate Group. Styles can span product platforms of Powerbond®, Modular, Broadloom and Woven to offer ample choices when designing.

Investing in  
the future.  
Doing good  
together.

At Tarkett, we believe that together, we can make a positive impact on people and the planet. That's why we're Doing Good—Together, connecting our sustainability efforts with what our customers value and our world needs. It's an active, living commitment to create a future where people and the planet prosper in balance.

Doing Good—Together means Designing for Life. A life where we respect natural resources and good materials contribute to people-friendly spaces. It means Closing the Loop, building a circular economy in which resources are responsibly stewarded, recycled and continually re-used. And Doing Good—Together means Driving Collaboration, an open invitation to our customers, our partners, and our industry to join us in creating a healthy, beautiful and sustainable world.

**DESIGNING  
FOR LIFE**

Developing products based on Cradle to Cradle® principles that contribute to people-friendly spaces and respect the planet's natural capital.

**CLOSING  
THE LOOP**

Building a circular economy inclusive of programs and business models that encourage take back, reuse, recycling and elimination of waste.

**DRIVING  
COLLABORATION**

Inviting others to join us in Doing Good through education, collaboration, transparency and communication.

# A global impact.

Doing Good—Together is inspired by the world’s most ambitious sustainability goals and organizations. From our membership in the World Economic Forum to our participation in the UN Global Compact and our alignment with the UN Sustainable Development Goals, we’re committed to big ideals and positive action, working for the health of our products, our world, and a good future for all.

## Thank you for helping us make real progress on a global scale.

We are the only North American flooring manufacturer to offer both commercial and residential products that are certified asthma and allergy friendly by the Asthma & Allergy Foundation of America.

We have the industry’s most ambitious inventory of Cradle to Cradle certified products covering multiple product categories, from resilient to soft surface, and from products to adhesives to maintenance. By 2020, 100% of Tarkett’s raw materials will be third-party assessed for health and planet impacts.

Our third-party verified Material Health Statements provide a true assessment of

product ingredients and their long-term effects on people and the environment—versus the simple ingredient lists provided by other manufacturers.

By 2020, 75% of our raw materials will be recycled, rapidly renewable, or abundantly available in nature.

We’ve designed products to perform better in the long term with simple wet or dry buffing and neutral cleaning products—which means TVOC emissions are among the lowest in the flooring industry and 10 to 100 times below the world’s strictest standard.

Our robust Take Back program is the oldest in the industry, building on a legacy of more than six decades of recycling.

We are collaborating on the Responsible Use of PVC Network to mobilize the industry so that together, we can improve the impact of our products on people and our planet.

**Together, we’re making an impact.**

## Welcome to the world of Tarket Design, Innovation and Co-Creation.

What constitutes the work presented in this product guide is an extraordinary collaboration and consensus of ideas, methods and materials.

Holistically interconnected, the products within speak to the commitment and purpose to innovate and manufacture floorcoverings that immediately communicate better, simpler, clearer form and function.

From the technical expertise, strength and recycled/recyclable core of our backing systems, to the beautifully engineered construction of our face fibers and design layers, all of our product platforms—Powerbond®, Modular, Broadloom, Woven, LVT and Area Rugs—are developed to align toward today's fluid, ever changing market segment reality. In this new era, products need to work with one another aesthetically, and in terms of intent, and how they must function in workplace, education, senior living, hospitality and healing environments.

This is what drives us. Our extremely dedicated staff of designers, engineers, research technicians, manufacturers and world-renowned textile consultants succeed when customers desire our floorcoverings, as much for their beauty, as for their ability to add meaning and longevity to the interior spaces they so skillfully design.

With pride and gratitude..

The Tarkett Soft Surface Product Guide is our annual showcase piece for as many products as possible at the time of print.

We are constantly updating our styles throughout the year, so please make sure you log onto [tarkettna.com](http://tarkettna.com) for the most up-to-date products.

Photos may not accurately depict color. Please order samples for exact product color.

Introduced in 1967, Powerbond® has always been ahead of its time. And now, more than 50 years later, there's still nothing else like it on the market. With the look and softness of carpet and the performance of resilient, Powerbond's chemically welded seams create a wall-to-wall moisture barrier and improve soil and stain resistance.

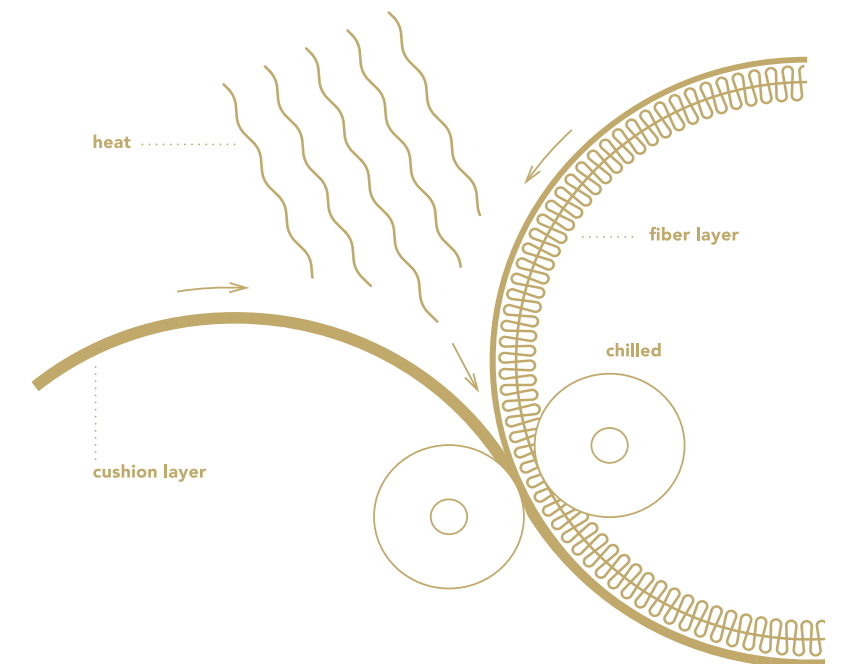

## The beauty of the bond.

\* In the event that free liquids and/or moisture-stained concrete are observed, a full assessment of the concrete substrate is required per the installation instructions.

