

Resilient Product Guide

2019

For more than 130 years, Tarkett has been at the foundation of **creating more beautiful spaces**, unlocking the **infinite possibilities** that happen when **we come together**.

We believe in the power of collaboration, going the extra mile and investing in the future. **Please join us.**

Welcome to
Tarkett.

The
power of
collaboration.

CREATING TOGETHER

Tarkett believes deeply in the value of collaboration, in bringing together different voices and ideas to create something worth more than the sum of its parts. Within our walls, we're committed to fostering a diverse work environment that encompasses and nurtures people from all backgrounds, ages, races, ethnic groups, and lifestyles. Outside our walls, we've been co-creating with our customers and prominent designers around the globe to create flooring solutions that inspire. When you or your customers ask if something is possible, Tarkett's response is almost always a resounding Yes. If you can imagine it, we'll work to create it.

We understand the constant balancing act inherent in every project. The long, often competing list of demands that can force difficult trade-offs. To help alleviate the tension, we've developed a uniquely comprehensive portfolio of soft and resilient floorcoverings—the **Tarkett Solution SPECTrum™**—to help you specify flooring products with total confidence.

The Tarkett Solution SPECTrum™ helps you expertly recommend a flooring platform for the specific needs of every space and every budget. And our full palette of colors, patterns, and textures is coordinated to work together visually across platforms. So the endless balance of function, safety, and durability is always done on budget, in style, without compromise.

In short, no one covers you better.

Spec with
confidence.

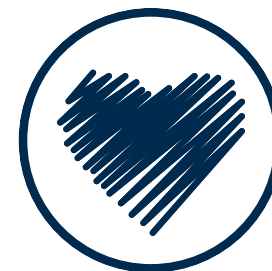

RUBBER

Investing in
the future.
Doing good
together.

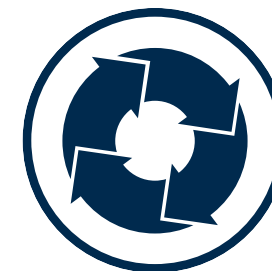

At Tarkett, we believe that together, we can make a positive impact on people and the planet. That's why we're Doing Good—Together, connecting our sustainability efforts with what our customers value and our world needs. It's an active, living commitment to create a future where people and the planet prosper in balance.

Doing Good—Together means Designing for Life. A life where we respect natural resources and good materials contribute to people-friendly spaces. It means Closing the Loop, building a circular economy in which resources are responsibly stewarded, recycled and continually re-used. And Doing Good—Together means Driving Collaboration, an open invitation to our customers, our partners, and our industry to join us in creating a healthy, beautiful and sustainable world.

DESIGNING FOR LIFE

Developing products based on Cradle to Cradle® principles that contribute to people-friendly spaces and respect the planet's natural capital.

CLOSING THE LOOP

Building a circular economy inclusive of programs and business models that encourage take back, reuse, recycling and elimination of waste.

DRIVING COLLABORATION

Inviting others to join us in Doing Good through education, collaboration, transparency and communication.

A global impact.

Doing Good—Together is inspired by the world's most ambitious sustainability goals and organizations. From our membership in the World Economic Forum to our participation in the UN Global Compact and our alignment with the UN Sustainable Development Goals, we're committed to big ideals and positive action, working for the health of our products, our world, and a good future for all.

Thank you for helping us make real progress on a global scale.

We are the only North American flooring manufacturer to offer both commercial and residential products that are certified asthma and allergy friendly by the Asthma & Allergy Foundation of America.

We have the industry's most ambitious inventory of Cradle to Cradle certified products covering multiple product categories, from resilient to soft surface, and from products to adhesives to maintenance. By 2020, 100% of Tarkett's raw materials will be third-party assessed for health and planet impacts.

Our third-party verified Material Health Statements provide a true assessment of product ingredients and their long-term effects on people and the environment—versus the simple ingredient lists provided by other manufacturers.

By 2020, 75% of our raw materials will be recycled, rapidly renewable, or abundantly available in nature.

We've designed products to perform better in the long term with simple wet or dry buffing and neutral cleaning products—which means TVOC emissions are among

the lowest in the flooring industry and 10 to 100 times below the world's strictest standard.

Our robust Take Back program is the oldest in the industry, building on a legacy of more than six decades of recycling.

We are collaborating on the Responsible Use of PVC Network to mobilize the industry so that together, we can improve the impact of our products on people and our planet.

Together, we're making an impact.

Within the following pages, you'll find the work of artisans, designers, inventors and innovators. Creative solutions for every space that are both practical and beautiful—and fully designed by our skillful team in North America.

With remarkable expertise in resilient flooring, Johnsonite (part of the Tarkett family of brands) always has product designers, developers and managers in the field listening. By seeing and hearing our customers' needs firsthand, we're able to keep moving forward with innovative products that are responsive to real-life situations.

Our comprehensive portfolio reflects the performance you need, even for your most challenging projects. Moisture mitigation? We

have it with SureStart underlayment. Quick install? We have it with SureSet LVT. Custom colors for branding? Microtone Rubber Tile is one answer we'll provide to you. The list goes on and on.

Bonus—we provide color, texture and pattern coordination across product categories, helping you create seamless design aesthetics throughout a space.

We love helping you make great spaces. Let's do what we love. Together.

Chris Stulpin
Chief Creative Officer
Tarkett North America

The Product Guide is our annual showcase piece for as many products as possible at the time of print. We are constantly updating our styles throughout the year, so please make sure you log onto tarkettna.com for the most up-to-date products.

Photos may not accurately depict color. Please order samples for exact product color.

With its state-of-the-art digital printing technology, Tarkett is able to recreate the look of everything from natural wood grains and stone effects to your favorite upholstery. Send us an image or physical sample of any material to create a fully customized flooring* or wall base that's uniquely your own.

Digital printing.

* Customized flooring coming Spring 2018

Imaginations custom floor design.

Add signature images to your flooring design, such as company logos, school mascots, government seals and more. These customized emblems let you use every plane of the interior space to create a unique experience and communicate a client's valuable brand message.

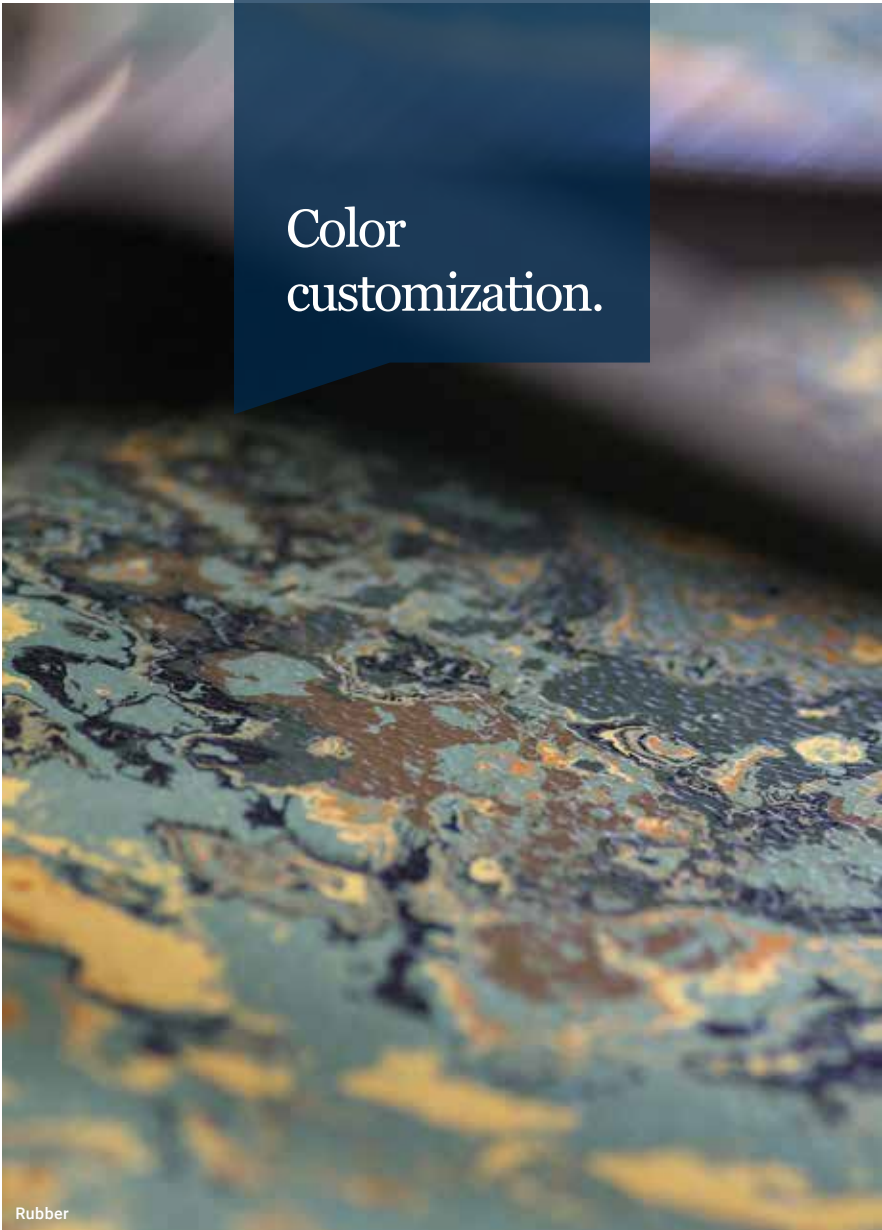

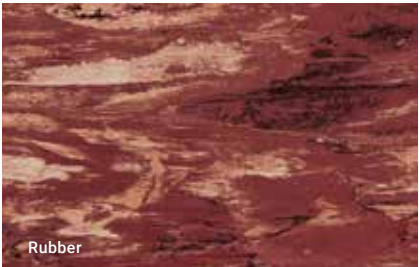

The world speaks in color and sometimes, you need to write your own language. Tarkett gives you options to achieve the unique character each space deserves. With LVT or Prima® rubber tile flooring, we can use anything—from a photograph to a fabric swatch—to create a customized floor color with just the right accent. We have no need for dye lots when working with rubber, so your signature color will be precise the first time, and with any reorders to come.

