Core Collection

Now with **DESSO** Carpet Tiles

2020

Collecting and recycling flooring through ReStart®

To avoid sending post-installation off-cuts or post-consumer flooring to landfill or incineration, you now have a more sustainable option: return recyclable flooring to Tarkett via our ReStart® take-back and recycling programme. We'll collect and recycle both your post-installation and post-consumer* flooring, transforming it into high quality raw materials for new flooring products.

You can return post-installation flooring off-cuts (linoleum, homogeneous and heterogeneous vinyl) or post-consumer flooring (carpet and Tarkett homogeneous vinyl flooring*) to Tarkett for recycling. It's a straightforward, cost-effective system, and collection is arranged through local partners.

All you need to do is join the programme, and we'll do the rest.

We can only achieve the huge shifts required to help **preserve natural resources**, **protect our climate** and enable **future generations to thrive - together**.

Contact the Tarkett Sales Office to find out how to register for ReStart®. Join us, and let's seize the opportunities presented by the circular economy and give flooring waste a new life.

*Produced after 2011.

Need a flooring product today?

The most popular collections, including **DESSO carpet tiles** are held in stock at participating stockists and in our UK warehouse.

Our most popular Core Collection products are available from stock*.

*For orders of less than <500m² Terms & Conditions apply. Contact Tarkett for details.

SAFETY FLOORS

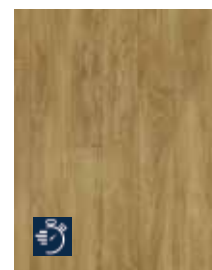

Slips, trips and falls is the number one cause of injury in the workplace and equates to over 37 million accidents worldwide, or 40% of all reported major injuries, according to the Health and Safety Executive.

Tarkett Safety Flooring with its increased embossing can prevent accidents, ensure overall safety for areas and reduce risk - making it the perfect choice for all establishments.

VINYL SAFETY FLOORING FOR WET AND DRY AREAS

LUXURY VINYL TILES

Created specifically for the UK market, Inspiration is a dynamic collection of 12 'dry back' LVT colours in rich wood & natural stone looks offers the perfect combination of style and performance for any commercial or residential setting.

Every colour is available either as a full size plank or tile and now in a new smaller format to enable a wide range of decorative installation options.

- Contract grade LVT
- 12 UK-centric colours across 3 formats
- NEW mini plank woods & slim tile stones for decorative installations
- 4 sided mini bevel on all formats
- Phthalate free
- Low VOC's
- Fully Recyclable

RANGE	TYPE	WEAR LAYER	STOCK COLOURS	FORMAT

iD INSPIRATION LL	Loose Lay	0.55	4	Plank / Tile
iD SQUARE	Loose Lay	0.55	3	Tile

Inspiration

LUXURY VINYL WITH AUTHENTIC WOOD & STONE DESIGNS

Playing with a 'herring-stone' layout using the three Rock colours.

Here we are mixing Contemporary Oak Brown and Grege in a double herringbone layout.

A simple wood effect brick bond or 'half-drop' pattern using the three Rustic Oak colours randomly combined.

A fresh take on a ceramic chequerboard effect with Rock Black and Grey.

HOMOGENEOUS COMPACT VINYL FLOORING

Homogeneous vinyl floorings are tough and ultra-durable solutions for heavy and very heavy traffic areas, especially recommended for applications in healthcare and education for their resistance and ease of cleaning.

Composed of a single compact layer of vinyl, homogeneous vinyl floors are glued to the sub-floor and welded for optimal durability and hygiene.

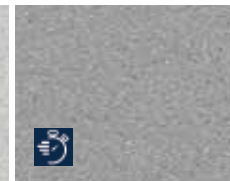

RANGE	TYPE	WEAR LAYER	STOCK COLOURS	FORMAT
iQ GRANIT	Homogenous	2mm	7	2m roll
iQ OPTIMA	Homogenous	2mm	8	2m roll
ECLIPSE PREMIUM	Homogenous	2mm	8	2m roll

HETEROGENEOUS VINYL

Heterogeneous vinyl flooring is a versatile solution for all types of applications. It comes in different constructions to accommodate the use in residential applications or high traffic areas such as schools and hospitals.

Composed of several layers, including a printed sheet for limitless design possibilities. The acoustic version features a foam interlayer to reduce sound transmission and absorb shocks.

Contract Wood draws its inspiration from the natural beauty of real wood, offering you the most contemporary trends in wood species and colour. The elegant greys and rich natural oak tones are further enhanced with a new and improved embossing technique that saves time and money on cleaning and maintenance.

WOOD FLOORING

There's nothing quite like the beauty of a wood floor. Its grain and texture bring a natural warmth to any interior, from bedroom to living room, kitchen to hallway.

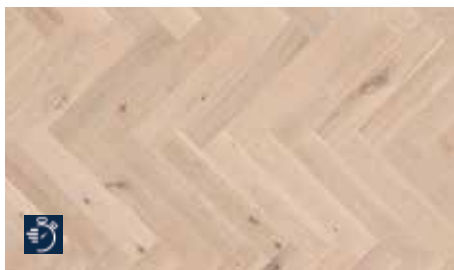

Today, decorative parquet effects can be re-imagined with a contemporary twist using the elegant new Segno collection to create truly remarkable floor finishes. In order to create these individual layouts we supply the Segno parquet boards in both 'left' and 'right' formats.

Valid from 1st June 2020 until further notice. Please note actual colours may vary - it's important to note that they may look different on a real product than what you see on your screen. Please request a sample piece before undertaking work as this will give you a stronger indication of the appearance of the actual colour, which can be affected by many factors including the lighting of a room.