Powerbond's unique construction of nylon and closed-cell cushion produces a floorcovering that's integral, inseparable, impermeable—and downright incredible.

### Powerbond offers:

- An impermeable, wall-to-wall moisture barrier
- Soil and stain resistance
- Enhanced acoustics
- Underfoot comfort
- Low VOC emissions
- Thermal barrier

# Garden Walk Collection

POWERBOND MODULAR BROADLOOM

SUZANNE  
TICK

Creating an atmosphere of betterment.

Using soft nuance and fluid movement, the Garden Walk Collection welcomes residents and guests with the warmth and comfort of relaxed living, creating an ideal setting for healing, lifestyle and leisure. This warm array of color and pattern gently alludes to organic materials from the outdoor environment and embraces the imperfect beauty of the natural world. Each sophisticated design carries deep, soothing tones that create a tranquil atmosphere and lends itself to feelings of wellbeing. Inviting, reflective and restorative, these spaces are designed for the overall wellness of body, mind and soul.

# Scale Study Series

POWERBOND MODULAR

SUZANNE TICK

Creating scale, shifting purpose.

Just as multi-use spaces collide in our rapidly changing culture, so do the geometric details of each resilient and soft surface design within the new Scale Study Collection by Suzanne Tick. Inspired by the architectural facades of Zaha Hadid, Luis Barragan and Frank Gehry, Scale Study is designed to embrace an openness and fluid movement between spaces. With four products that shift from large to small, and open space to private space, the collection's mix of pattern and material gives designers a diverse toolkit they can rely on again and again.

# Aegean Collection

POWERBOND MODULAR

Soothing color, plush texture.

Gaining inspiration from Greece's breathtaking vistas and slow-paced restful culture, the Aegean Series' color palette is informed by the neutral shades of white sandy beaches, stretching mountains, cobblestone streets and ancient stone columns. Rich saturated tones mimic crystal sky, aqua sea, Mediterranean islands and terra-cotta rooftops. Using a four-ply yarn blend, Andros and Hydra have an inviting texture that you can both see and feel. By combining two dark yarn strands with one accent color and one white strand, this four-ply yarn carries visual dimension and tactile softness.

# Open Archive Collection

POWERBOND MODULAR

## Carpet couture.

Inspired by timeless textile designs, we introduce the Open Archive Collection. This sweeping collection offers a modern twist on iconic style. Informed by art, architecture and fashion, the Open Archive Collection elegantly updates classic looks, ushering in a new age of chic.

Influenced by fabric found in high fashion, this collection is an experimentation in the mixing of textile structure. It presents a new contrast of fiber development which has never been achieved before on the floor plane.

POWERBOND

VERTICAL ASHLAR

MODULAR

MODULAR

**ethos® MODULAR WITH  
OMNICOAT TECHNOLOGY™**

Don't lose time and money on challenging substrate issues—ethos® Modular with Omnicoat Technology™ eliminates installation problems before they happen.

- Proprietary, non-PVC backing
- Creates a chemical barrier that works on any adverse flooring substrate
- Made with PVB film from recycled windshields and safety glass
- Cradle to Cradle® Silver certified v3.1 and ILFI Living Product Challenge Imperative Certified, including the Health and Happiness Petal

Overcome  
what lies  
beneath.

*Used in conjunction with TarkettTAPE™, ethos Modular with Omnicoat Technology allows for immediate installation over adverse flooring substrates that previously required time-consuming and costly testing and floor preparation.*

- pH, RH & MVER testing is eliminated<sup>2</sup>
- Install over pre-existing adhesive
- Priming not required for existing PSA meeting requirements (see website for complete list)
- Improved health, well-being & safety

<sup>2</sup> RH and MVER testing are eliminated provided that no free liquids are present and that no moisture-stained concrete is evident. In the event that free liquids and/or moisture-stained concrete are observed, a full assessment of the concrete substrate is required.

Don't let  
moisture  
get you  
down.

Powershield® is an underlayment intended for use with Tarkett modular tile for moisture remediation. Developed in 2010, our powershield product became a flooring solution for concrete substrates with a moisture vapor emission rate (MVER) of up to 10 lbs. and a relative humidity (RH) of up to 90%. \* powershield offers the same technology for our modular tile that is found in the revolutionary closed-cell cushion of Powerbond® and can be used over concrete flooring substrates in the following conditions:

- Moisture Vapor Emission Rate (MVER) up to 10 lbs
- Relative humidity of 90%
- pH up to 9

\* When powershield is properly installed over concrete slabs according to previously mentioned specifications with Tandus Centiva modular tile, all applicable Tandus Centiva Modular Limited Warranty terms apply.

MODULAR CARPET

power(shield)®

CONCRETE

## TARKETT TAPE™

**TarkettTAPE™ is for use with ethos® Modular with omnicoat technology™ and Flex-Aire™ Modular.**

Creating a floating installation system for modular carpet, use TarkettTAPE to install ethos® Modular with omnicoat technology™ directly over a variety of adverse substrates, including green concrete, concrete containing surface-curing additives, and chemically-abated concrete. When installed with TarkettTAPE™, ethos Modular with Omnicoat Technology is unaffected by moisture and pH, eliminating the need to test for pH, RH and MVER (provided that no free liquids are present and that no moisture-stained concrete is evident). All of which keeps your installation on schedule and your budget on track.

