

iD CLASSICS GRADING BOOK

At Tarkett, innovation is guided by a simple belief: flooring shapes how we live, work, and feel. With the iD range, creativity leads every project. Once the first intuitive choice is made, formats, textures, and installation methods unfold naturally. This intelligent range transforms complexity into clarity, empowering architects, designers and installers to shape each project with ease and intention:

Your space.
Your story.
Your iD.

iD – The All-in-One by Tarkett

* only available on some iD Classics colors, please check the sample card

Circular innovation

Tarkett's circular approach shapes every stage of the iD range.

All iD products are now Made in Europe with at least 20% recycled content, reinforcing our commitment to quality, proximity, and a reduced carbon footprint.

The range also represents a major advancement by introducing our first Glue-Down product that has been engineered to be fully recyclable after use through our ReStart® programme.

Circularity isn't a goal for the future; it's the framework guiding how we design and produce today.
