## Stairwell Management

### KEY BENEFITS:

- **Slip resistance:** slips and falls are the second-highest cost for workers' compensation claims; Tarkett rubber flooring exceeds ADA COF (slip resistance) standards
- **Underfoot comfort cushion:** Rubber flooring offers the closest IIC rating (Impact Insulation Class number) to carpet
- **Long life-cycle benefits** for lower total cost of ownership
- **Low maintenance:** no finish required
- **Design coordination:** Rubber stair treads will coordinate with our Tarkett resilient system and landing tiles, and can be an attractive design element within a flooring solution
- **Custom solutions:** Tarkett offers custom rubber solutions with low minimums; check-out our new Rubber Visualizer to begin customizing your solution today
- **Sustainable solution:** Tarkett rubber flooring is Cradle to Cradle Certified™, and Certified Carbonfree®