- TarkettTAPE installed with ethos Modular with omnicoat technology requires no pH, MVER or In-Situ/RH testing provided there is no evidence of free liquids.
- TarkettTAPE with Flex-Aire Modular can be installed at MVER ≤ 5.0 pounds, pH ≤ 9.0 and In-Situ/RH ≤ 80%.
- Odor free
- Sticks to the tile, not the floor
- Low VOCs
- Faster Installation

**Supplied in self-wound perforated rolls with an outer diameter of 5" on a 3" inner diameter.**

- Each tape unit measures 3"x 4" +/- 0.125" with notched perforations between each unit.
- There are 324 units per roll with a coverage area of 144 sq. yds/roll installed with 24" tile.
- Packaged from 1 to 16 rolls per box with a minimum order quantity of one roll.
- The tape unit is centered at the corner of the tile as to engage the inner section of the two adjacent and one opposing tile corners (See installation instructions for details). adhesive types such as general purpose, styrene-based, and multipurpose.

The only  
product  
to eliminate  
pH, RH and  
MVER testing.

With the TarkettTAPE system, no adhesive is required; therefore, no bond test is needed. TarkettTAPE provides a faster, simpler installation and is free from excessive waste.

# Garden Walk Collection

POWERBOND MODULAR BROADLOOM

SUZANNE  
TICK

Creating an atmosphere of betterment.

Using soft nuance and fluid movement, the Garden Walk Collection welcomes residents and guests with the warmth and comfort of relaxed living, creating an ideal setting for healing, lifestyle and leisure. This warm array of color and pattern gently alludes to organic materials from the outdoor environment and embraces the imperfect beauty of the natural world. Each sophisticated design carries deep, soothing tones that create a tranquil atmosphere and lends itself to feelings of wellbeing. Inviting, reflective and restorative, these spaces are designed for the overall wellness of body, mind and soul.

# Tailored Twist Collection

MODULAR

A touch of color.

Just as multi-use spaces collide in our rapidly changing culture, so do the geometric details of each resilient and soft surface design within the new Scale Study Collection by Suzanne Tick. Inspired by the architectural facades of Zaha Hadid, Luis Barragan and Frank Gehry, Scale Study is designed to embrace an openness and fluid movement between spaces. With four products that shift from large to small, and open space to private space, the collection's mix of pattern and material gives designers a diverse toolkit they can rely on again and again.

# Crosscut Collection

MODULAR

SUZANNE  
TICK

High style,  
affordable  
price.

The new Crosscut Collection, designed by Suzanne Tick, delivers high style at a low cost. True value innovation occurs when designers can create products that are expensive looking materials at low price points, and this was the intention behind Crosscut Collection. This value innovation was developed through a combination of yarn construction, color, and pattern to create floor coverings that have a visual and textural integrity.

Tarkett

 **Tarkett**

Co-create.  
Make it  
your own.

Tarkett's take on broadloom area rugs is anything but ordinary. The refined woven area rugs add regality and luxury to any interior. Area rugs allow an area to be reconfigured time and again, allowing the space's design to be changed at will. Co-create your rug with Tarkett in four easy steps.

## Tarkett Area Rug Program

### STEP 1

Visit <http://tcarearug.tarkettna.com> to choose the style and color.

### STEP 4

Enter required customer and payment information.\*\* Click submit.

### STEP 2

Enter desired dimensions.

### STEP 3

Select serging color.

