 **Tarkett**

Building new grounds

Step into the next generation of flooring with **iD Evolution Rigid**, our non-PVC Rigid collection. With a composition of **55% mineral content**, it effortlessly blends strength, versatility, and eco-consciousness to deliver an all-in-one flooring solution.

Crafted to last

Tektanium® technology and high resistance to thermal dilation makes it a long-lasting solution for living and working environments.

Designed with performance in mind

Suitable for commercial spaces, offering a **watertight** solution for bathrooms.

Authentic natural designs

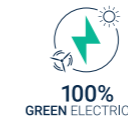

Provides an aesthetic appeal that enhance any space with a touch of natural beauty.

iD Evolution Rigid is testament to our commitment to innovative, sustainable design. It offers a robust and stylish modular flooring solution that meets the diverse needs of modern spaces.

LOWER EMISSIONS

Made in Europe with low carbon footprint:
less than 10 kg CO₂ eq/m² (A1-A3)

iD Evolution Rigid flooring production uses **100% green electricity**

LESS WASTE

Made from at least **25% recycled content** (post-consumer)

Glue-free installation

Offcuts and post-use

GREATER WELL-BEING

Lowering our environmental footprint will never mean compromising on **comfort, health, or overall well-being**

iD Evolution Rigid is **free of phthalates, halogens, and solvents**

Very low VOC emissions for improved **indoor air quality** (Gold Level)

MORE PROOF

Committed to using the highest quality materials and sharing the impact of our products in a totally transparent way (details listed in our MHS)

Our Product Health Declaration considers the **individual health impacts** of every material within our product

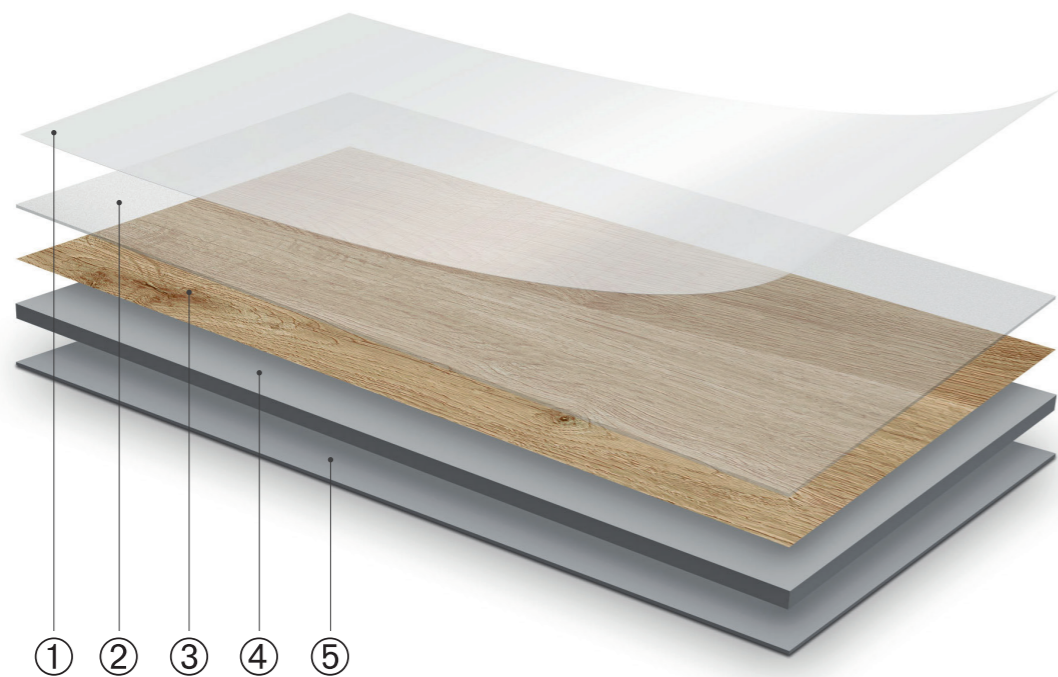

Minerals

iD Evolution Rigid is a high-quality flooring solution **made with 55% mineral** content sourced from two natural resources: chalk and talc.

The New Generation of Modular Flooring:

Natural ingredients for maximum efficiency

- ① **Top Coat:** imparts a matte finish, providing exceptional scratch resistance.
- ② **Wear Layer:** enhances the texture of the design and significantly bolsters its resistance to wear and tear.
- ③ **Printed Décor:** directly on the board-employs top-quality digital printing techniques to achieve an authentic and natural appearance.
- ④ **Core Layer:** delivers structural strength and durability, while mitigating the transfer effects resulting from surface irregularities.
- ⑤ **Backing Foam:** ensures acoustic properties.