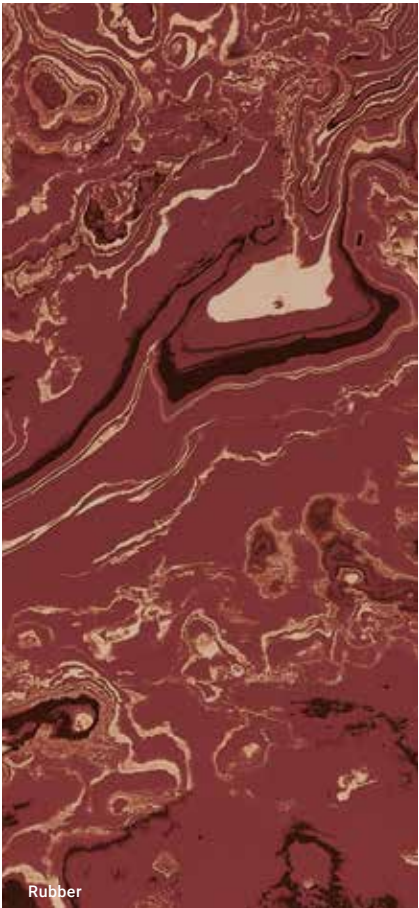

Millwork Masquerade

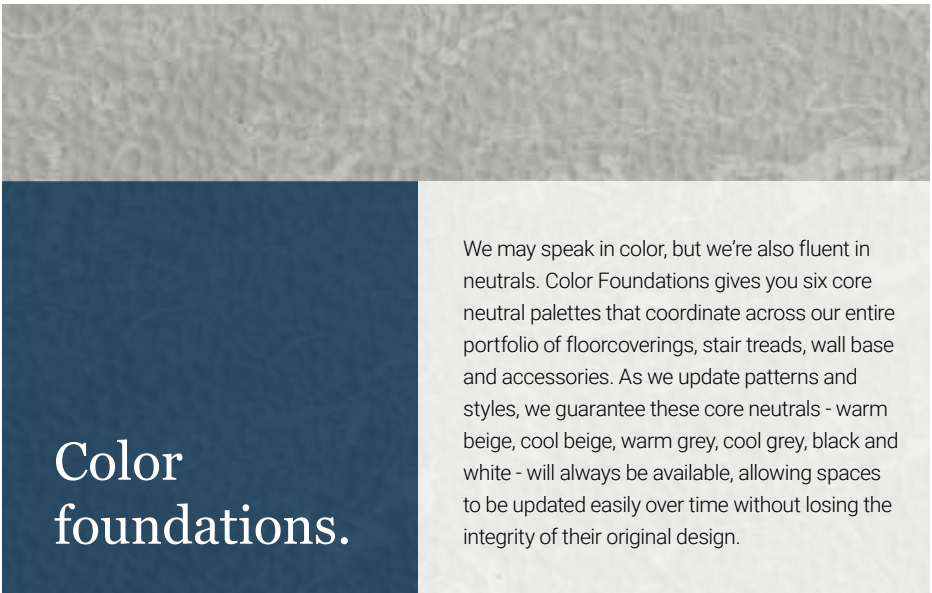

Rubber

We may speak in color, but we're also fluent in neutrals. Color Foundations gives you six core neutral palettes that coordinate across our entire portfolio of floorcoverings, stair treads, wall base and accessories. As we update patterns and styles, we guarantee these core neutrals - warm beige, cool beige, warm grey, cool grey, black and white - will always be available, allowing spaces to be updated easily over time without losing the integrity of their original design.

Four hands always work faster than two. That's why we created the Designer on Demand program, offering free design support during and after normal business hours. One of our designers will follow your lead and vision to help you configure a space, order samples, and create everything from room scene renderings to floor plan designs—everything you need to pull designs together quickly and share them successfully with clients. It's a perfect cocreative relationship that saves you time.

Designer on Demand.

Whatever you're looking to accomplish in a floor, rubber has a solution. Safe, comfortable, sustainable—and full of possibility—Tarkett's rubber flooring offers an unmatched variety of colors, patterns and textures, and no need for dye lots. With natural slip resistance, shock absorption, and comfortable acoustics, rubber just seems to check all the boxes.

All of these products are recyclable, and made in the U.S.A in ISO 9001 and ISO 14001 certified plant.

Let’s talk tile.

Creating brilliant spaces starts with square one. Tiles, in this case. Choose bold colors that stand out, or neutral colors that blend in. Our flooring collection incorporates Color Foundations®, a system of guaranteed availability across 6 neutral palettes. Or, for the ultimate in design freedom, customize your own tiles in a Prima® Marbleized™, Prima® Olio® or Mesto Configurations™ design. Then, with performance features like natural slip resistance and shock-absorbing comfort, you’ll arrive at solutions that look smart and act smart too.

Pentagonals

RUBBER TILE

Find your
angle.

For more than a century, mathematicians have been trying to solve one of the world's most intriguing geometric puzzles—searching for pentagonal shapes that “tile the plane,” or fill a surface without overlapping or leaving gaps. In all this time, only 15 such pentagons have been discovered—and now you can use three of them to create distinctive rubber floor designs. No one knows how many of the novel shapes exist—a mystery that adds wonder and intrigue to these artistic focal points.

PENTAGONALS

Style: Diamond Shape

Color: Black Pearl, Sterling

Platform: Rubber

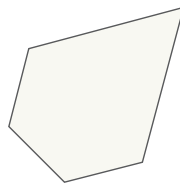

Custom Designs in 3 Easy Steps

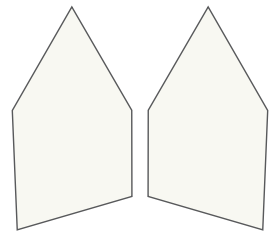

Once you've chosen a shape for the space, our online visualizer will help you complete the design and tell you exactly how much material to order in each color.

CHOOSE A SHAPE.

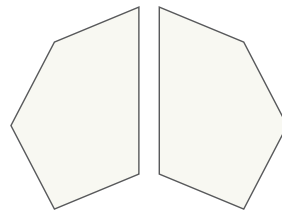

Diamond comes as a single tile, while Monument and Shell each have a left and right to complete the pattern.

Diamond

Monument

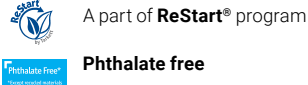

Shell

CREATE YOUR DESIGN.

To choose from patterns already designed, or to create your own design, visit the Polygonals visualizer at <https://pentagonals.tarkett.com>.

Download your finished layout and the corresponding Installation Guide as a reference for ordering and installation.

MicroTone®

RUBBER TILE

Expand your palette.

Select from 45 dynamic colorways to create a one-of-a-kind tapestry. Our Design-a-Space PRO Visualizer helps you customize your layout and then request a production sample to eliminate surprises. Matching borders, transitions and stair treads are also available to complete the space and simplify the entire process.

Experience underfoot comfort.

Our MicroTone® Speckled Rubber Tile offers underfoot comfort that makes it a great choice for many types of applications, including busy classrooms, office corridors, retail spaces and more. Naturally slip resistant, these rubber tiles help to reduce the risk of expensive slips and falls, and the resultant physical and financial costs that can ensue.

Organics

RUBBER TILE AND PLANK

Naturally Beautiful.

With subtle color variations and more random patterning, this large-scale, free-flowing aesthetic lends an open, organic feel and updated appearance to any space—plus all the strength and comfort of traditional rubber flooring. While rubber is often reserved as a safe and comfortable solution for education and healthcare spaces, this stylish design is ready to greet guests and customers in the front of the house, from lobbies to conference rooms.

Prima®

RUBBER TILE

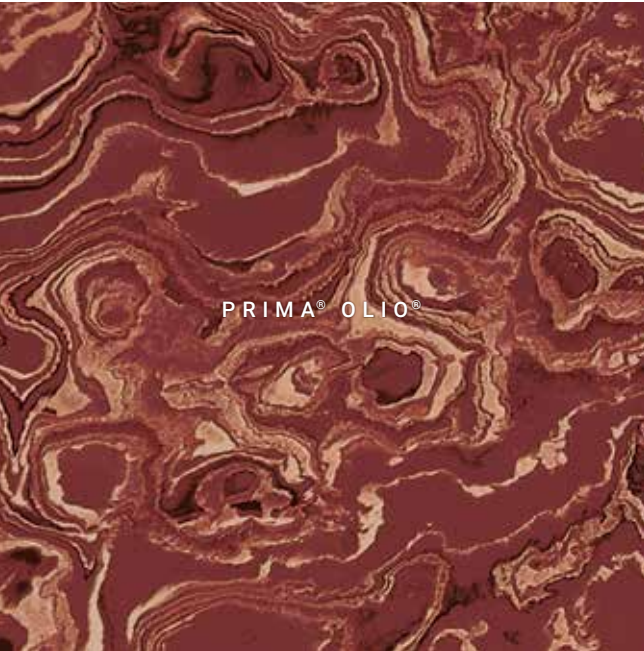

Create
your
signature.

Have a design in mind that's so unique, it doesn't exist? Well, not for long. Capture the elegant charm of your space with artful marble or oil-and-water effects. With Prima®, creating your own signature rubber flooring has never been simpler.

