LUXURY VINYL TILE

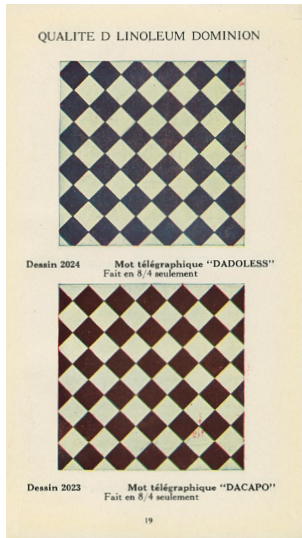

The beauty of nature. The benefits of LVT

The STELLAR Luxury Vinyl Tile collection combines the authentic beauty of natural materials with the performance that everyday life asks for. Our two carefully curated collections offer realistic wood and stone designs that capture every grain, knot and texture in remarkable detail. Designed to be durable, practical and easy to maintain, STELLAR LVT delivers the warmth with all the benefits of luxury vinyl tile.

A 140 year legacy in the making

In the 1880s, a small carpenter’s shop in Malmö handcrafted parquet from local oak and beech — built on artisan skill and an uncompromising respect for natural materials. That founding spirit remains richly embedded in Tarkett’s DNA to this day.

Now the world’s number one manufacturer of resilient flooring across 100 countries, Tarkett has channelled that legacy into STELLAR — designed for easy-living, without ever compromising on the beauty of nature’s design.

HONOURING TRADITION
We select the finest woods and stones from across Europe and use artisanal techniques to faithfully recreate their natural beauty.

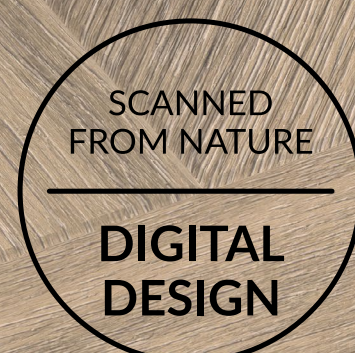

LEADING THROUGH INNOVATION
As the creators of Tektanium surface protection, we pioneered new technologies and became the first to master digital printing.

BUILT FOR A BETTER FUTURE
Made in Europe and designed to be fully recyclable, our flooring reflects our ongoing commitment to circularity.

Nature perfected by technology

Advanced digital printing creates the realism that is found in Stellar**Naturals**. Every floor starts with a real scan of wood or stone, preserving every natural detail. With no visible pattern repeat up to 50 planks and 24 tiles (12 m²), your floor feels rich, authentic and uniquely alive.