**Fast & easy.  
Four steps.  
Fifteen days.  
Start to finish.**

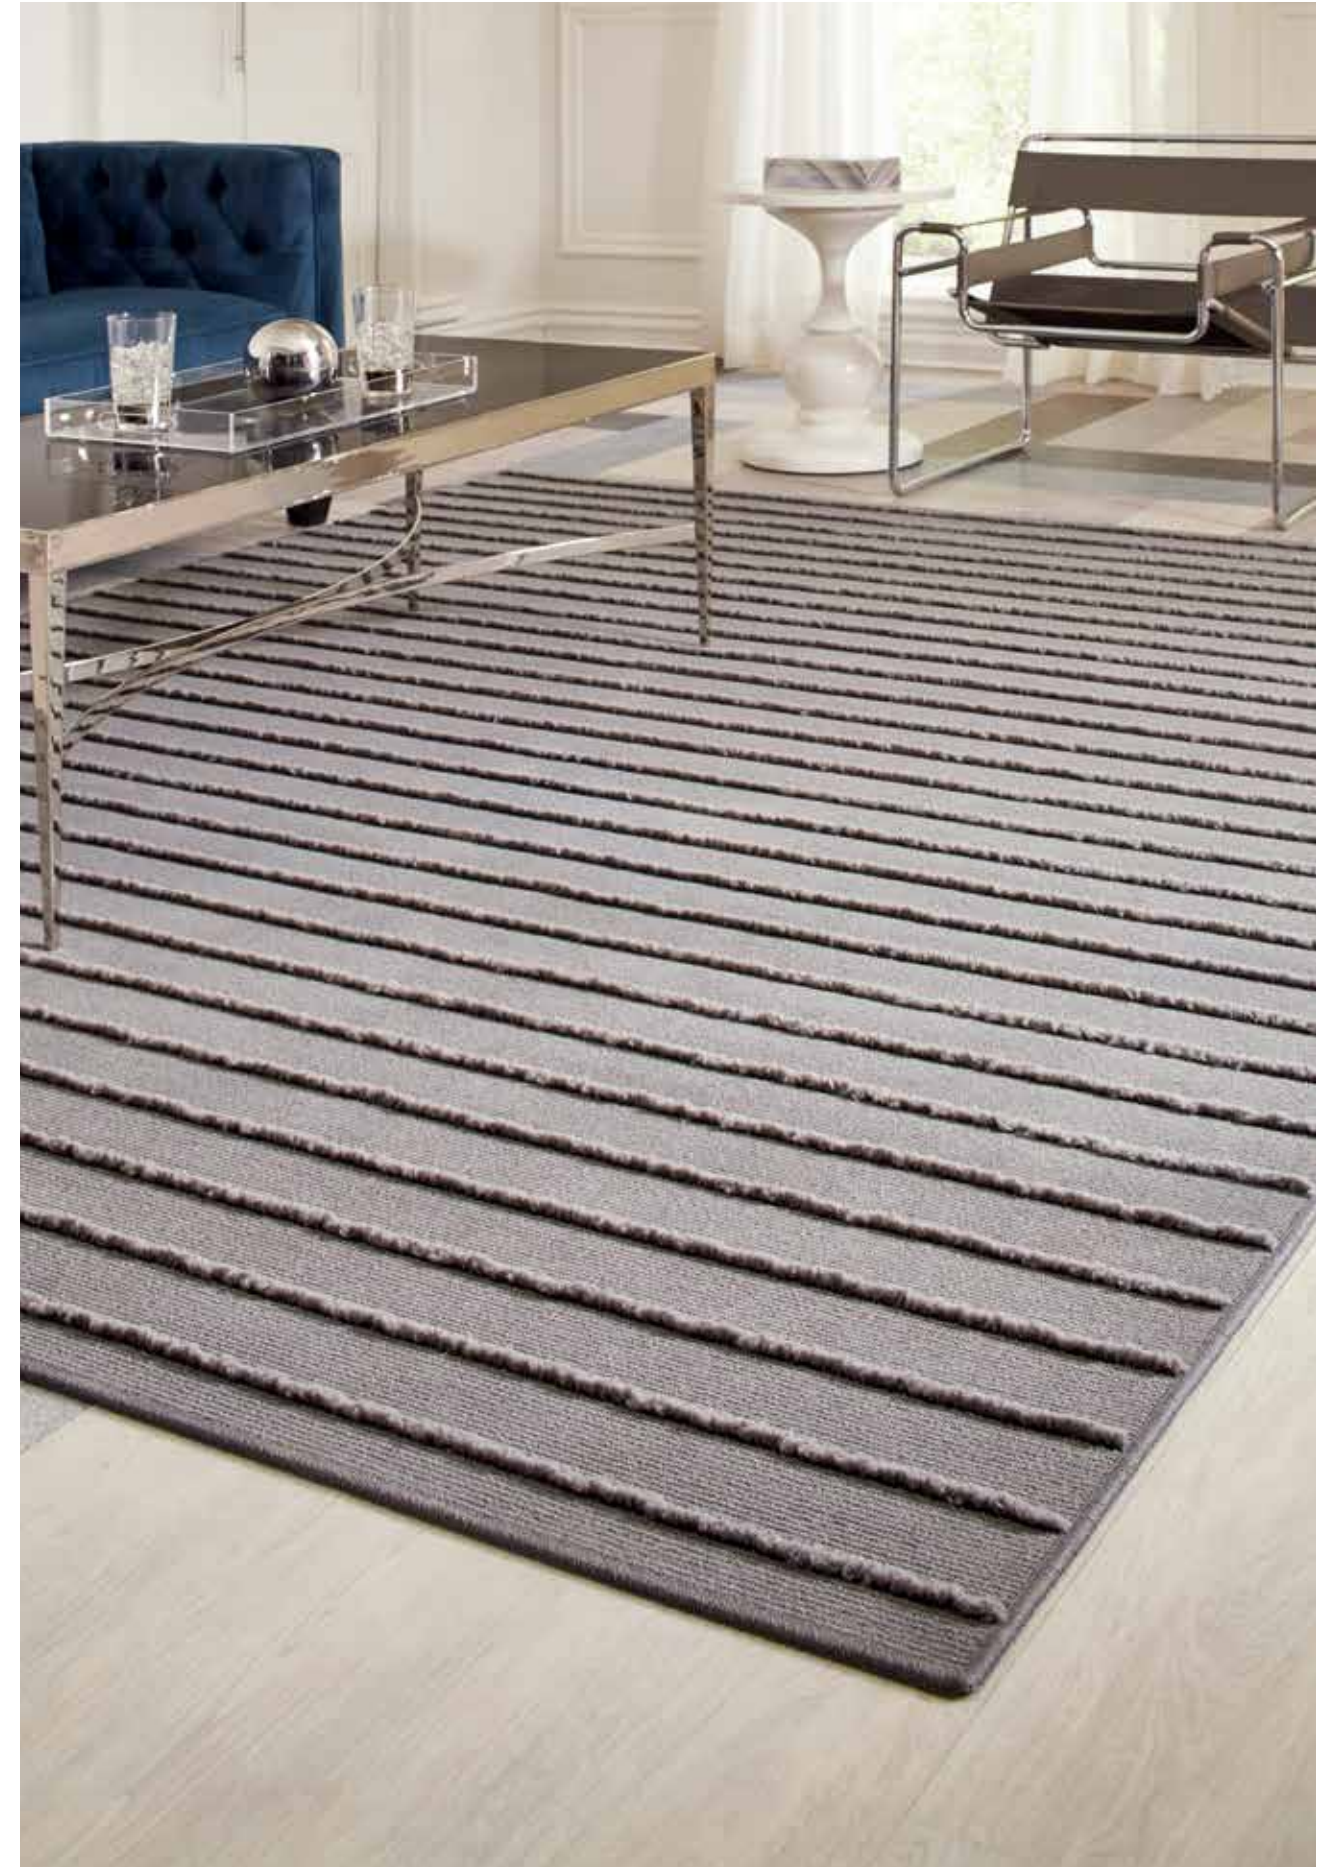

A premium non-skid rug underlayment will be provided, at no charge, with each area rug.

Samples of the styles and colors available can also be ordered online. PLEASE NOTE: Samples will not be serged. Example of serging can be seen in Area Rugs architectural folder.

Questions? Please reach out to us at: 800.248.2878

# Garden Walk Collection

BROADLOOM

SUZANNE  
TICK

Creating an atmosphere of betterment.