Every step is a work of art.

Now you can create your own signature rubber flooring, designing a custom look that also keeps safety, productivity and comfort in mind. Tarkett makes it easy, allowing you to integrate the color and character of your space into your own marbled or oil-and-water effect. Simply select the field and vein colors you wish to incorporate, and contact Tarkett to request a product sample. We'll send you an actual production sample of the colors you've chosen to ensure you're happy with the design before placing your order.

Metallurgy

RUBBER TILE

Posh
meets
practical.

Metallurgy uniquely combines the sophistication of natural metals with the performance of rubber floor tiles. Offering shock and noise absorption, slip resistance, low maintenance, and a dozen authentic colors, this stylish rubber flooring is not only posh—it's practical.

RUBBER TILE

Take a step.

Changing the world starts with small choices that add up to big impact. Choosing a rapidly renewable flooring is a great first step. Eco-Naturals is made with cork (CorkTones™) or a combination of cork and walnut shells (Eco-Shell™), helping specifiers achieve LEED accreditation—and helping all of us take another step toward a more beautiful planet.

tile size = 24" x 24"

Rally Your Resources

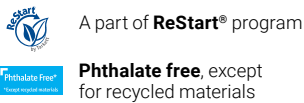

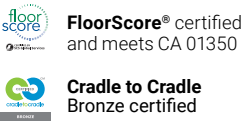

Bring together dust from walnuts and cork from pre-consumer waste streams, and you’ve got Eco-Shell™ with Cork. With 7% by weight renewable and recycled content, these rubber tiles don’t stop at eco-friendly. These 24" x 24" textured tiles coordinate easily with other Tarkett flooring, treads and accessories. Plus, they’re available in 24 colors, making them ideal for a wide range of projects.

We’re committed to developing products that deliver more than just ROI. Our goal is to provide solutions that balance all the competing needs of your space—function and aesthetics, first-time costs and lifetime return, safety and efficiency—with your desire to use products that create less impact on the planet. To learn more about our environmental initiatives, positioning and products, visit tarkettna.com.

I.D. Inspiration™

LUXURY VINYL TILE

Born to
innovate.

Durability and lifelike design are in I.D. Inspiration's DNA. Recently updated to include 30 colors, 24 plank wood designs from a classically trained European woodworker, and 6 tiles. The 6 tiles feature all-new designs, bringing abstract, stone and woven patterns to the once all-woods collection. An advanced engraving technique provides superior attention to detail for graining, texture and color on color. The result is a beautiful floor that remains so for years.

I.D. Freedom™ Abstracts

LUXURY VINYL TILE

Forgo familiar.

Familiar is fine. However, when you deconstruct the familiar, the conversation gets a little more interesting. Why not weave strands of metal into a familiar fabric? Or build textiles out of weathered wood? I.D. Freedom™ accepted the challenge and combined familiar patterns and materials into dramatic configurations. The resulting collection of planks and tiles is like nothing you've seen before.

I.D. Freedom™ Stones

LUXURY VINYL TILE

Pave the way.

We've actually done it. We've left no stone unturned. We've taken the natural beauty, markings and coloration of stone and we've reimagined them. We've washed, worn, rusted, stained and steeped stone in coordinated color. From classic Travertines to element-blending Meta-Stone, our I.D. Freedom™ Stones are paving the way to greatness. Enjoy the journey.

I.D. Freedom™ Woods

LUXURY VINYL TILE

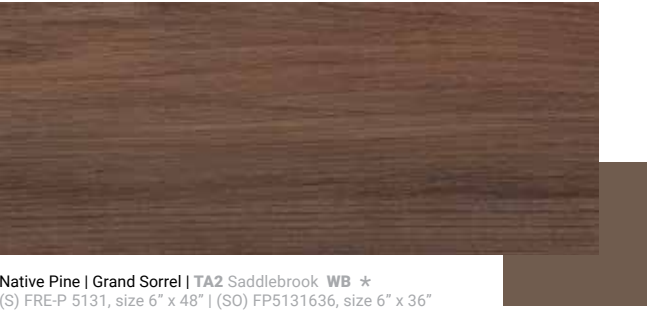

Look natural.

Since real already existed, we started there—tweaking and twisting it to our liking. The end result: I.D. Freedom™ Woods. See wider-than-natural grains in our oak. Experience pine that's been blancheted or bronzed. Our luxury planks feature beautiful, natural woods—just with more of a story behind them. And some interesting options ahead.

I.D. Principle

Luxury Resilient Flooring

Solutions
for enduring
design and
performance.

This straightforward collection
of designer woods will
quickly update any space,
while protecting your bottom
line. We've developed new,
contemporary designs
based on our top-selling
colors to ensure an enriching
environment for every
application. I.D. Principle's
glue-down planks can be
quickly installed in a variety
of creative layouts, and their
long-lasting performance will
keep maintenance costs low
throughout the life of the floor.

Transcend™ SureSet™

Luxury Resilient Flooring

Engineered for adversity.

Transcend™ SureSet™ installs quickly, absorbs sound, and doesn't mind high-moisture subfloors. And that's just the backing. With a pre-applied adhesive that's easily repositioned, a sculpted wave technology that directs moisture and sound, and a Tritonite®-reinforced polyurethane that stands up to heavy traffic, this dimensionally stable solution forgives mishaps at every stage of the project, so it can keep looking beautiful for years to come.

Vinyl

Want every sheet, plank, tile, pattern, grain, texture and color to provide optimal interaction within a space? We can make that happen. We've designed all our iQ™, Luxury Tile, Acczent™ Performa and other vinyl flooring collections to coordinate with each other, helping to connect spaces and the people who gather in them.

Design. Aesthetics. Technology.

Is it possible to have too many design options? We don't think so. That's why our portfolio of vinyl flooring products is one of the most extensive in the industry—from budget-conscious solutions to highly engineered works of art.

Our homogeneous lines are available in both tile and sheet and include a UV-cured polyurethane (PUR) to deliver greater durability and easier maintenance. Meaning less water and cleaning products throughout a more than 20-year lifespan.

Taking convenience a step further, our iQ™ line promises no waxing. Ever.

Our heterogeneous product families provide more design opportunities than ever before. These low-maintenance, hygienic solutions drive value for a variety of applications—without sacrificing style.

Doctor
Radomski

iQ™ DIFFERENCE

- One consistent construction throughout the entire depth of the product allows it to be easily and continually restored to its original beauty
- Our uniquely resilient design provides superior resistance to wear, abrasion and stain beyond the typical surface coating
- Quality raw materials and our innovative product structure greatly extend the lifetime performance and beauty of our flooring

iQ MAINTENANCE

- No floor finish for life
- No protective chemicals, wax or polish required
- Fewer surface contaminants allow for more effective infection control
- Requires less water and chemical usage, and reduces discharge into waste water system

iQ SUSTAINABILITY

- Contains 25% recycled content as part of our ReStart® Reclamation Program
- FloorScore® certified, it reduces VOC emissions for better air quality
- Asthma and Allergy certified

iQ SAVINGS

- Eliminating wax and polish saves up to 30% of lifetime maintenance costs
- Provides lowest cleaning and maintenance life-cycle costs of any resilient flooring

Consider how a pencil works. As the pencil wears down or if the lead snaps, you simply sharpen that pencil to restore to new. The iQ technology performs in a similar manner. If a scratch or scuff is noticed, simply dry buff the product to restore it to new. No wax, no finish, no chemical strippers for life!

The photo to the left features one half of a scratched iQ floor tile (left) and the same tile buffed to remove the scratches (right).

iQ™ Optima®

HOMOGENEOUS SHEET AND TILE FLOORING

Take it
in stride.

Inspired by the organic shifts and patterns created by nature, the new iQ Optima line of homogeneous sheet and tile draws from the soft, subtle strides found in natural stone or bark. Its multi-tonal aesthetic brings depth, dimension and warmth to commercial spaces. This is the iQ Optima you've known and loved, only better!

iQ™ Granit™

HOMOGENEOUS SHEET AND TILE FLOORING

Step it up.

iQ™ Granit™. Tough, you-
can't-beat-me construction
that'll last the life of the
floor without waxing
or stripping. Beautiful,
nondirectional stone
patterns in a range of
colors. Plus, homogeneous
composition. Which means
all that good stuff runs
through the entire product,
and doesn't just stop at
the surface.

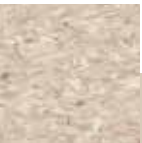

iQ Granit is also available
in slip-resistant Granit
Safe-T and static-dissipa-
tive iQ Granit SD.

Coordinates with Aria 2.0

Melodia™

HOMOGENEOUS SHEET AND TILE FLOORING

Offering an ideal blend of aesthetics, performance and economics, Melodia™ 3.0 seems to have it all. A tough, UV-cured, factory-applied polyurethane surface treatment and solid, homogeneous construction make it a perfect choice for heavy traffic. When you add a non-directional design in 66 color options, plus 45 coordinating shades from Aria™ 3.0, a more complete flooring solution will be difficult to find.

Aria™

HOMOGENEOUS SHEET AND TILE FLOORING

Coordinate your efforts.

Aria™ 2.0. is formulated with the same balance of performance, aesthetics and economics as Melodia™ 2.0, but offers something more. Available in 24 colorways designed to perfectly complement the Melodia 2.0 palette, Aria 2.0 includes unique color accent granules that infuse depth and dimension into the flooring. The two lines combine to make it easier than ever to coordinate a room, a space or an entire institution.

Acczent® Flourish

HETEROGENEOUS SHEET FLOORING

Weave
it all
together.