The iD Evolution Rigid collection offers two-click options: the Angle-to-Angle Click for residential purpose or the Push-Down Click for commercial spaces.

Angle-to-Angle Click

iD Evolution Rigid Home offers seamless installation thanks to its Angle-to-Angle Click. This mechanism ensures each plank locks securely into place, creating a gap-free finish that enhances the aesthetic appeal of any room. Angle-to-Angle Click is also renowned for its stability and durability making it a long-lasting floor that can withstand heavy foot traffic.

Push-Down Click

iD Evolution Rigid brings a new level of convenience and efficiency with the Push-Down Click. This intuitive mechanism, seals planks securely with an angling and push down locking combination, reducing installation time and effort, making it a cost-effective solution for any renovation project. This system ensures a tight, gap-free fit that enhances the overall appearance making the flooring watertight.

ID Evolution Rigid Features

The iD Evolution Rigid collection offers 2 different products, each with its own features. Both products are rigid, durable, practical, easy to clean and install. Take a look at the table below for detailed features.

BENEFITS COLLECTION	 Thickness	 Class of Use	 Acoustic Performance	 Click	 Designs	 Withstands Water	 Dimensional Stability	 Easy to Clean	 Recycled Content	 Can be Installed over Ceramic	 Indoor Air Quality
 iD Evolution Rigid Home	5 mm	 23  31	18 dB	Angle-to-Angle	10	 Waterproof	≤0.10%	✓	> 25%	✓	Gold (≤ 100 µg/m ³)
 iD Evolution Rigid	5,70 mm	 23  34	18 dB	Push-Down	4	 Waterproof & watertight

TEKTANIUM™

Best ultra matte finish and unequalled resistance

The iD Evolution Rigid collection features our TEKTANIUM™ PU coating which uses a proprietary polymer system. This forms a naturally clear, verifiably stronger layer of protection that delivers unequalled resistance to scratches, abrasions, wear, and stains. Moreover, it offers an ultra matte finish which is visible from all angles. By combining the ultra matte effect with excellent resistance and durability, the surface appears more realistic and lasts longer. TEKTANIUM™ is the only PU coating to have all these features, so there's no need for compromise.

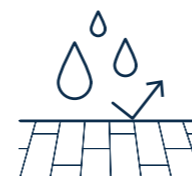

Advanced Performance

Soundproof

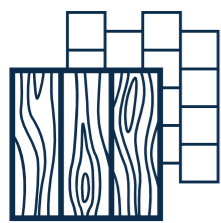

Experience a quieter environment with iD Evolution Rigid floorings. Achieve an 18dB impact sound reduction, providing significant noise reduction in any room. Save on costs with iD Evolution Rigid's integrated acoustic backing, eliminating the need for additional acoustic underlay.

Suitable for bathrooms and kitchens

Ideal for use in bathrooms and kitchens, iD Evolution Rigid is designed with a watertight locking system that effectively prevents water leakage. This flooring solution offers reliable slip resistance with a rating of R10, ensuring safety in wet environments.

Easy & Fast Installation

Renovation-proof

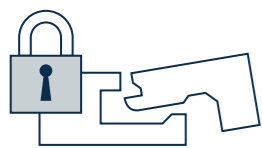

The iD Evolution Rigid collection allows for easy replacement of damaged sections and is enhanced by its acoustic backing which adds comfort and sound insulation. Installed directly over ceramic tiles and most existing subfloors, this collection minimises downtime and is ready to use immediately.

GLUE FREE
INSTALLATION

Glue-free

The iD Evolution Rigid collection is glue-free, offering a versatile, economical, and environmentally-friendly choice for both residential and commercial applications. One of its primary benefits is the ease of installation, making it a DIY-friendly option that saves on professional labour costs and speeds up the process since there's no need to wait for the adhesive to set.

Click

Click flooring is easy and quick to install, often without the need for glue or nails, and can be laid over various subfloors. It is durable, easy to maintain, and cost-effective, with many budget-friendly options that reduce installation costs.

Authentic Design

HD digital print

Discover our advanced digital printing technology, enabling us to reveal subtle details of the wood decor. Digital printing enables high-quality, realistic patterns that replicate natural materials while providing cost-effective versatility and faster production times.

Natural design

Opting for natural design brings the beauty of the outdoors into your home, creating a warm and inviting atmosphere. The authentic textures and organic patterns of natural materials, such as wood or stone, provide a timeless and sophisticated look. The iD Evolution Rigid collection not only enhances your interiors but also aligns with sustainable living principles.

Collection

The iD Evolution Rigid collection is designed with nature in mind. Digital print technology allows us to capture the essence of natural materials.