Using soft nuance and fluid movement, the Garden Walk Collection welcomes residents and guests with the warmth and comfort of relaxed living, creating an ideal setting for healing, lifestyle and leisure. This warm array of color and pattern gently alludes to organic materials from the outdoor environment and embraces the imperfect beauty of the natural world. Each sophisticated design carries deep, soothing tones that create a tranquil atmosphere and lends itself to feelings of wellbeing. Inviting, reflective and restorative, these spaces are designed for the overall wellness of body, mind and soul.

# IslandGate Collection

BROADLOOM

Blend in  
to stand out.

Island Gate brings a softness indoors by introducing muted tones and patterns to the floor. The soothing atmosphere set by Island Gate enhances the senior living environment and provides a soft surface that performs and cushions underfoot. Neutral grays and beiges ensure Island Gate mixes into any senior living setting, allowing it to blend and complement the furniture in an independent or assisted living setting.

# Needle Tech Collection

BROADLOOM

There's  
a new  
dress code.

This multi-award winning collection is based on the look of a hand-stitched rug, reinterpreted in fresh 3D-faceted, digital-geometric motifs.

# Grasscloth Collection

BROADLOOM

Growing luxury.

Informed by the artisan use of natural fibers and cloth in turn-of-the-century basketry, seating and hand weaving, the Grasscloth Collection, a Best of NeoCon Gold winner for Healthcare Flooring, brings together four distinctively contemporary patterns that work collaboratively to offer a range of motifs, textures, scales and colors for spaces from corridors to dining to living areas.

## Crafted luxury.

Tarkett's wovens represent the ultimate in luxury and performance, offering interesting studies in texture and relief. Drawing on the weaving techniques handed down through centuries, our design team takes a modern approach to woven broadloom, offering an elegant, high end look in numerous designs and colors.

Co-create.  
Make it  
your own.

Tarkett's take on broadloom area rugs is anything but ordinary. The refined woven area rugs add regality and luxury to any interior. Area rugs allow an area to be reconfigured time and again, allowing the space's design to be changed at will. Co-create your rug with Tarkett in four easy steps.

## Tarkett Area Rug Program

### STEP 1

Visit <http://tcarearug.tarkettna.com> to choose the style and color.

### STEP 4

Enter required customer and payment information.\*\* Click submit.

### STEP 2

Enter desired dimensions.

### STEP 3

Select serging color.