Get the hygienic performance and low maintenance of heterogeneous vinyl sheet—but with the look and feel of LVT. Acczent Flourish is a collection of three textile-inspired designs, each with the feel of a softly woven linen. The three patterns are designed to coordinate and work together to add warmth and dimension to the space. Its 32mil wear layer remains tough under heavy traffic, and our UV-cured polyurethane reduces the need for polish and spray buffing.

Acczent Flourish. Weave it all together.

THRIVE

Start with this foundational pattern, typically seen in main walkways and corridors. Thrive delivers the soft look of a nonlinear weave, reminiscent of hand-fashioned textiles, and sets a soothing tone throughout the space.

INSPIRE

Building on the Thrive pattern, Inspire adds a subtle crisscrossing wave element that fades in and out of sight, hinting at an embellishment or an embroidered stitch. This added texture creates visual interest in highlighted spaces, such as room transitions or seating areas.

PROSPER

Using Thrive again as the base pattern, Prosper adds strands of rich color and a more heavily defined linear texture. By placing more visual weight on each stitch, Prosper carries greater depth and dimension, making it ideal for areas where more color contrast is desired.

Color Foundations™ is our commitment to always have representation across six key neutral palettes. We've identified Color Foundations neutrals in the following way: **WB** (warm beige), **CB** (cool beige), **WG** (warm grey), **CG** (cool grey), **B** (black), **W** (white).

Acczent®

HETEROGENEOUS SHEET FLOORING

Overachieve.

Smarter is always better, so we're sending the Acczent® Collection to the head of the class. The look of sophisticated hardwoods, stylish concrete and elegant tissé patterns, in easy-to-maintain vinyl. Now that's brilliant. With a durable UV-cured, factory applied polyurethane wear layer, the Acczent Collection is as tough as it is beautiful.

Performa™

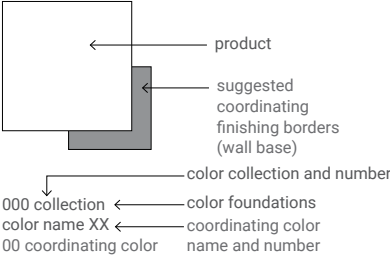

HETEROGENEOUS SHEET FLOORING

No compromise.

Performa™ delivers all the style and strength you need, at a price your project can afford. With contemporary visuals, polyurethane coating and 25 mil wear layer, these stylish designs help you create warm, inviting spaces on time and on budget. Choose between 6 or 12-foot rolls for added speed and flexibility during installation. Each Performa design features the look of natural wood or stone—combining beauty, strength and value in one comprehensive solution.

Azterra™

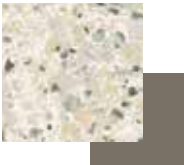

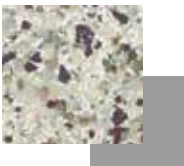

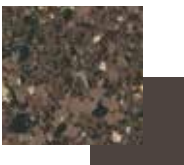

VINYL ENHANCED TILE

Make your masterpiece.

Azterra™ VET achieves the look of marble infused with granite-like particles to create a chic, terrazzo-inspired floor tile. Its UV-cured, factory-applied polyurethane surface treatment stands up to heavy traffic and requires less maintenance from the start. Available in 23 colors, Azterra is ideal for areas that receive less routine maintenance, keeping ROI up and life-cycle costs down.

TRIUMPH

Never hurts to start off a few steps ahead. And that’s what you get with Triumph flooring. Tough, flexible and performance-ready, this floor is engineered to hold up under constant traffic, sports activities and heavy sporting equipment. Made of 3/8” rubber, Triumph absorbs noise and resists impact, shock, spikes and skates. It’s ideal for any high-energy application. And with a wide range of solid and patterned colors, everybody wins.

APPLICATIONS

- fitness centers
- workout rooms
- ski lodges
- ice rinks¹
- weight rooms
- golf course indoor facilities¹
- dressing rooms²
- locker rooms²
- pro shops²
- indoor stadium tunnels²
- physical therapy rooms³
- retail, office and public areas
- correctional facilities⁴
- daycare centers
- assembly and production areas⁵

TRIUMPH WITH HAMMERED TEXTURE	Thickness	Speckled	Mesto®	Prima® Marbleized™ and Olio®	Solid Colors
Square Edge Tile 24" x 24"	3/8"	20 colorways available	6 colorways available	SO	SO
Interlocking Tile 24" x 24" (23" x 23" net)	3/8"	20 colorways available	6 colorways available	SO	SO
SlideLock® Tile 24" x 24" net (studded back)	3/8"	20 colorways available	6 colorways available	SO	SO

Matching accessories available in solid colors
(not skate and spike resistant).

For more detailed information regarding product
features, installation, maintenance, specifications
and case study installations, visit tarkettna.com.

Interlocking tiles may be used where lightweight
rolling loads are present.

Rolling traffic is not permitted over SlideLock tile.
SO = Special Order

INERTIA®

Let’s end the rival between price and performance. This 1/4” rubber floor provides a more affordable alternative to Triumph, for applications that don’t involve such extreme activity. Identical to Triumph aesthetically, Inertia also blends with it seamlessly. This allows you to achieve various levels of functionality within high-performance areas. Now that’s an accomplishment you simply can’t beat.

Replay®

MULTI-FUNCTIONAL AND SPORTS FLOORING

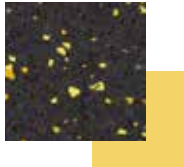

Game on.

Replay® knows all about performance enhancement. Made from recycled rubber tires, this floor is remarkably resistant to the impact of golf spikes, ice skate blades, cleats, barbells and heavy rolling equipment. It also absorbs shock to athletes' backs and joints, as well as noise from foot traffic. Easy to install, maintain and afford, Replay comes in 12 colorways—in tiles or by the roll—making it the perfect, sustainable choice for a range of high-energy environments.

INTERLOCKING TRANSITION FOR REPLAY

Replay is available in Interlocking tiles for loose-lay applications, square tiles for permanent placement or sheet for more seamless installations. Complete installation of Interlocking tile edges with our transition that creates a safe passage to the new floor.

REPLAY®	1/4" Thickness	3/8" Thickness	1/2" Thickness
 Square Edge Tile 24" x 24"	SO	STD	N/A
 Interlocking Tile 25" x 25" (24" x 24" net)	SO	STD	SO
 Roll 48" wide	STD 75'	STD 50'	SO 50'

Please note: Specify 3/8" or 1/2" Replay for skate blades, shoe spikes and free weight areas.

Standard Replay is made from 92% post-consumer recycled tires. Recognizable visual differences can occur from roll to roll or tile to tile. This does not detract from the performance of the product and is considered part of the manufacturing process.

For best appearance, follow Tarkett's installation and maintenance instructions.

For more detailed information regarding product features, installation, maintenance, specifications and case study installations, visit tarkettna.com.

¹- Specify Square Edge or Roll only

²- Replay is not oil and grease resistant

Training®

MULTI-FUNCTIONAL AND SPORTS FLOORING

Play hard.

No coach has to tell this athletic floor to toughen up. Training® vinyl flooring has a polyurethane reinforced (PUR) wear layer for added durability, so this floor is performance-ready and easy to maintain. Training resists abrasions, scuffs and tearing, plus cushions noise and impact. It's available in eight solid colors and two wood tones—all of which can be painted to designate foul lines and other regulation markings—so it's an ideal team player for a variety of courts and athletic areas.

Cover your bases.

Ideal for sports floor installations, Vent Cove Base provides a heavy duty, corner-moulded design that will perform for years with minimal maintenance. The vented design permits air circulation for suspended floors and has a 3" wide toe to cover expansion voids.

APPLICATIONS

• gymnasiums	• badminton courts	• gymnastics rooms
• health clubs	• aerobic areas	• table tennis rooms
• basketball courts	• racquetball courts	• cafeterias
• volleyball courts	• exercise rooms	

The Solid Weld Rods listed are coordinating recommendations. Other color weld rods can be used for a variety of visual effects.

Slidelock®

MULTI-FUNCTIONAL AND SPORTS FLOORING

Float above it.

SlideLock rubber tile is a glueless floating system, and works beautifully as a permanent installation or temporary flooring solution. With a patented hidden locking system and no need for adhesive, SlideLock improves the speed and flexibility of project installations, while maintaining access to mechanicals below the subfloor. The tiles are locked together using a seam roller, and individual tiles can easily be removed and replaced, without use of special tools. For a variety of applications where comfort underfoot, slip-resistance and sound absorption are must-haves, SlideLock is a perfect solution.

thickness = .1/4" (2.3 mm)

Cover your bases.

New marbleized colorways in the SlideLock Configurations line emulate the look and feel of stones and woods. Colorways blend in to any environment, while helping to hide subfloor irregularities with the thick ¼" gauge. SlideLock is available in three different sizes to provide unmatched design flexibility. Choose from 12" x 12", 12" x 24" or 24" x 24" tiles to fill the space, or create a unique design using a combination of

all three. Tiles can be installed in a traditional corner-to-corner pattern, or offset to create interesting visuals.

The swatches shown are created from a combination of four each 12" x 24" tiles to illustrate the random marbleization.

iQ™ Optima® Acoustiflor®

VINYL TILE

Helping you tread softly.

Go ahead and get loud. Our high-performance iQ™ Optima® Acoustiflor® will absorb that noise and then some. It'll add comfort to that quiet, courtesy of a foam underlayer that reduces noise transmission and absorbs impact as well—relieving strain on joints and backs. Plus, with 12 colorways and advanced construction, there's no wax or finish for life.

Acczent® Wood Acoustiflor®.
Get tranquil.

Get the warmth and beauty of a wood floor without the hollow echo. With this sound- and impact-absorbing vinyl sheet, you'll find that quiet and comfort come in four lovely colorways. Add the substantial 28 mil wear layer, and you'll also get resistance to indentation, abrasion and tearing. Which means outstanding performance and the design-friendly look of wood. So go ahead and jump for joy. Acczent® is ready for action.