Accessories

SKIRTING

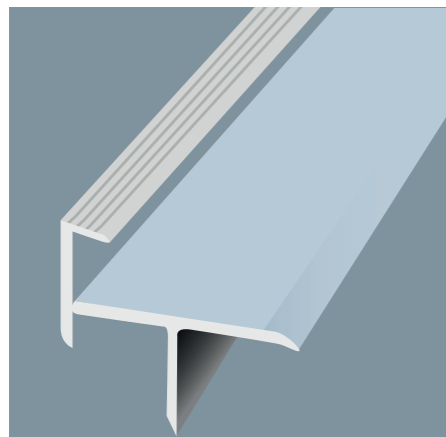

NON-PVC DECORATIVE SKIRTING

- **Material:** 100% recyclable white polystyrene that contains a minimum of 30% recycled content
- **Colour:** white, but can be repainted
- **Size:** L2400 x W13 x H60 mm
- **Packaging:** each box contains six pieces of a combined length of 14.4m

● White 1411 900

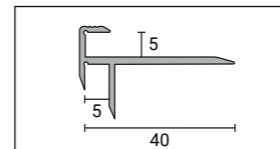

STAIRS

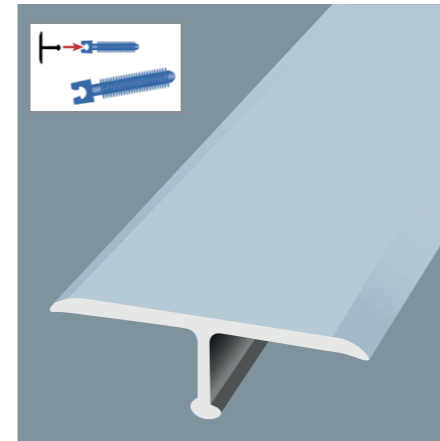

ALUMINIUM STAIRNOSE FOR VERY HIGH TRAFFIC

- Ribbed surface, slip-resistant
- Elegant finish
- To be screwed
- **Size:** L2500 x W40 x H5 mm
- **Packaging:** 10 units

● Silver 1434 021
● Stainless steel 1434 022

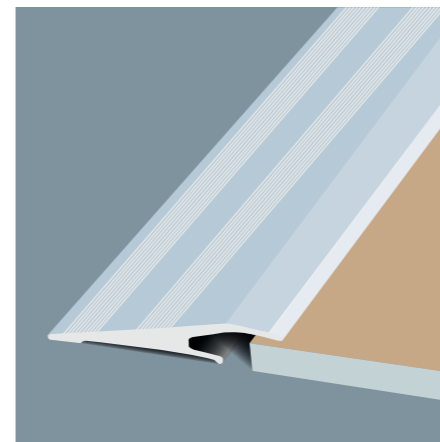

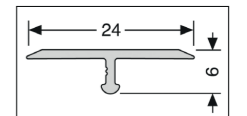

TRANSITION PROFILES

LUXURY TILES TRANSITION STRIP GENERAL TRAFFIC

- To be screwed
- Elegant finish with smooth surface and no visual screws
- Bendable with radius 60 cm
- **Size:** L2700 x W24 x H6 mm
- **Packaging:** - full kit includes top profiles and dowls.
- 10 units (27lm)

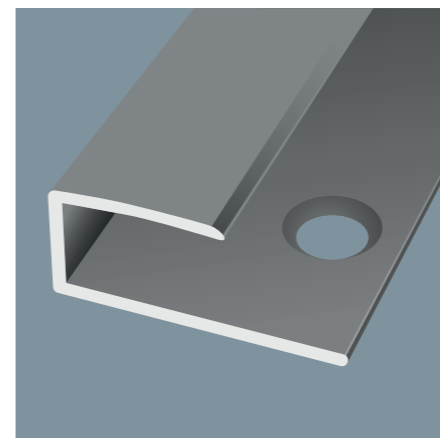

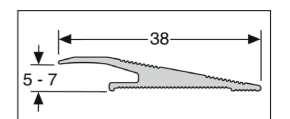

● Silver 1451 021
● Stainless steel 1451 022

RAMP PROFILE FOR HEAVY TRAFFIC

- Aluminium ramp profile used in very heavy traffic areas
- To be screwed
- **Size:** L2700 x W38 x H5 or 7 mm
- **Packaging:** - full kit includes: Ramp profiles
+ Screws / Dowls diameter 5 mm
- 10 units (27lm)

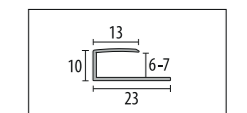

● Silver 1454 011
● Stainless steel 1454 012

LUXURY TILES STOP

- Aluminium profile to secure and offer a net finish at the end of a floor covering
- To be screwed
- **Size:** L2700 X W23 mm x H13 mm
- **Packaging:** 10 units (27lm)

● Stainless steel 1456 013
