Adaptt by Tarkett

Luxury Vinyl Flooring backed by SureSet™ Technology

Tarkett's Adaptt with SureSet Technology is backed with a unique sculpted wave backing system that has adhesive on the raised wave, leaving the channels open and free of adhesive so that the floor can absorb sound and breathe — resisting moisture and providing a better acoustical experience underfoot. With a pre-applied adhesive that's easily repositioned, this dimensionally stable solution forgives mishaps at every stage of the project, so it can keep looking beautiful for years to come.

Massive technology shift.

Contour combines a 32 mil wear layer with our new state-of-the-art Tectonic protection to deliver unmatched durability in high-traffic areas. Tarkett's Tectonic is a massive shift forward in performance for hard surface floors. Its advanced new polyurethane technology is super tough, resisting scratching, abrasions, scuffing and staining—ensuring that your floors look nicer, longer. And Tectonic's matte finish adds beauty, depth, and dimension, for safe and beautiful floors that stand up to the worst of wear.