 **Electrostatic | Static Dissipative**

iQ™ Granit™ SD. Keep control.

Keeping static away from people and equipment is a priority that we take seriously. So we engineered a homogeneous resilient flooring that's permanently static dissipative. iQ™ Granit™ SD provides low electrical resistance (106 to 109 ohms) that lasts a lifetime. And by balancing function with the aesthetic of 12 varied colorways, this flooring can maintain safety, increase productivity, and best of all—provide peace of mind for all involved.

Granit™ Safe-T. Enjoy the journey.

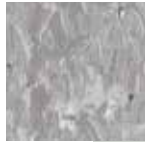

One fall on a slippery, wet floor is one too many. So we developed Granit Safe-T. With aluminum granules dispersed throughout its construction, Granit™ Safe-T provides a lifetime of superior slip resistance, helping to keep both physical and financial costs down. And safe and sound passages nowhere but up.

Safe-T-First®

EMERGENCY EGRESS ROUTING SYSTEM

Find
your way.

In critical moments when every second counts, safe evacuation is top priority. With our patented photoluminescent technology, the Safe-T-First® System is made with non-toxic, inorganic, strontium-aluminate crystals. They absorb and store light energy, then release it in darkness—without depending on electricity or batteries. The system's bright, long-lasting pigments are incorporated into stair treads, wall base and other accessories, helping light the way through power failures and other emergency situations.

Safe-T-First® Photoluminescent Egress Routing System. Lead the way.

Hero training starts here. Help individuals find their way out of a building in total darkness—and emergency personnel find their way in. The Safe-T-First® System protects from injury, disorientation and panic, and may ultimately save lives. The patented luminescence technology provides a lighted path low to the ground. Meet the challenges of safety and welfare head-on with the innovative Safe-T-First System.

An innovative concept in safety

Safe-T-First's photoluminescence is the result of a patented technology that incorporates bright, long-lasting pigments into Tarkett stair treads, traditional wall base and other items. This unique technology utilizes photoluminescent crystals that are inert, nontoxic and free of radioactivity.

Color Foundations™ is our commitment to always have representation across six key neutral palettes.

We've identified Color Foundations™ neutrals in the following way: WB (warm beige), CB (cool beige), WG (warm grey), CG (cool grey), B (black), W (white).

★ These colors can be used in Safe-T-First Rubber Treads for Visually Impaired (VI) installations.

+ These colors can be used in Safe-T-First Vinyl Treads & Nosings for Visually Impaired (VI) installations.

Safe-T-First® System

STF integrates photoluminescent technology into color- and design-coordinated resilient flooring products, allowing the space to look well-designed, in addition to providing safe passage. Available in 36 ColorMatch® colors that coordinate through all Tarkett flooring solutions, STF features low maintenance, highly durable surface finishes that diminish the use of water, chemicals and energy. The system’s long life cycle and low maintenance requirements combine industry-leading safety, durability and aesthetic features.

* Note: For the Safe-T-First products which have the “green” photo-luminescent striping, there may be slight variations in the green color from batch to batch, due to the inherent variation in the natural photoluminescent mineral (non-toxic strontium aluminate).

168
Stairwell Accessories

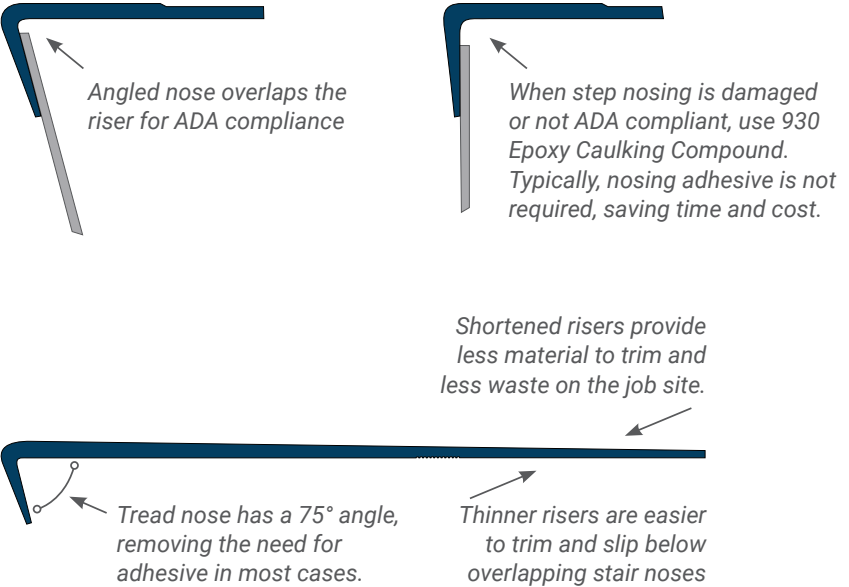

True flooring solutions improve every aspect of the experience, from aesthetics to safety and installation to maintenance. So Tarkett has made significant improvements to the design of its rubber stair treads that will minimize the time and cost of installation. Our new Angle Fit™ angled noses are available on all rubber treads—with or without risers—making every installation faster, easier and safer.

Well-rounded solutions.

