

A modern office interior featuring a modular desk setup with wooden tops and metal bases. The floor is covered in a dark, patterned carpet tile system. Large windows with black frames and modern pendant lights are visible in the background. A long dark conference table is on the left, and several computer workstations are on the right.

# Tailored Twist Collection

MODULAR

Tailor-made  
feel.  
Off-the-rack  
convenience.

 **Tarkett**

## Just three steps

1

**Choose a colorway**, or combine multiple colorways.

2

**Select patterns.** You can stick with the four patterns within your colorway (Tailored, Tailored Madras, Tailored Plaid or Tailored Bloom), or combine any of them together from different colorways, for playful pops of visual interest and texture.

3

**Choose an installation method.** See the creative layouts we've started for you or use the online visualizer at [tarkettna.com](https://tarkettna.com) to design an original.

# Let's talk color.

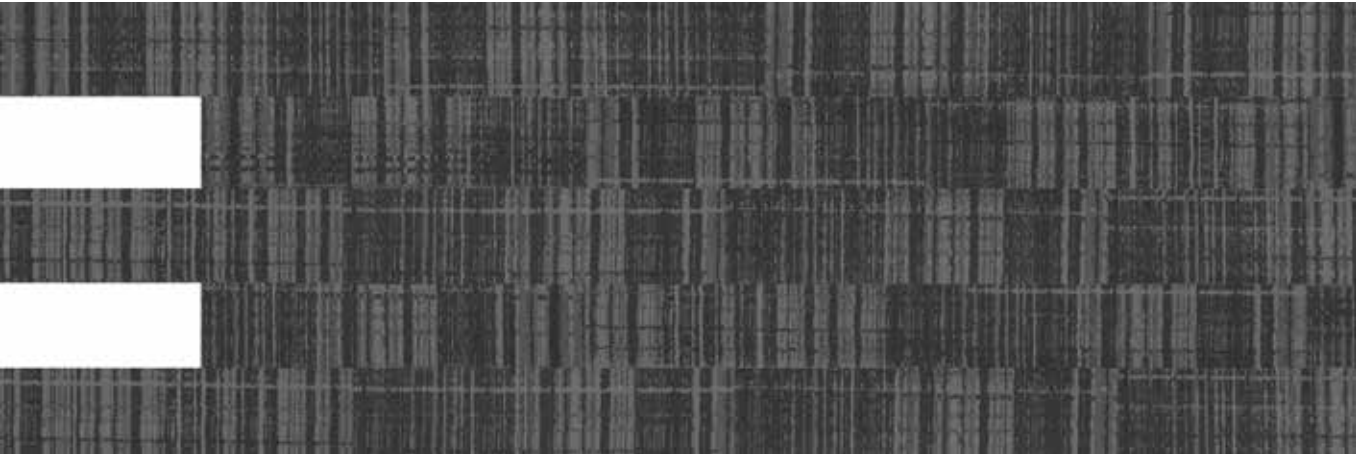

With three patterns in each of the nine colorways, Tailored Twist Collection makes it easy to create personalized spaces with a spirit of distinction—simply through artful installations of the standard line. Use the following pages to visualize each of the colorways, and the way accent patterns add a sense of playfulness and customization.

The Tailored Twist Collection of products are designed to express the beauty inherent in the imperfections and variations found in hand crafted textiles. Shifts in Pattern repeats, colour and accuracy are to be expected and celebrated as desired characteristics. A range of tiles should be approved prior to install.
