

WELL Building Standard® Credit Contribution  
(RESILIENT)

Johnsonite Tandus Centiva

CREDIT	DESCRIPTION	CONTRIBUTION	HOMOGENEOUS	HETEROGENEOUS	LVT	VCT	VET	SVT	RUBBER	ACCESSORIES	BASEWORKS	LAMINATES	LINOLEUM
04 Part 2	VOC Reduction: Interior Adhesives & Sealants	All recommended adhesives for products meet SCAQMD Rule 113 and/or California Department of Public Health (CDPH Standard Method v. 1. 1-2010.) Tiles with TarkettTAPE™, clic auto locking systems, rubber interlocking and loose lay can avoid the use of adhesives. See (1)	X	X	X	X	X	X	X	X	X	X	X
04 Part 3	VOC Reduction: Flooring	Tarkett demonstrates low VOC emissions products. For resilient Floorscore certificates according to CDPH Std method v1.1-2010. All recommended adhesives for products meet SCAQMD Rule 113 and/or CDPH Std method v1. 1-2010.	X	X	X	X	X	X	X	X	X	X	X
11	Fundamental Material Safety	Tarkett floors do not contain lead Asbestos PCBs or Mercury.	X	X	X	X	X	X	X	X	X	X	X
25 Part 1	Toxic Material Reduction: Perfluorinated Compound Limitation (100ppm)	Tarkett products contain no perfluorinated compounds at levels equal to or greater than 0.01% (100 ppm).	X	X	X	X	X	X	X	X	X	X	X
25 Part 2	Toxic Material Reduction: Flame Retardant Limitation (100ppm)	Tarkett products (b. flooring) meet hazardous flame retardant limits at 0.01% (100 ppm) or below.	X	X	X	X	X	X	X	X	X	X	X
25 Part 3	Toxic Material Reduction: Phthalate Plasticizer Limitation (100ppm)	Tarkett products (a. flooring) have limited plasticizers within their products to 0.01% (100 ppm) or below. No phthalates are present in Tarkett resilient products, except for LVT, which contains less than 100ppm and is compliant with this credit.	X	X	X	X	X	X	X	X	X	X	X
25 Part 4	Toxic Material Reduction Isocyanate Based Polyurethane Limitation	If any, surface treatment is applied in factory during controlled production operations – therefore no finishes required on job site except for VCT,VET and SVT.	X	X	X				X	X	X	X	X
26 Part 1	Enhanced Material Safety: Precautionary Material Selection	Cradle to Cradle® v3 Silver Gold or Platinum certified Products: Linoleum. Silver: Baseworks, Rubber products.							X		X		X
28 Part 1	Cleanable Environment: Cleanability	Modular products allow easy installation and removal : carpet tiles, LVT clic and loose lay, Laminates floorcoverings, interlock/sidelock rubber tile.	X	X	X	X	X	X	X	X	X	X	X

(1)Tarkett will recommend adhesives for these products meeting requirements of the credit.

(2)Some rubber products (Triumph and Inertia™) over on 500mg<sup>3</sup> TVOC limit required for credit

(3)Compliance document is available for Victory® Series only

CREDIT	DESCRIPTION	CONTRIBUTION	HOMOGENEOUS	HETEROGENEOUS	LVT	VCT	VET	SVT	RUBBER	ACCESSORIES	BASEWORKS	LAMINATES	LINOLEUM
29 Part 1	Cleaning Equipment: Equipment and Cleaning Agents	Tarkett products are developed to perform on total life cycle costs requiring less detergents and less water for cleaning. They reduce water footprint and avoid indoor air pollutions with detergent products VOC emissions during the use phase of their life cycle. Tarkett will recommend Maintenance products meeting the requirements of the credit. -iQ range compatible with dry buffing technology -Air Master makes vacuum cleaning easier and more effective to capture fine particulates.	X	X	X	X	X	X	X	X	X	X	X
87	Beauty and Design I	The incorporation of design elements and artwork to a space can create a calming environment able to improve occupant mood. To thoughtfully create unique and culturally-rich spaces. Flooring is a relevant element of the spatial experience; Tarkett offers various designs, color ranges and specials, works together with architects, artists and designers for developing products. Desso and Tandus Centiva carpets are developed in collaboration within the "design community". Tarkett has developed a specific expertise in colors and patterns selection for specific populations: children and aged people. Collection Infinies promotes designer visuals. On demand customization available in both soft and resilient; digital printing for resilient products.	X	X	X	X	X	X	X	X	X	X	X
88 Part 2	Biophilia I – Qualitative: Pattern Incorporation	Wood and Stone LVT, rubber tile, sheet and carpet designs inspired by nature.		X	X				X	X	X	X	
97 Part 1	Material Transparency: Material Information	Tarkett complies with USGBC LEED MR credit 4 option 1 and 2 with C2C silver or gold; LEED MR credit 4 option 1 with the MHS and C2C bronze.			see (3)				X		X		X
99	Beauty & Design II	Spatial familiarity: Flooring space design allows infinite combination and creation of visually grouped zones or areas that use the following unifying design of patterns and colors.	X	X	X	X	X	X	X	X	X	X	X
101-105	Innovation	Relates to the wellness concept in a novel way that is not already covered in the WELL Building Standard; our products innovations contribute to Well features 29 (Cleaning), 30 (Adequate light levels), 59 (surface reflectivity), 80 (sound reducing surfaces) although flooring is not considered in the criteria.	X	X	X	X	X	X	X	X	X	X	X
Other criteria not related to flooring - However flooring surfaces contribute to performance achievement													
1	Air Quality Standards	Many of our resilient products contribute to indoor air quality through low emissions and/or fine dust capturing properties.	X	X	X	X	X	X	X	X	X	X	X
53	Visual Lighting Design (Adequate Light Levels)	The light reflection value can be given for all products upon request.	X	X	X	X	X	X	X	X	X	X	X
59	Working and Learning Area Surface Reflectivity	Flooring is not mentioned. However, in combination with ceilings, walls and furniture, it has an effect on the overall reflectivity and visual comfort. LRV available for all products and can be recommended according to space function and use.	X	X	X	X	X	X	X	X	X	X	X
80	Sound Reducing Surfaces	Some flooring constructions reduce sound reverberation, noise impact and maintain comfortable sound levels. Flooring is not mentioned in the features, but adds to it; all carpet and specific acoustic underlayments for all other products can contribute greatly to sound absorption requirements. Sound absorption can be improved using linoleum, LVT, heterogeneous, homogeneous, rubber, iQ, slide lock with acoustic options that are available.	X	X	X				X				X

(1)Tarkett will recommend adhesives for these products meeting requirements of the credit.

(2)Some rubber products (Triumph and Inertia™) over on 500mg<sup>3</sup> TVOC limit required for credit