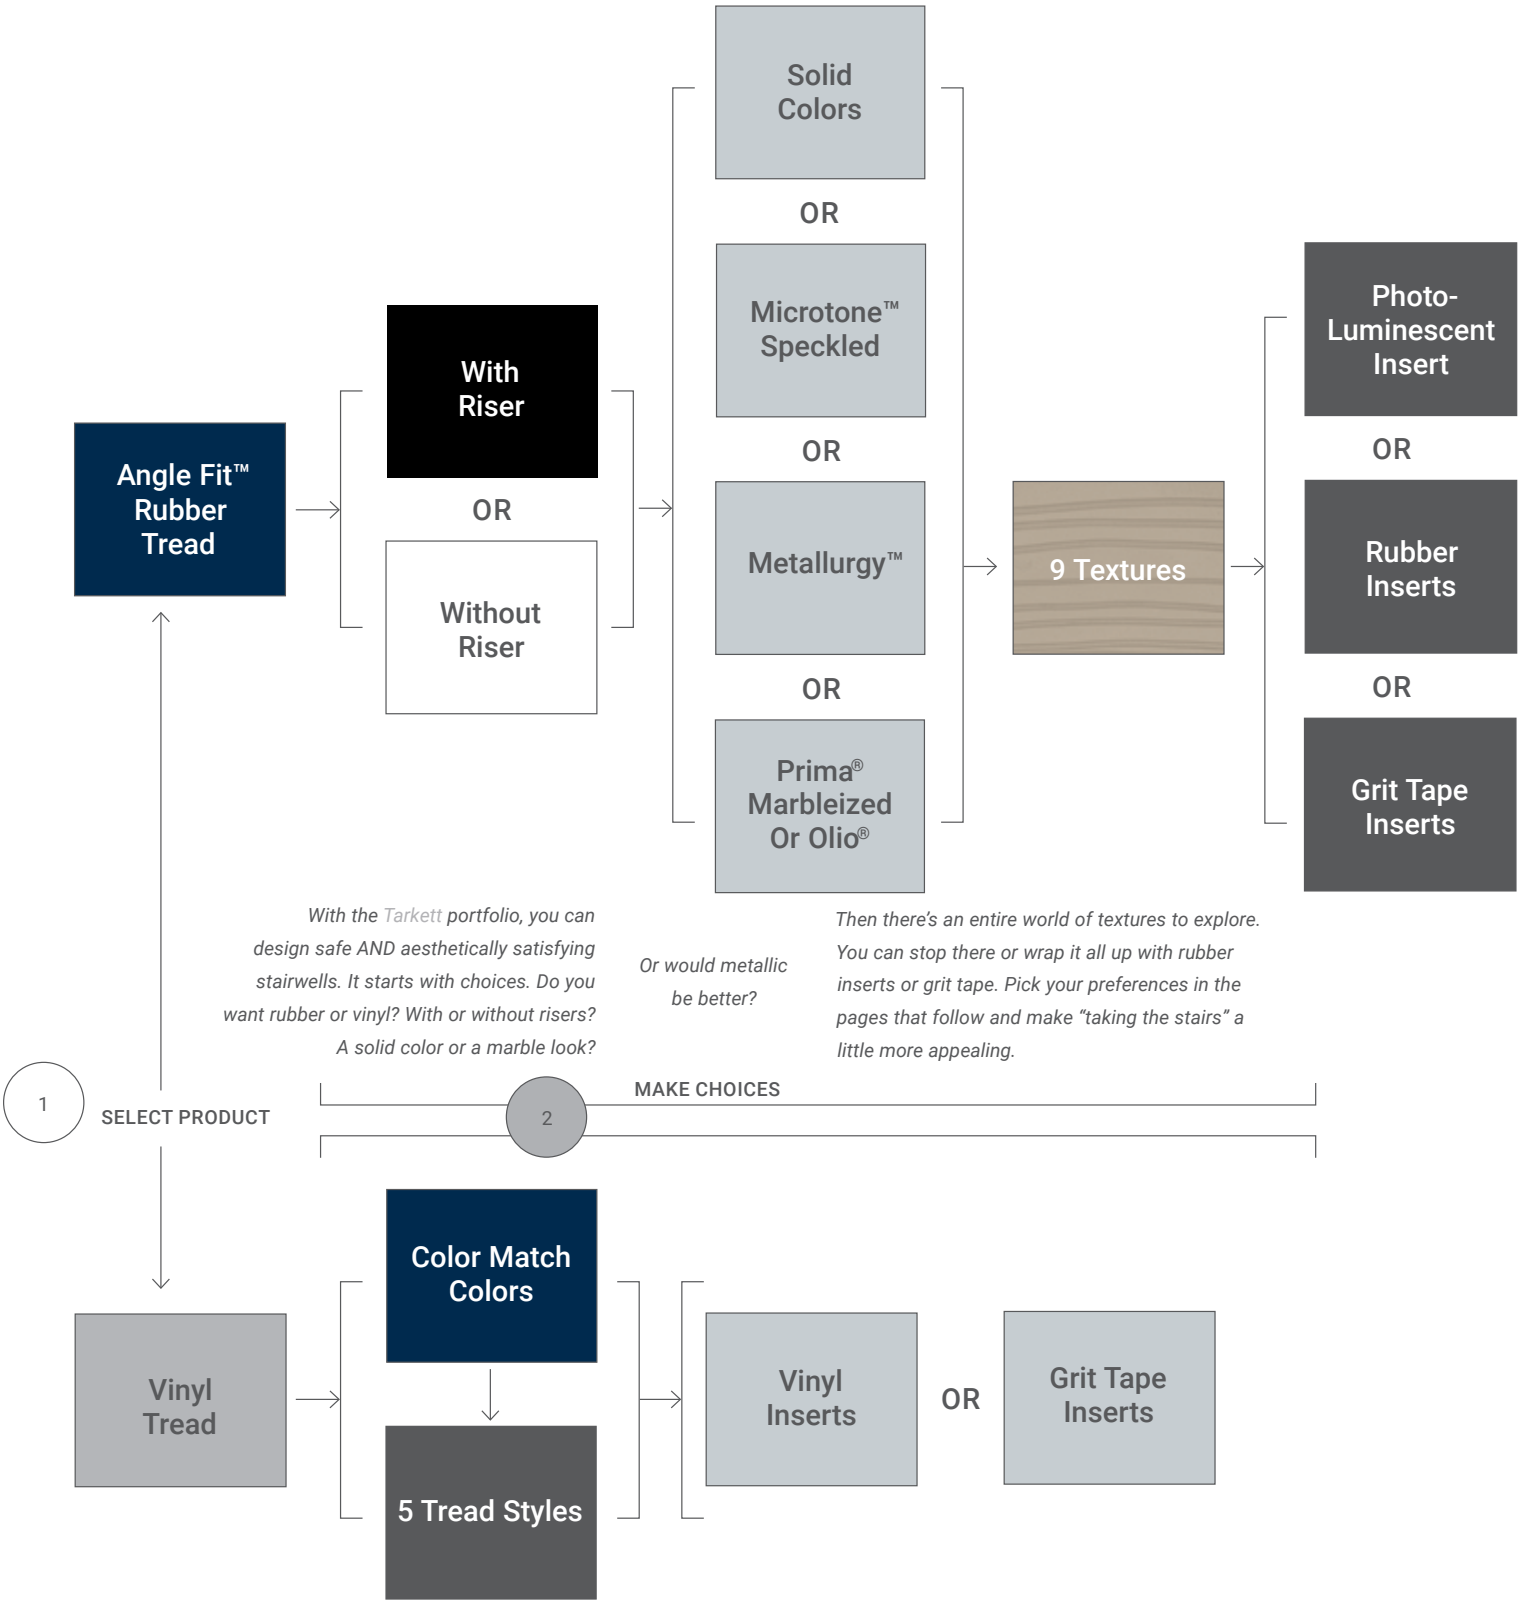

- STAIR NOSE**
New angled stair nose returns to the step, allowing it to overlap the riser and eliminate time-consuming cuts.
- NO CAULK**
If stairs are in good condition, no nose caulk is required.
- EASY RISER**
The riser's thickness is reduced at the top, allowing it to slip easily below the stair nose.
- SAFETY**
Slip-resistant rubber treads are available in a variety of colors, textures and safety inserts for the visually impaired.

One step at a time

The right stairwell management system improves both the safety and appearance of these critical spaces, helping reduce risk and improve mobility from top to bottom. With thousands of possible combinations, Tarkett's comprehensive stairwell management system provides no shortage of options. Choose between rubber and vinyl constructions to balance the needs of every project.

Stairwell Accessories

Move up.

Proper stairwell design is crucial to the safety and functionality of any space. That's why all our stairwell components—from nosings to treads to striping solutions—are designed to reduce slip/fall accidents and work seamlessly with the other elements in the space, giving upward mobility a whole new meaning.

Millwork®

WALL FINISHING SYSTEM

Be
exceptional.

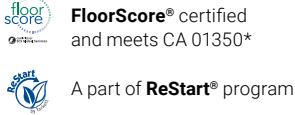

With the look of finely milled wood, the Millwork® Wall Finishing System adds rich architectural detail—at roughly half the installed cost of wood trim and half the installation time. And since it will never require touch-up or repainting, Millwork continues to save time and money throughout its lifetime.

Luxury, simplified.

Installing wood trim takes several labor-intensive steps. From measuring each cut and mitering corners, to nailing, filling, painting and finishing. The work continues each time a section is chipped or scratched. Instead, we bring you the same rich look and longer-lasting performance in half the time and cost. The Millwork Wall Finishing System installs easily—even around corners, curves and irregular surfaces—with flexible 8-foot lengths and one-piece corner guards that adhere directly to the wall. Unlike real wood, it won't splinter, chip or absorb moisture and humidity. But with its glossy finish and crisp edges, no one will ever know the difference.

INSTALLATION STEPS: REAL WOOD VS. MILLWORK®

4.5" in Duracove only

TightLock® Wall Base System. U.S. Patent No. 5,212,923
Lock it up.

When we say TightLock® Carpet Base comes first, it really does. Its notched design allows it to be installed before the carpeting and carpet tile, and remain in place when changing out the flooring too. This saves time and money on re-installation and wall repairs. Plus, this durable, high-performance base can stay in place longer, making it a more sustainable choice. Also available in a Resilient Base, TightLock provides a cove base look with a more subtle radius. With a unique tapered design, the resilient base accommodates any commercial flooring and delivers a tight, clean, finished appearance year after year.

SUBFLOOR LEVELER SYSTEM® COMPONENTS (BLACK ONLY)

LS-40-F 4' pieces Reduces 1/8" to 0".	
LS-40 4' pieces Reduces 1/4" to 0". Can be cut at score line to reduce height as indicated.	
LS-40-K 4' pieces Reduces 1/4" to 0". Leveled edge for tack strip installation.	
LS-40-D 4' pieces Reduces 3/8" to 0". Can be cut at score line to reduce height as indicated.	
LS-40-E 4' pieces Reduces 1/2" to 0". Can be cut at score line to reduce height as indicated.	
LS-40-G 4' pieces Reduces 3/4" to 0".	
LS-40-B 4' pieces Reduces 3/8" to 1/4". Can be used alone or with LS-40 to extend transition.	
LS-40-C 4' pieces Reduces 1/2" to 3/8". Can be used alone or with LS-40-D or LS-40-B to extend transition.	

*The LS-40, LS-40-D and LS-40-E Leveler System Components can be cut at specially premarked scoring lines to create lower transitions for 1/8", 3/16", 1/4" or 3/8" gauge heights if needed, or can be cut to create job-specific heights. All SubFloor Leveler System® Components are 4' long or can be special ordered in other lengths.

SubFloor Leveler System®. U.S. Patent No. 7,174,682
Quick Fix.

We've practically eliminated the need for traditional floor levelers—and the labor and curing time they require. Our patented SubFloor Leveler System® provides a gradual ramp between different flooring elevations, creating a smooth transition and fewer trips and falls. With easy installation and the ability to lay flooring immediately over top, it keeps everything moving swiftly—from your project to your foot traffic.

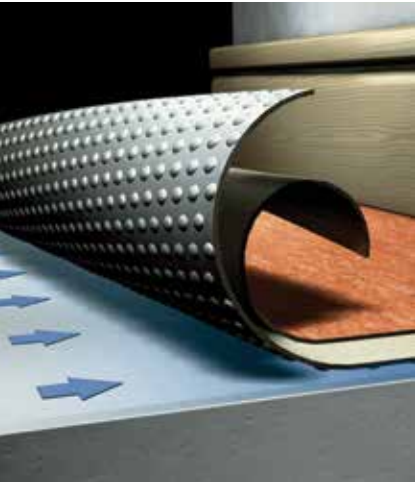

SureStart® Acoustic Underlayment
Quiet is beautiful.

This cutting-edge underlayment for resilient flooring solves a variety of installation issues for almost any subfloor, whether it's on, above or below grade. Made of high-density synthetic rubber, SureStart provides superior moisture mitigation from concrete slabs, delivers unmatched support under interlocking vinyl flooring, and improves acoustics. By absorbing the sound of foot traffic, SureStart dramatically reduces noise levels in both the room where it's installed, and the floor below—making it an ideal choice for a variety of commercial settings. With easy installation and the ability to conceal minor surface imperfections, SureStart is sure to save significant time and labor costs on your next project.

Tarkolay Underlayment.
Breathe easy.

Say goodbye to subpar subfloors. Tarkolay is a thin underlayment that installs immediately over areas where moisture, abatement or other problems exist—protecting the flooring and the indoor air quality. Tarkolay can resist moisture levels as high as 96% RH and provides a natural ventilation between flooring and subfloor. So the floor breathes easier, along with the people working, playing, living and learning within the space.

TARKETT WARRANTY OVERVIEW

Tarkett is pleased to offer the world's most- integrated, high-performance flooring system, bringing together design, function and life-safety, leading to enhanced productivity in high-performance environments. All Tarkett products are warranted against manufacturers' defects to ensure high standards of quality, performance and aesthetics.

