## DESSO Tide

Inspired by an extraordinary element of nature

**DESSO Tide** carpet lends a feeling of rippling waters to the indoors with its subtly layered wavy design. Like the tidal ridges of the seabed, this textured carpet allows you to play with the space to create a serene flooring with a nautical look.

All colours of DESSO Tide are produced using 100% ECONYL® regenerated yarn, made from discarded fishing nets, old carpets and nylon industrial waste, while boasting the same qualities as brand-new nylon.

**Wavy 3D-effect**

DESSO Tide has a diffused, repeating pattern combined with a multi-level loop structure, giving the wavy 3D-effect to the flooring.

Bring the ocean to your room with four nautical colours; dark and light blue, dark and light grey.

- Available in 4 nautical colours
- Multi level loop carpet
- Full compliance with IMO part 2 marine standards
- Long term durability
- Reduction of cut-off waste due to specially designed repeat pattern
- 100% ECONYL® regenerated yarn
- 10 years warranty
- Delivery from stock\*
- Minimum order quantity 25 length meters ( x 4.0 m width = 100 sqm)

\* Depending on availability.

# 100% ECONYL®

**DESSO Tide** contains 100% ECONYL®, a regenerated nylon yarn, made from yarn fluff from our own carpet recycling centre and other recovered waste materials such as discarded fishing nets.

## Healthy Seas, a Journey from Waste to Wear

As a company we also support the Healthy Seas initiative ([www.healthyseas.org](http://www.healthyseas.org)). The initiative aims to remove waste, in particular fishing nets for the purpose of creating healthier seas and recycling marine litter into ECONYL® regenerated yarn, which is being used to produce DESSO Tide carpet.

## Looking for a customized design that will leave a great impression?

We also offer a fully customisable luxurious DESSO Axminster carpets. Tarkett's design team has a world of experience in tailoring carpets to your needs, being able to render virtually anything into carpet. Putting customers on the inside track, we translate inspiration into designs while taking practical and commercial issues such as seam and waste reduction into account.
