

Senior Living Resident Rooms Solutions

Providing retreat in private spaces.

For Senior Living communities, flooring products that perform well and look great are always in demand. As the growth of this segment continues its upward trend, we will see an emphasis placed on the value and aesthetics of the materials selected.

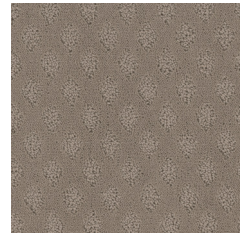

Private spaces within the Senior Living environment lend themselves to soft surface materials. Tarkett's Senior Living Room Solutions offer the durability of a commercial product, with the soft sophistication of a high-end residential design.

SARITA (234), Broadloom

Behind our commitment to great design is a belief that interior spaces should support, inspire, and connect the people who use them. We call this philosophy Tarkett Human-Conscious Design™, and we use it to guide our decisions every day. From the way our products look to the way they perform, and from healthier material selections to better infection control, we're constantly reminded that great design is about supporting people. Not just a few people. All people.

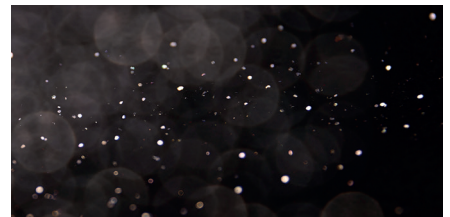

GOOD MATERIALS

With more **Cradle to Cradle®** certifications than any other flooring manufacturer and a product portfolio that's **100% phthalate-free**, we subject ourselves to relentless scientific scrutiny and offer radical transparency about our products.

INDOOR AIR QUALITY

Our products exceed the strictest industry standards for air quality by so much, we've had to set our own standards. Tarkett is the flooring manufacturer to offer residential and commercial products that are **CERTIFIED asthma & allergy friendly®**.

CIRCULAR ECONOMY

We're working to close the loop on waste, preserving our planet's natural resources and reducing the impact on climate change.