**Fast & easy.  
Four steps.  
Fifteen days.  
Start to finish.**

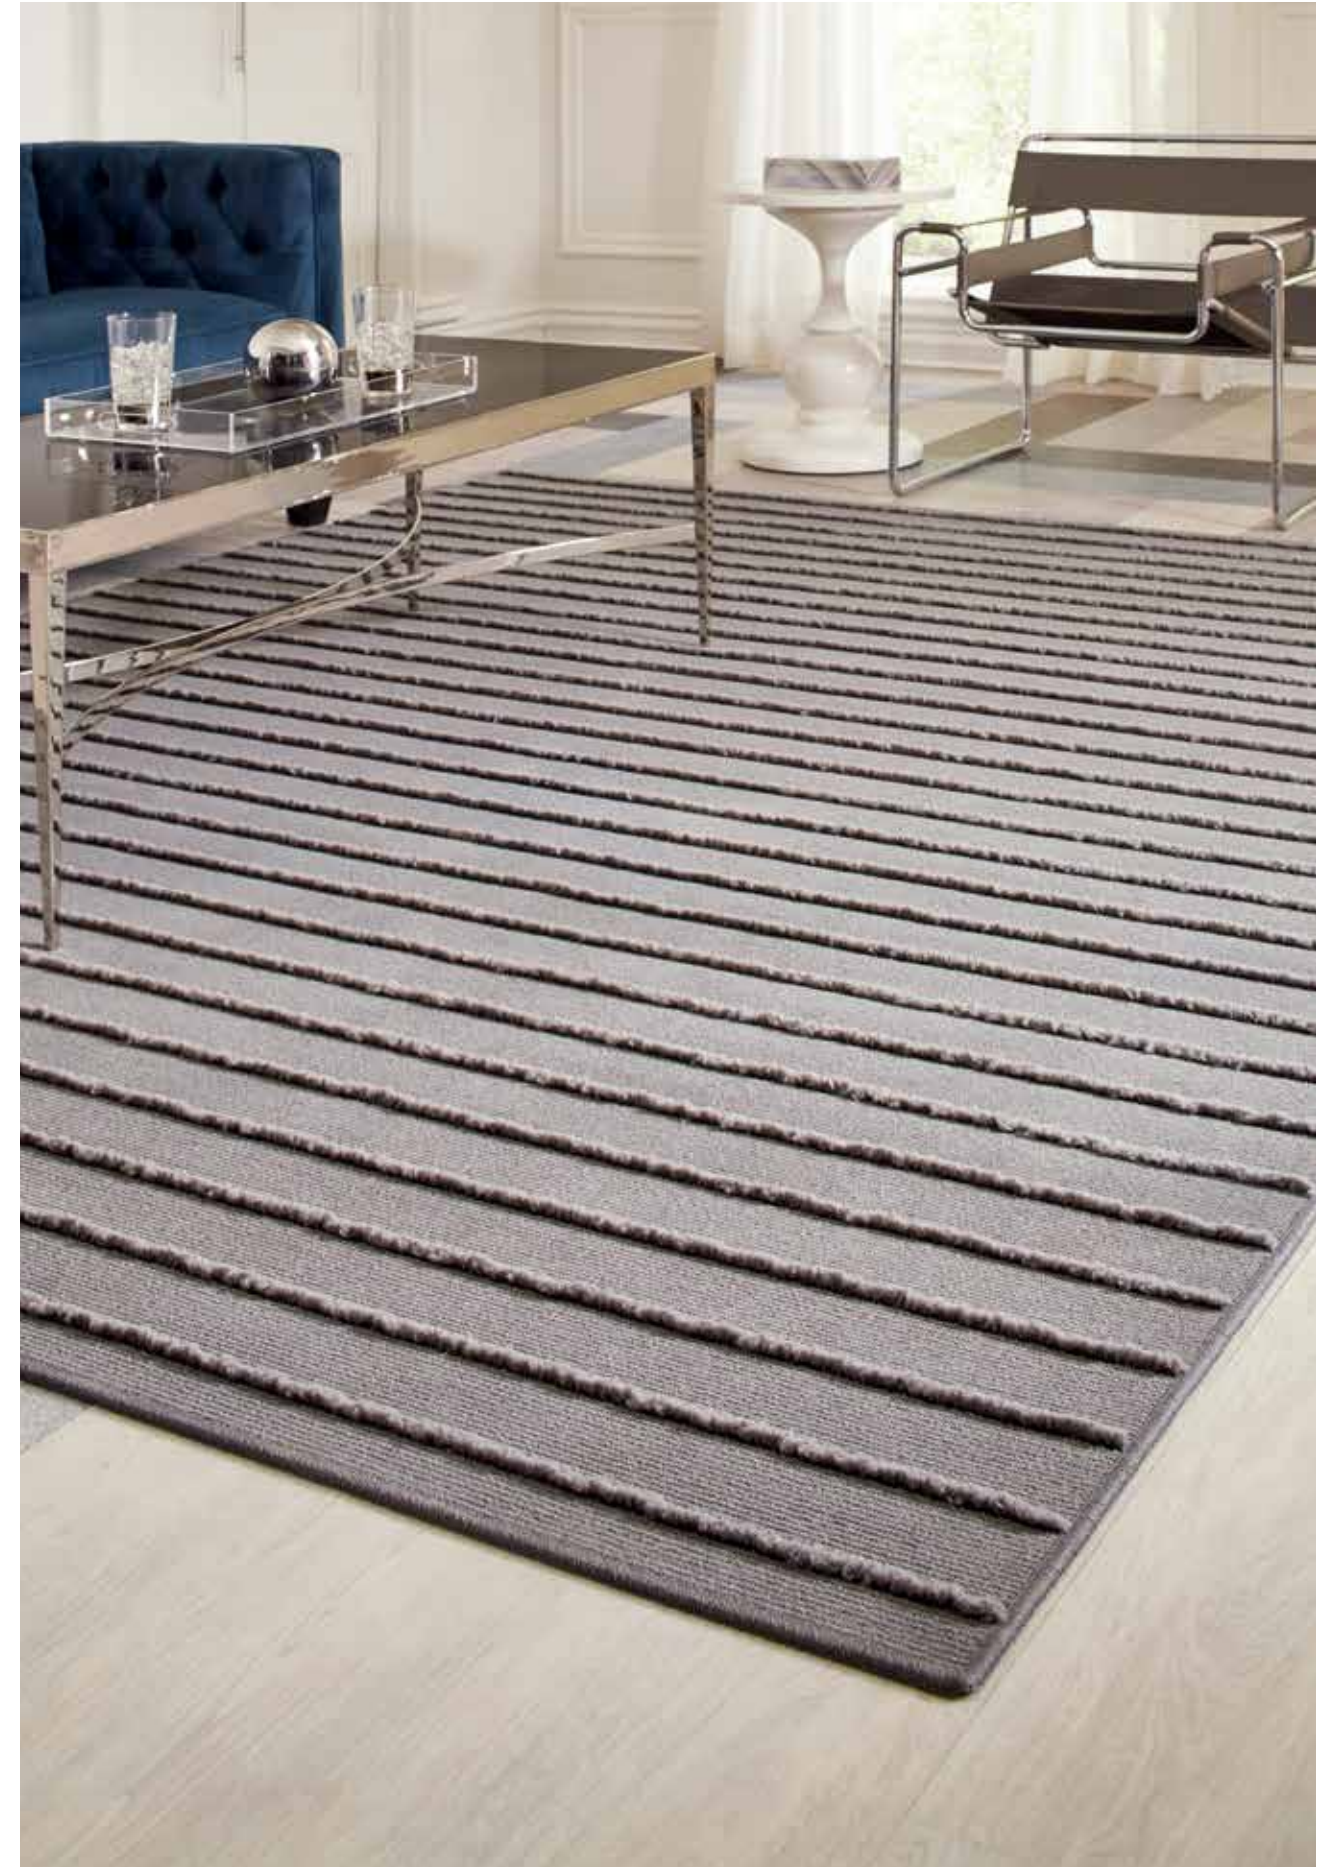

A premium non-skid rug underlayment will be provided, at no charge, with each area rug.

Samples of the styles and colors available can also be ordered online. PLEASE NOTE: Samples will not be serged. Example of serging can be seen in Area Rugs architectural folder.

Questions? Please reach out to us at: 800.248.2878

# Woven Fringe Collection

WOVEN

The heart of an artisan.

The Woven Fringe Collection is a wonderful reminder that true love of craft requires a constant openness to embrace imperfect results – both for the inherent beauty they possess, and the hidden potential they reveal. This gorgeous fringe across the weft was discovered quite by mistake when the wires of our loom started misfiring one day. And we immediately fell in love.

# Woven Matrix Collection

WOVEN

SUZANNE  
TICK

## Off the grid.

Suzanne Tick pushes woven carpet technology to new levels with an elegant use of texture and volume. A textural striae that combines the qualities of a plush woven with tectonic structure, Cable Weave is created by multiplied bundles of yarn with high and low luster. Pebble Mesh is a highly textured coordinate that uses similar yarn technology to create two-tone color combinations.

# Make

Tailor the pattern by selecting from our expansive Dynex solution-dyed yarn library.

