WOOD - PRODUCT DATASHEET 2024

FOR RESIDENTIAL USE

TECHNICAL DATA (EN 14354)		11 mm
Reaction to fire	EN 13501	Cfl-s1
Emission of formaldehyde	EN 14342	E1
Brinell hardness (average value) Oak	(BHN) EN1534	4,2
Reduction of sound weighted index ΔL_w in dB with Tarkett ragfelt ΔL_w in dB with 2 mm Tarkofoam/flex II	EN ISO 10140-3 / EN ISO 717-2	≥ 17 ≥ 17
Thermal insulation value (RT m ² K/W) board only with Tarkett rag felt with 2 mm Tarkofoam/flex II	EN ISO 10456:2007	0,071 0,091 0,111
Thermal conductivity (W/m K)	EN 12664 / EN 14342:2013	0,15
Construction: softwood veneer and HDF core		3-layer

INSTALLATION	
Installation method	2-lock for floating
Installation instruction	Download from www.tarkett.com Contact your supplier for more details
Underfloor heating compatible Maximum floor surface temperature 27°C with self-regulating underfloor heating system	Yes
Start & Stop: Shorter lengths of planks included in approx. 1 pack per 15 m ²	

RECOMMENDED ACCESSORIES	
Installation	Tarkofoam II / Tarkoflex II / Tarkett ragfelt / Polythene foil Installation kit
Aesthetics	Skirting Transition moulding Pipe covers
Care & Maintenance	Tarkoclean for lacquered floors Refresher for lacquered floors
See more alternatives and the complete range of accessories @ www.tarkett.com	

MAINTENANCE
These Tarkett wooden floors have a surface treatment from Tarkett and therefore a good protection against normal wear, abrasion, scratches and stains. Some floors will require more frequent maintenance for increased life span. Generally these products are light coloured floors and hardwax oiled floors, particularly with brushed surface and/or highlighted details. Please always refer to maintenance guidance available on websites.
See maintenance instructions @ www.tarkett.com

SMART OAK WHITE PLANK XT - 41032002

Smart products have all the natural variations in structure and colour, from light to dark, and can include sapwood and knots without limitations. Knots and cracks are often filled or partially filled with dark putty. Tiny cracks and holes without putty can be found occasionally. The proportion of knots and sapwood will vary between batches. To get an overall impression of potential variations, see also images of other Smart products. Although every care has been taken to reproduce images that reflect the finished product, the quality of monitor and printer and the nature of wood results in variations in the color and structure of individual planks. When sanding a wooden floor the appearance will change in colour, texture and surface effects.

SMART OAK WHITE PLANK - 41033001

Smart products have all the natural variations in structure and colour, from light to dark, and can include sapwood and knots without limitations. Knots and cracks are often filled or partially filled with dark putty. Tiny cracks and holes without putty can be found occasionally. The proportion of knots and sapwood will vary between batches. To get an overall impression of potential variations, see also images of other Smart products. Although every care has been taken to reproduce images that reflect the finished product, the quality of monitor and printer and the nature of wood results in variations in the color and structure of individual planks. When sanding a wooden floor the appearance will change in colour, texture and surface effects.

SMART OAK WHITE TRES - 41031002

Smart products have all the natural variations in structure and colour, from light to dark, and can include sapwood and knots without limitations. Knots and cracks are often filled or partially filled with dark putty. Tiny cracks and holes without putty can be found occasionally. The proportion of knots and sapwood will vary between batches.
