iD Inspiration Marine

LUXURY VINYL TILES

The selected LVT flooring iD Inspiration Marine by Tarkett is a premium line of Luxury Vinyl Tiles (LVT) specifically designed for marine environments, combining aesthetic appeal with robust technical performance, adhering to stringent industry standards, particularly the **IMO/MED regulations (IMO Part 2/5 Compliant)** approved by the United States Coast Guard & the International convention for Safety Of Life At Sea (Wheelmark certified).

KEY FEATURES

Matt finish and unequalled resistance for marine areas. The total thickness is 2.5 mm and the wear layer of 0.55 mm is reinforced with PUR surface treatment, which brings a matt finish and exceptional resistance to scratches, stains, and soiling. This also ensures easy cleaning for maximum hygiene and resistance to chemicals and staining in sensitive areas. It permanently eliminates the need for wax and regenerating polish spray maintenance operations. It has a static indentation resistance of ≤ 0.10 mm, R10 of slip resistance and comes with a 10-year commercial warranty.

SUSTAINABILITY CREDENTIALS

Good materials

The product is manufactured with a phthalate-free plasticizer.

Recycled content

The backing layer is partially made of recycled vinyl. It contains a minimum of 15%–20% of recycled content.

Optimal indoor air quality

Its emission rate of volatile organic compounds in air is less than $10 \mu\text{g}/\text{m}^3$, tested 28 days after installation. A threshold 100 times lower than levels set by the most stringent EU regulations.