# RESOURCES

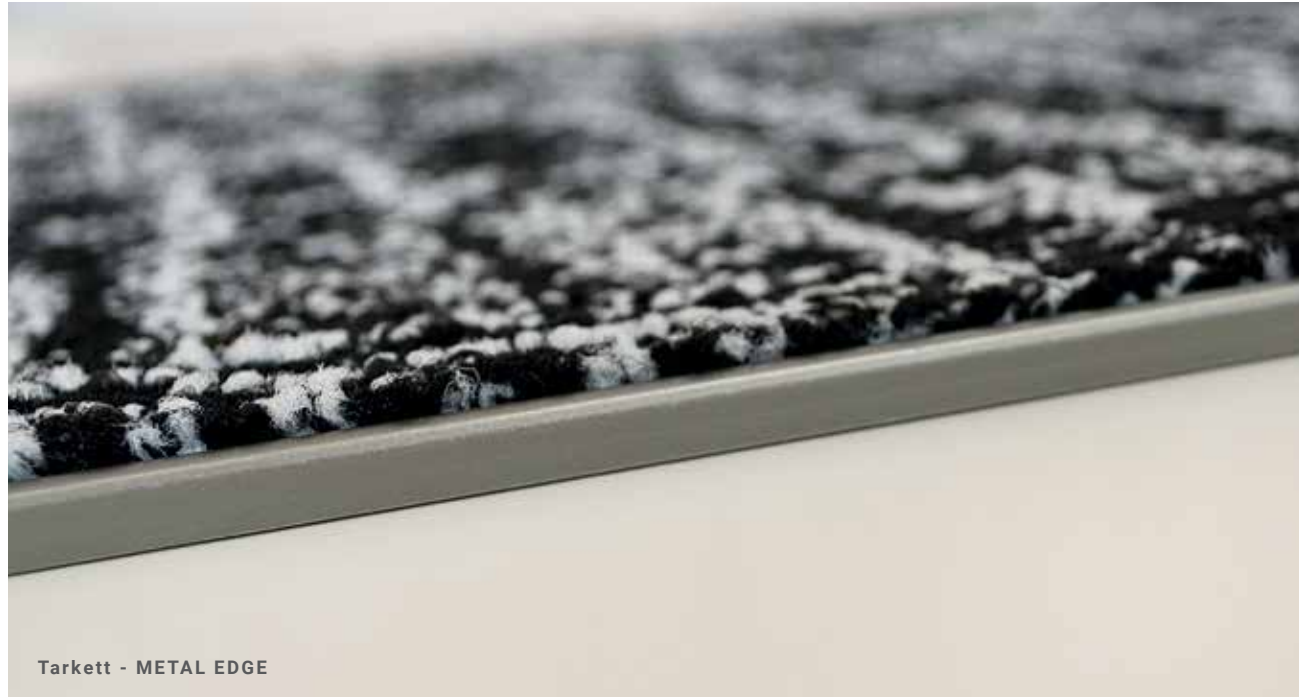

From transition strips to wall base to adhesives, Tarkett has a full-service portfolio of coordinating product solutions, designed to carry an aesthetic throughout the entire floorplan.

Put it all together.

Tarkett - METAL EDGE TRANSITION

TARKETTNA.COM

Tarkett - METAL EDGE

Tarkett - WALL BASE

#### RESTART®

Since the early 1900s, Tarkett has been collecting vinyl-backed flooring from the marketplace to recycle back into flooring. We were the first in the industry to reclaim and recycle soft surface flooring from the waste stream, the first to third-party certify a recycled content product, and the industry's first to third-party certify a closed-loop reclamation and recycling program. Each day, we recycle up to 90,000 pounds of flooring and waste, totaling more than 308 million pounds to date. In addition to flooring, we also reclaim product samples and portfolios that are no longer needed in the marketplace—both our own and our competitors'.

In order to sustain the recycled content of our products, we need your help in reclaiming material. The process is easy. Just contact your Tarkett account executive and leave the rest to us.

Closing  
the loop.

## HERE IS HOW IT WORKS:

### Vinyl-Backed Carpet

- Call your Tarkett account executive at 800.248.2878 and request a Material Return Form
- Submit a sample of product for approval
- Package materials securely for handling with a lift truck
- Ship materials with Material Return Request number
- Notify us 24 hours before delivery
- Tarkett receives the materials for reuse or closed-loop recycling

### Physical Samples

- Save the packaging you received the samples in
- Call Customer Service at 800.248.2878
- We will send you a prepaid label to affix to the packaging
- Call your carrier for pick up
- Tarkett receives the materials for reuse or recycling

### Same process as above for competitive samples.

### Tarkett Product Portfolios

- Call Customer Service at 800.248.2878
- We will send you a prepaid label or packaging
- Pack materials with prepaid label
- Call your carrier for pick up
- Portfolios will be returned to the closest Tarkett regional office for reuse

**Together, we can make a significant environmental impact by keeping these materials out of the waste stream.**

**Thank you, in advance, for your assistance.**

## FREQUENTLY ASKED QUESTIONS

### Is there a cost to recycle the floorcovering?

There is no charge to recycle approved floorcovering and accessories, as long as Tarkett products are being purchased to replace the reclaimed floorcovering. The cost to recycle through the ReStart Program is generally less than the cost of sending the waste to a landfill.

### What can be recycled through ReStart?

All Tarkett installation waste can be returned. Any post-consumer Tarkett modular carpet or Tarkett VCT can be recycled. If the product was not manufactured by Tarkett, a sample must be submitted and approved prior to returning such products.

### Will you accept all product colors?

With VCT, preference is given to light colors such as beige, light grey and white. For soft surface materials, all colors are accepted. If you have any questions, please contact your Tarkett representative.

