100	Oxide - Copper

Naturals

Designing as nature intended

Our Naturals designs are scanned from nature through the meticulous sourcing of high quality raw materials such as wood and stone. Using a unique patent-protected digital printing technology, the only single-pass 2m wide printer for jetting water-based inks on vinyl in the world, we have reflected the best of nature's diverse features, from characterful wood grains to the subtle textures and nuances of stone. To convey the true diversity of the natural world in all its glory, our modular vinyl flooring displays a high definition with non-repeating motifs for up to 12m² (2x6m) and an ultra matt finish.

Authentics

Synchronising look and feel

Our Authentics designs are created with "Embossing in register" technology for a more natural look. This technology engraves effects onto planks and tiles to reproduce unique flooring that gives a truly realistic impression of real wood. The embossed pores perfectly echo the high definition printed image, resulting in finishes that are ever-more realistic, increasingly authentic and precise.

Classics

Trusting in our origins

Classic gravure printing has stood the test of time for decades. For this collection, our designers have selected our most acclaimed materials and colour harmonies to help you develop feel-good interiors. Our new Tektanium™ PU coating reinforcement achieves ultra matt effect and brings warmth and realism to the flooring's look and feel, while ensuring stain resistance and easy cleaning. Enhanced modularity is made more accessible to allow agile transformations of space.