Limited Warranty Information

Section 1: Compression Molded Rubber Tile

Limited 5-Year Commercial Warranty for Manufacturing Defects: Tarkett warrants from the date of purchase for a period of five (5) years of Commercial use that molded rubber tile flooring products conform to written specifications and are free of manufacturing defects, subject to the terms and conditions specified herein.

The customer must notify Tarkett of any obvious visual defects prior to installation; otherwise this warranty will not apply. If the defect is found and Tarkett is notified in writing prior to installation, Tarkett will replace any defective product, at no charge. If the customer believes the product to be defective after installation, the customer must promptly notify Tarkett and permit an inspection of the product. If, upon inspection, Tarkett determines that the product is defective, Tarkett will replace or repair the defective product at its own cost, subject to the limitations in this warranty, and prorated as follows: Material and 100% Reasonable Labor Costs (Year 1); Material and 50% Reasonable Labor Costs (Year 2); and Material Only (Years 3-5).

Tarkett warrants that the products will not wear through for the warranty period of five (5) years of Commercial use. For claims based on wear-through, the customer must notify Tarkett and permit an inspection of the flooring. If Tarkett determines that the original flooring is worn through, Tarkett will replace or repair the worn flooring at its own cost; however, labor costs will be the customer's responsibility except as provided on the prorated basis described in the prior paragraph.

Section 2: Rubber or Vinyl Stair Treads

Limited 5-Year Commercial Warranty for Manufacturing Defects: Tarkett warrants from the date of purchase for a period of five (5) years of Commercial use that rubber or vinyl stair tread products conform to written specifications and are free of manufacturing defects, subject to the terms and conditions specified herein.

The customer must notify Tarkett of any obvious visual defects prior to installation; otherwise this warranty will not apply. If the defect is found and Tarkett is notified in writing prior to installation, Tarkett will replace any defective product, at no charge. If the customer believes the product to be defective after installation, the customer must promptly notify Tarkett and permit an inspection of the product. If, upon inspection, Tarkett determines that the product is defective, Tarkett will replace or repair the defective product at its own cost, subject to the limitations in this warranty, and prorated as follows: Material and 100% Reasonable Labor Costs (Year 1); Material and 50% Reasonable Labor Costs (Year 2); and Material Only (Years 3-5).

Section 3: Finishing Borders (Wall Base and Accessories)

Limited 2-Year Commercial Warranty for Manufacturing Defects: Tarkett warrants from the date of purchase for a period of two (2) years of Commercial use that rubber or vinyl wall base and/or accessory products conform to written specifications and are free of manufacturing defects, subject to the terms and conditions specified herein.

The customer must notify Tarkett of any obvious visual defects prior to installation; otherwise this warranty will not apply. If the defect is found and Tarkett is notified in writing prior to installation, Tarkett will replace any defective product, at no charge. If the customer believes the product to be defective after installation, the customer must promptly notify Tarkett and permit an inspection of the product. If, upon inspection, Tarkett determines that the product is defective, Tarkett will replace or repair the defective product at its own cost, subject to the limitations in this warranty, and prorated as follows: Material and 100% Reasonable Labor Costs (Year 1); Material and 50% Reasonable Labor Costs (Year 2).

Section 4: Vinyl Sheet and Tile Flooring

Limited 10-Year Commercial Warranty for Manufacturing Defects: Tarkett warrants from the date of purchase for a period of ten (10) years of Commercial use that vinyl sheet and tile flooring products conform to written specifications and are free of manufacturing defects, subject to the terms and conditions specified herein.

The customer must notify Tarkett of any obvious visual defects prior to installation; otherwise this warranty will not apply. If the defect is found and Tarkett is notified in writing prior to installation, Tarkett will replace any defective product, at no charge. If the customer believes the product to be defective after installation, the customer must promptly

Section 5A: Vinyl Composition Tile and Plank

Limited 10-Year Commercial Warranty for Manufacturing Defects: Tarkett warrants from the date of purchase for a period of ten (10) years of Commercial use that vinyl composition tile and plank flooring products conform to written specifications and are free of manufacturing defects, subject to the terms and conditions specified herein.

The customer must notify Tarkett of any obvious visual defects prior to installation; otherwise this warranty will not apply. If the defect is found and Tarkett is notified in writing prior to installation, Tarkett will replace any defective product, at no charge. If the customer believes the product to be defective after installation, the customer must promptly notify Tarkett and permit an inspection of the product. If, upon inspection, Tarkett determines that the product is defective, Tarkett will replace or repair the defective product at its own cost, subject to the limitations in this warranty, and prorated as follows: Material and 100% Reasonable Labor Costs (Year 1); Material and 50% Reasonable Labor Costs (Year 2); and Material Only (Years 3-10).

Tarkett warrants that the products will not wear through for the warranty period of ten (10) years of Commercial use. For claims based on wear-through, the customer must notify Tarkett and permit an inspection of the flooring. If Tarkett determines that the original flooring is worn through, Tarkett will replace or repair the worn flooring at its own cost; however, labor costs will be the customer's responsibility except as provided on the prorated basis described in the prior paragraph.

Section 5B: Vinyl Tile Flooring

Limited 10-Year Commercial Warranty for Manufacturing Defects: Tarkett warrants from the date of purchase for a period of ten (10) years of Commercial use that vinyl tile flooring products conform to written specifications and are free of manufacturing defects, subject to the terms and conditions specified herein.

The customer must notify Tarkett of any obvious visual defects prior to installation; otherwise this warranty will not apply. If the defect is found and Tarkett is notified in

writing prior to installation, Tarkett will replace any defective product, at no charge. If the customer believes the product to be defective after installation, the customer must promptly notify Tarkett and permit an inspection of the product. If, upon inspection, Tarkett determines that the product is defective, Tarkett will replace or repair the defective product at its own cost, subject to the limitations in this warranty, and prorated as follows: Material and 100% Reasonable Labor Costs (Year 1); Material and 50% Reasonable Labor Costs (Year 2); and Material Only (Years 3-10).

Tarkett warrants that the products will not wear through for the warranty period of ten (10) years of Commercial use. For claims based on wear-through, the customer must notify Tarkett and permit an inspection of the flooring. If Tarkett determines that the original flooring is worn through, Tarkett will replace or repair the worn flooring at its own cost; however, labor costs will be the customer's responsibility except as provided on the prorated basis described in the prior paragraph.

Section 6: Linoleum Sheet Flooring

Limited 5-Year Commercial Warranty for Manufacturing Defects: Tarkett warrants from the date of purchase for a period of five (5) years of Commercial use that linoleum sheet flooring products conform to written specifications and are free of manufacturing defects, subject to the terms and conditions specified herein.

The customer must notify Tarkett of any obvious visual defects prior to installation; otherwise this warranty will not apply. If the defect is found and Tarkett is notified in writing prior to installation, Tarkett will replace any defective product, at no charge. If the customer believes the product to be defective after installation, the customer must promptly notify Tarkett and permit an inspection of the product. If, upon inspection, Tarkett determines that the product is defective, Tarkett will replace or repair the defective product at its own cost, subject to the limitations in this warranty, and prorated as follows: Material and 100% Reasonable Labor Costs (Year 1); Material and 50% Reasonable Labor Costs (Year 2); and Material Only (Years 3-5).

Tarkett warrants that the products will not wear through for the warranty period of five (5) years of Commercial use. For claims based on wear-through, the customer must notify Tarkett and permit an inspection of the flooring. If Tarkett determines that the original flooring is worn through, Tarkett will replace or repair the worn flooring at its own cost; however, labor costs will be the customer's responsibility except as provided on the prorated basis described in the prior paragraph.

Section 7A: Luxury Tiles and Plank

Limited 10-Year Commercial Warranty for Manufacturing Defects: Tarkett warrants from the date of purchase for a period of ten (10) years of Commercial use that luxury tile and plank flooring products conform to written specifications and are free of manufacturing defects, subject to the terms and conditions specified herein.

The customer must notify Tarkett of any obvious visual defects prior to installation; otherwise this warranty will not apply. If the defect is found and Tarkett is notified in writing prior to installation, Tarkett will replace any defective product, at no charge. If the customer believes the product to be defective after installation, the customer must promptly notify Tarkett and permit an inspection of the product. If, upon inspection, Tarkett determines that the product is defective, Tarkett will replace or repair the defective product at its own cost, subject to the limitations in this warranty, and prorated as follows: Material and 100% Reasonable Labor Costs (Year 1); Material and 50% Reasonable Labor Costs (Year 2); and Material Only (Years 3-10).

Tarkett warrants that the products will not wear through for the warranty period of five (5) years of Commercial use. For claims based on wear-through, the customer must notify Tarkett and permit an inspection of the flooring. If Tarkett determines that the original flooring is worn through, Tarkett will replace or repair the worn flooring at its own cost; however, labor costs will be the customer's responsibility except as provided on the prorated basis described in the prior paragraph.

Section 7B: Luxury Tiles and Plank

Limited 20-Year Commercial Warranty for Manufacturing Defects: Tarkett warrants from the date of purchase for a period of twenty (20) years of Commercial use that luxury tile and plank flooring products conform to written specifications and are free of manufacturing defects, subject to the terms and conditions specified herein.

The customer must notify Tarkett of any obvious visual defects prior to installation; otherwise this warranty will not apply. If the defect is found and Tarkett is notified in writing prior to installation, Tarkett will replace any defective product, at no charge. If the customer believes the product to be defective after installation, the customer must promptly notify Tarkett and permit an inspection of the product. If, upon inspection, Tarkett determines that the product is defective, Tarkett will replace or repair the defective product at its own cost, subject to the limitations in this warranty, and prorated as follows: Material and 100% Reasonable Labor Costs (Year 1); Material and 50% Reasonable Labor Costs (Year 2); Material Only (Years 3-10); 50% Material Only (Years 11-15); and 25% Material Only (Years 16-20).