**ACCESSORIES**

**MetalEdge™ (Transition and Trim)**

4 colors – Steel, Ironstone, Black Pearl, Brass

MetalEdge Un 12' Strip	ME001	12'
MetalEdge Deux 12' Strip	MET02	12'
MetalEdge Trois 12' Strip	ME003	12'
MetalEdge Quatre 4' Strip – (Leveler only. Use with ME003)	ME004	4'

**PRIMERS, SEALERS & CLEANERS**

Porous concrete floors must be primed

<b>C-36E Primer</b> 4-gallon spread rate 133-177 sq yds	933	4-Gallon Pail
--	-----	---------------

<b>C-56 Primer</b> 4-gallon spread rate 120-140 syds	927	4-Gallon Pail
---	-----	---------------

<b>Seam Weld 54 (not for sale in CA)</b> 1 quart spread rate 800 linear feet	901	Quart (12 per carton)
---	-----	--------------------------

<b>C-XL Seam Weld (Powerbond® &amp; Broadloom)</b> (water based) 1 quart spread rate 400 linear feet	985	Quart (12 per carton)
--	-----	--------------------------

<b>Seam Cleaner 77 (not for sale in CA)</b> 1 quart spread rate 1,600 linear feet	903	Quart (6 per carton)
--	-----	-------------------------

<b>Syon-5®</b> 1 Pint (12 pints per carton)	926	Carton
1 Gallon (4 gallons per carton)	925	Carton

**TOOLS**

Seam Trimmer – Double Blade	993	Each
Extra Blades (5/pack) k#PBR-1	916	Pack
Circular Repair Cookie Cutter	924	Each

**MISCELLANEOUS**

powershield® – roll size 6' x 75' (50 yards)	210PS	Sq. ft.
Carpet Rescue Kit	855	Each
Double Faced Tape – 2" x 25 yards per roll	955	Roll

**CONSTRUCTION OPTIONS**

All Tarkett Powerbond® and Modular options are 100% closed-loop recyclable through our ReStart® Program and do not contain pesticides (antimicrobials) as part of our initiative to reduce chemicals.

**Powerbond® Cushion** (RS or Non RS) – A hybrid resilient sheet floor-covering. Closed-cell cushion contains up to 19% postconsumer recycled content. Overall product contains 7-33% recycled content with a minimum 7% postconsumer. Benefits include: superior performance in extreme traffic, energy savings (good thermal attributes), reduced slip/fall injury, excellent acoustic control and wall-to-wall impermeable moisture barrier, lifetime limited warranty.

**ethos® Modular** (Non RS) – Made from recycled non-chlorinated polymers commonly used in windshields and other types of safety glass. Secondary backing contains 98% recycled content with a minimum 50% postconsumer, overall product contains 47-76% recycled content with a minimum 28% postconsumer, lifetime limited warranty.

**ethos® Modular with Omnicoat Technology** – An application of a proprietary coating to the backing of ethos Modular. Omnicoat Technology provides an excellent chemical barrier, thus preventing any interaction between materials in the backing and the wide variety of components found on and within the flooring substrates.

**ER3® Modular** (RS or Non RS) – Industry's first 100% recycled content secondary backing. Minimum of 45% total recycled content, overall product 14-24% postconsumer, lifetime limited warranty.

**Flex-Aire™ Cushion Modular** (RS or Non RS) – Affordable closed-cell cushion for enhanced comfort and acoustic properties. Secondary backing contains 35% preconsumer recycled content. Overall product contains 21-38% recycled content with a minimum 5% postconsumer, lifetime limited warranty.

\*RS is a peel & stick installation method. It is the lowest VOC adhesive system in the industry.

**Super-Lok®** was developed to provide customers with superior attributes to the standard industry backing systems. Super-Lok is the benchmark backing on many of Tarkett's broadloom carpets and has met or exceeded all industry required testing. Super-Lok provides the following attributes — enriched synthetic latex, improved protection against edge ravel, improved protection against delamination, low Volatile Organic Compounds (VOC), excellent tuft bind, excellent rollability, easy to install, 10 year warranty.

**LifeLONG®** is a high-performance Tarkett commercial broadloom backing system developed by Tarkett Technologies. LifeLONG was developed to meet the demanding requirements of the commercial marketplace. LifeLONG is an available option for all styles constructed with the Super-Lok Backing System. In addition to providing the same attributes, LifeLONG also offers the following characteristics and benefits — recycled content (for LEED™ Certification), 20 year non-prorated warranty, improved lamination strength, increased edge ravel warranty, increased lamination warranty, passed Modified British Spill Test, maintains flexibility over a wide range of temperatures.

**ErgoStep®** backing is a high density polyurethane cushion. It was developed to provide customers with a product to satisfy installation requirements such as extra cushion comfort, and noise reduction. ErgoStep Backing is available for all Tarkett broadloom products and provides the following attributes — cushion comfort, reduced fall impact, extended product life, minimized edge ravel, moisture management, enhanced thermal properties, and flexibility over a wide range of temperatures. ErgoStep contains a minimum of 30% postconsumer recycled content and overall product postconsumer recycled content of 8-10%. ErgoStep with BiOH™ adds 8.6% of bio-based content derived from soy bean oil. This custom backing option is available by special order and minimum yardage is required. 10 year warranty.

**Crossweave® Woven** technology was engineered for exceptional long-term performance. Tarkett's Crossweave looms weave pile and backing yarns together to create one integral unit. Pile yarns are inter-laced to provide woven carpets' famous resistance to delamination and yarn zippering. Every woven broadloom is constructed and crafted with superior performance features including exceptional seaming properties and dimensional stability, 15 year warranty.

**CrossCushion® Woven** provides added comfort underfoot and extends the life cycle of Crossweave Woven Technology. CrossCushion is an attached high-density polyurethane cushion. In addition to the attributes inherent in Crossweave woven construction, CrossCushion offers the following characteristics and benefits — reduced fall impact, enhanced acoustics, moisture impediment, reduced crushing, enhanced thermal properties. CrossCushion contains a minimum of 30% postconsumer recycled content and overall product post-consumer recycled content of 8-10%. CrossCushion with BiOH™ adds 8.6% of bio-based content derived from soy bean oil. This custom backing option is available by special order and minimum yardage is required. 15 year warranty.