Tarkett warrants that the products will not wear through for the warranty period of five (5) years of Commercial use. For claims based on wear-through, the customer must notify Tarkett and permit an inspection of the flooring. If Tarkett determines that the original flooring is worn through, Tarkett will replace or repair the worn flooring at its own cost; however, labor costs will be the customer's responsibility except as provided on the prorated basis described in the prior paragraph.

Section 8A: Luxury Tiles and Plank (Light Commercial)

Light Commercial Warranty for Manufacturing Defects: Tarkett warrants from the date of purchase for a period of seven (7) years of Light Commercial use that luxury tile and plank flooring products conform to written specifications and are free of manufacturing defects, subject to the terms and conditions specified herein. Light Commercial applications are defined as foot-traffic only (no rolling loads).

The customer must notify Tarkett of any obvious visual defects prior to installation; otherwise this warranty will not apply. If the defect is found and Tarkett is notified in writing prior to installation, Tarkett will replace any defective product, at no charge. If the customer believes the product to be defective after installation, the customer must promptly notify Tarkett and permit an inspection of the product. If, upon inspection, Tarkett determines that the product is defective, Tarkett will replace or repair the defective product at its own cost, subject to the limitations in this warranty, and prorated as follows: Material and 100% Reasonable Labor Costs (Year 1); Material and 50% Reasonable Labor Costs (Year 2); Material Only (Years 3-5); and 50% Material Only (Years 6-7).

Tarkett warrants that the products will not wear through for the warranty period of seven (7) years of Light Commercial use. For claims based on wear- through, the customer must notify Tarkett and permit an inspection of the flooring. If Tarkett determines that the original flooring is worn through, Tarkett will replace or repair the worn flooring at its own cost; however, labor costs will be the customer's responsibility except as provided on the prorated basis described in the prior paragraph.

Section 8B: Luxury Tiles and Plank (Light Commercial)

Light Commercial Warranty for Manufacturing Defects: Tarkett warrants from the date of purchase for a period of ten (10) years of Light Commercial use that luxury tile and plank flooring products conform to written specifications and are free of manufacturing defects, subject to the terms and conditions specified herein. Light Commercial applications

are defined as foot-traffic only (no rolling loads).

The customer must notify Tarkett of any obvious visual defects prior to installation; otherwise this warranty will not apply. If the defect is found and Tarkett is notified in writing prior to installation, Tarkett will replace any defective product, at no charge. If the customer believes the product to be defective after installation, the customer must promptly notify Tarkett and permit an inspection of the product. If, upon inspection, Tarkett determines that the product is defective, Tarkett will replace or repair the defective product at its own cost, subject to the limitations in this warranty, and prorated as follows: Material and 100% Reasonable Labor Costs (Year 1); Material and 50% Reasonable Labor Costs (Year 2); Material Only (Years 3-5); and 50% Material Only (Years 6-10).

Tarkett warrants that the products will not wear through for the warranty period of ten (10) years of Light Commercial use. For claims based on wear- through, the customer must notify Tarkett and permit an inspection of the flooring. If Tarkett determines that the original flooring is worn through, Tarkett will replace or repair the worn flooring at its own cost; however, labor costs will be the customer's responsibility except as provided on the prorated basis described in the prior paragraph.

Section 9: Underlayment

Limited 10-Year Light Commercial Warranty for Manufacturing Defects: Tarkett warrants from the date of purchase for a period of ten (10) years of Light Commercial use of SureStart™ underlayment with approved Tarkett LVT products, subject to subfloors being prepared & meeting Tarkett Installation Instruction guidelines and subject to the terms and conditions specified herein.

The customer must notify Tarkett of any obvious visual defects or concerns prior to install; otherwise this warranty will not apply.

If the defect is found and Tarkett is notified in writing prior to installation, Tarkett will replace any defective product, at no charge. If the customer believes the product to be defective after installation, the customer must promptly notify Tarkett and permit an inspection of the product. If, upon inspection, Tarkett determines that the product is defective, Tarkett will replace or repair the defective product at its own cost, subject to the limitations in this warranty, and prorated as follows: Material and 100% Reasonable Labor Costs (Year 1); Material and 50% Reasonable Labor Costs (Year 2); and Material Only (Years 3-10).

All Tarkett Commercial Products:

This Limited Warranty applies only for products installed, used and maintained according to the written recommendations and specifications provided by at the time of material purchase.

Warranty Claim Procedure

To be eligible for replacement under this warranty, the customer must file a claim by giving Tarkett written notice of the defect. This notice must be filed immediately, but in no event more than 10 days following discovery of the defect. Notice shall be given to Tarkett at its corporate address of 30000 Aurora Road, Solon, Ohio 44139. Phone: (800) 899-8916; Fax: (440) 543-5774.

If defective product has been discontinued or is otherwise unavailable, Tarkett reserves the right to select and supply the customer with Tarkett replacement flooring, similar in quality and quantity to the material claimed to be defective.

Warranty Exclusions

The Tarkett Limited Warranty does not apply to:

- The exact matching of shade, color or mottling
- Any promise made by any salesperson or representative, unless such promise is express and made in a written form
- Tears, burns, cuts or damage due to improper installation or use or improper cleaning agents and maintenance methods
- Labor costs outside of prorated schedule defined in the warranty
- Sales of non-first quality materials, i.e., "seconds," "off goods" or other irregular flooring. Such non-first quality materials are sold "as is."
- Issues associated with the use of adhesives other than those recommended by Tarkett
- Issues caused by moisture or alkali in the subfloor. Pre- installation moisture and alkali testing is required and must be made available to Tarkett upon request.
- Subfloor contamination or markings that bleed through the flooring material causing discoloration or staining
- Problems caused by installation, uses and maintenance that are contrary to Tarkett's specifications, recommendations or instructions

- Material installed with obvious defects not notified to Tarkett prior to installation
- Exterior installations – Tarkett products are designed for interior applications only
- Fading and/or discoloration resulting from heavy sunlight penetration and ultraviolet ray exposure from direct or glass-filtered sunlight
- Damage to flooring products caused by high or spiked heels, improper protectors/casters or furniture rests. Some rolling-type casters on furniture or appliances may damage resilient flooring. Warranty as to the suitability of the factory-installed casters rests with the furniture or appliance manufacturers. Casters must be suitable for use on resilient flooring to avoid warranty exclusions.
- Damage to flooring products from pallet jack and tow- motor traffic
- Premature wear or deterioration from spikes and skate blade exposure
- Variations in color or embossing between products, photography or printed color illustrations
- Installation of Tarkett flooring in work or commercial areas exposed to oil and grease, such as commercial kitchens or butcher shops. Defiant Oil and Grease-Resistant Rubber tiles are recommended in such situations.

• Additional expense associated with overtime, replacing or moving appliances or furniture, business interruptions, loss of use or other related costs associated with the replacement of the flooring

Warranty Disclaimer

Tarkett MAKES NO WARRANTIES WHATSOEVER, EXPRESS OR IMPLIED WITH RESPECT THERETO, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

These warranties are in lieu of any other warranty expressed or implied. Tarkett shall not be liable for any incidental or consequential damages which may result from a defect or whether based on breach of express or implied warranty, negligence, strict liability or any other legal theory, except where the exclusion or limitation of incidental or consequential damages is prohibited by state law. These warranties provide specific legal rights; these and other rights may vary from state to state. To learn the legal rights in a specific state, consult the local or state Consumer Affairs Office or the State Attorney General.

Color plays a key role in the Tarkett Solution SPECTrum™. After all, color has the power to motivate students in the classroom or soothe healing patients. It can stimulate excitement at retail stores or enhance safety by preventing a bad fall. By coordinating all flooring and accessory solutions across a balanced, harmonized palette, you have the freedom to bring your spatial design ideas to life. Express your creativity through the kind of environments where happiness and productivity thrive together.

A New Color Experience:

Our newly refreshed Solid Color Palette includes 115 shades that meet the needs of today's interiors and coordinate with the rest of the Tarkett portfolio. The perfectly balanced palette includes Color Foundations—an array of warm and cool greys and beiges— as well as crisp whites, inspired colors and deep neutrals. We've carefully selected each sophisticated hue to provide a broad range of options for today's designs.

Color Foundations:

Color Foundations (CF) are neutral colors designed to coordinate over the entire Tarkett Solution SPECTrum, which includes carpet, rubber, vinyl sheet and tile, composition tile, linoleum, finishing borders (wall base), stair treads and accessories. CF neutrals include: WB (Warm Beige), CB (Cool Beige), WG (Warm Grey), CG (Cool Grey), B (Black), W (White), which let you switch colors within like groups, making it easier and faster to create your signature designs. There are hundreds of choices in six neutral palettes and one guarantee: You'll always have color coordinating options within each palette, now and into the future. Guaranteed.

Customization:

When you don't see the exact color you need, create it. Get started by contacting your local Tarkett representative. We offer customized colors in the quantity you want, when you want it!

ColorMatch®:

ColorMatch is a designer palette of 36 leading colors that offer coordinating colors across multiple products with no dye lots...ever! Our rigorous manufacturing and quality standards enable you to confidently mix and match a color across all Tarkett rubber and vinyl flooring products, finishing borders and finishing accessories.

Metallics:

The updated solid color palette includes eight metallic shades, providing another element of detail and visual interest to finish a space.

All colors shown in this card, including chips and photographs, approximate the actual flooring colors as accurately as possible.

COLOR AVAILABILITY CHART

Chart indicates standard availability across all traditional Tarkett solutions.

Don't see the color you want in the product you need? Just ask. Put our customization to the test.
